We Have Sold Reliable Seeds For 89 Years.

1818-1907.

J. BOLGIANO & SON

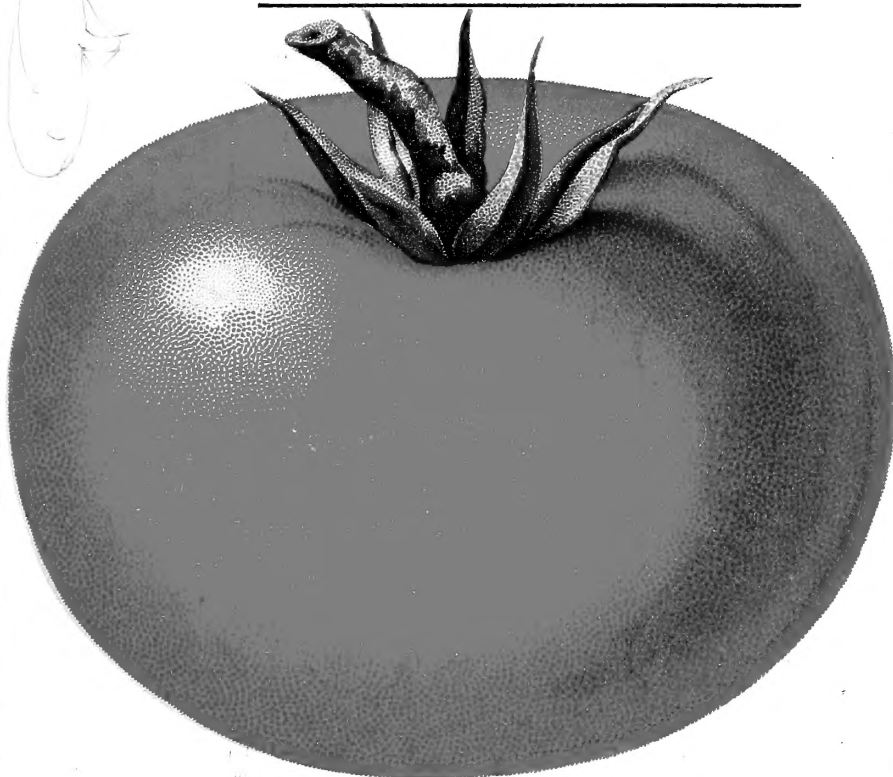

SEED GROWERS · MERCHANTS · IMPORTERS

PRATT AND LIGHT STS., BALTIMORE, MD.

VERDICT:

ALL YOU CLAIM FOR BOLGIANO'S I.X.L. TOMATO
WE FIND IS ABSOLUTELY TRUE. (SIGNED)

BY A JURY OF SUCCESSFUL TOMATO GROWERS.

BOLGIANO'S EXTREMELY EARLY

I.X.L. TOMATO

1. EARLIEST, LARGEST, ABSOLUTELY SMOOTH TOMATO ON EARTH.

A WEEK EARLIER THAN THE "EARLIANA", AND AS LARGE AS THE "GREAT B. B."

2. A BEAUTIFUL, BRILLIANT RED COLOR.

3. Vines are a perfect mass of large, smooth fruit; and each plant will produce under favorable conditions a one half bushel or more of the finest fruit.

4. Fruit is extremely early, enormously abundant and ripens all at once.

5. Vines are very compact and can be placed two feet apart in three foot rows.

6. As an extremely Early prolific stem setter, it is a wonder.

7. The absence of unnecessary leaves permits all the fruit to ripen so remarkably early.

8. IT IS ALMOST LIKE FINDING MONEY TO GROW THE I. X. L. TOMATO.

9. THE LARGEST AND MOST SUCCESSFUL TOMATO GROWERS TELL US WE SHOULD BE PROUD OF OUR I.X.L. TOMATO, AND THAT WE CANNOT SAY TOO MUCH IN ITS FAVOR.

Price, Pkt. 25c, ½ oz. 50c, 1oz. 75c, 2 ozs. \$1.25, ¼ Lb. \$2.50, 1 Lb \$8

Extra Fine Poultry Bone.										

BOLGIANO'S LAWN FERTILIZER.

Stable manure should never be used as the top dressing on lawn, for it always contains large quantities of weeds. We have, therefore, had prepared for us a special lawn fertilizer, which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet, 500 to 1,500 pounds per acre. Prices: Packages 10c, by mail 20c. 5 Lbs. 25c. 10 Lbs. 45c. 25 Lbs. \$1.00. 100 Lbs. \$2.50. 500 Lbs. \$11.00.

CUBAN PLANT FOOD IS CENTS PER PACKAGE.

J. BOLGIANO & SON'S SEED TABLE. THE QUANTITY OF SEED USUALLY SOWN TO AN ACRE AND NUMBER OF POUNDS TO BUSHEL.

No. Lbs. to Bushel.	No. Lbs. to Acre.	No. Lbs. to Bushel.	No. Lbs. to Acre.	No. Lbs. to Bushel.	No. Lbs. to Acre.

Clover, Lucerne, alone.....60	15 lbs.	Parasol, in drills.....—	4 to 6 lbs.	Clover.....—	8 lbs.
Cucumber, in hills.....60	1 1/2 to 2 lbs.	Peas, early, in drills.....60	1 bus.	Timothy.....—	10 lbs.

QUANTITY OF SEEDS REQUIRED FOR A GIVEN NUMBER OF PLANTS, NUMBER OF HILLS, OR LENGTH OF DRILLS.

Asparagus.....1 oz. to 50 ft. drill.	Okra.....4 oz. to 100 ft. drill.	Spinach.....2 oz. to 100 ft. drill.	Corn.....1 qt. to 200 hills.
Beet.....1 oz. to 50 ft. drill.	Onion.....1 oz. to 100 ft. drill.	Turnip.....1 oz. to 150 ft. drill.	Cucumber.....1 oz. to 50 hills.
Celery.....1 oz. to 100 ft. drill.	Onion Sets small 1 qt. to 100 ft. drill.	Peas.....1 qt. to 100 ft. drill.	Watermelon.....1 oz. to 30 hills.
Carrot.....1 oz. to 100 ft. drill.	Parsley.....1 oz. to 150 ft. drill.	Dwarf Beans.....1 qt. to 100 ft. drill.	Musk Melon.....1 oz. to 60 hills.
Endive.....1 oz. to 100 ft. drill.	Parsnip.....3 oz. to 100 ft. drill.	Leek.....1 oz. to 100 ft. drill.	Pumpkin.....1 oz. to 40 hills.
Egg Plant.....1 oz. to 300 ft. drill.	Radish.....2 oz. to 100 ft. drill.		Early Squash.....1 oz. to 50 hills.
Lettuce.....1 oz. to 150 ft. drill.	Salsify.....1 oz. to 70 ft. drill.		Marrow Squash.....1 oz. to 16 hills.
Cabbage.....1 oz. seed will produce 2000 plants.	Celery.....1 oz. seed will produce 3000 plants.		Pepper.....1 oz. seed will produce 1000 plants.
	Cauliflower.....1 oz. seed will produce 2000 plants.		Tomato.....1 oz. seed will produce 1500 plants.
	Egg Plant.....1 oz. seed will produce 1000 plants.		Lettuce.....1 oz. seed will produce 3000 plants.

HARDY LILIES.

Add 2c a Bulb or 25c a dozen postage.

These beautiful flowers can be had in abundance in your garden and will bloom year after year if you plant the bulbs in the Spring at the same time you plant Dahlias, Cannas, etc. Every garden should contain at least a few Lilies, as no other flowers approach them in their exquisite type of beauty.

AURATUM (the Golden Banded Lily of Japan).—Petals are a clear Ivory-White, banded with rich golden yellow and heavily spotted at base with deep crimson. Large Bulbs 8 to 9 in. 10c each. \$1 per doz. \$8 per 100. Extra Large Bulbs 9 to 11 in. 15c each. \$1.50 per doz. \$10 per 100. Mammoth Bulbs 11 to 13 in. 20c each. \$2.25 per doz. \$15 per 100.

LONGIFLORUM, Multiflorum.—Beautiful snow-white trumpet-shaped flowers, very fragrant. Large Bulbs 6 to 8 in. 7c each. 75c per doz. \$5 per 100. Extra Large Bulbs 7 to 9 in. 10c each. \$1 per doz. \$7 per 100. Mammoth Bulbs 9 to 11 in. 15c each. \$1.50 per doz. \$10 per 100.

MELPOMENE or Magnificent.—Silvery white, spotted with soft crimson in center. Extra Large Bulbs 8 to 9 in. 12c each. \$1.25 doz. \$9 per 100. Mammoth Bulbs 9 to 11 in. 16c each. \$1.75 doz. \$12 per 100.

SPECIOSUM MONSTROSUM ALBUM.—The large flowers are purest white; petals heavily reflexed. Extra Large Bulbs 8 to 9 in. 12c each. \$1.25 per doz. \$10 per 100. Mammoth Bulbs 9 to 11 in. 20c each. \$2.00 per doz. \$15 per 100.

SPECIOSUM RUBRUM or ROSEUM.—White shaded with deep rose, very beautiful. Extra Large Bulbs 8 to 9 in. 12c each. \$1.25 doz. \$10 per 100. Mammoth Bulbs 9 to 11 in. 16c each. \$1.75 doz. \$12 per 100.

TIGRINUM FLORE PLENO. The Beautiful Double Tiger Lily.—Flowers quite double, having several rows of tigered petals. Extra Large Bulbs 8 to 9 in. 7c each. 75c per doz. \$5.50 per 100.

LILIUM CANDIDUM.—This is the popular, fragrant, snow-white garden Lily which is often called the "Annunciation or St. Joseph's Lily." Extra Large Bulbs 8 to 9 in. 10c each. \$1 per doz. \$6 per 100.

FOR 75 CENTS we will send by mail, postpaid, to any address one bulb of each of the 7 Beautiful Lilies named above. FOR \$1.40 we will send by mail, postpaid, two bulbs of each of the 7 Beautiful Lilies named above. This is an inexpensive way of procuring a fine collection of The Best Hardy Garden Lilies.

THE VERDICT

I have never seen anything to compare with your I. X. L. Tomato. They are earlier, and stood the hot sun better than any other Tomato. I have some experience—been farming for 15 years.
Jan. 27, 1906. J. F. DELMAS, Scranton, Miss.

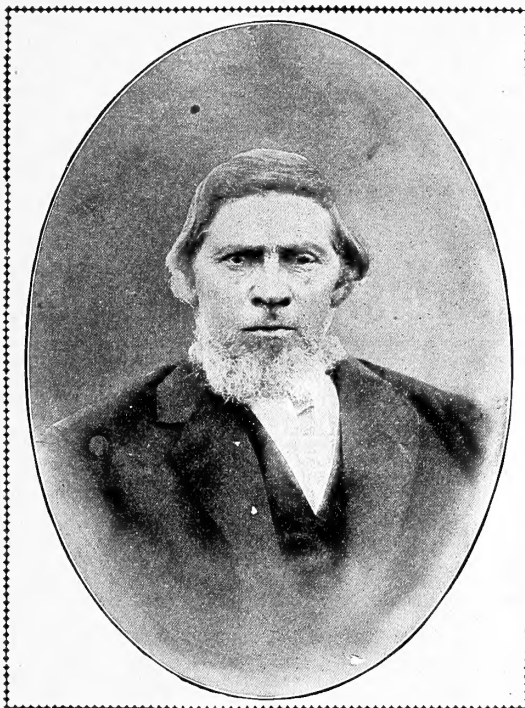

I am a devoted believer in your I. X. L. Tomato. What you claim for them is O. K.
Aug. 3, 1906. JESSE H. ROUTSON, Buckeystown, Md.

Your I. X. L. Tomato is the best Early Tomato I have ever grown, it has more large, smooth fruit on it than any I have ever seen.
Aug. 1, 1906. JOSHUA LYNCH, Grange, Md.

I am more than pleased with your I. X. L. Tomato.
July 4, 1906. R. L. WALL, Ojus, Fla.

Your I. X. L. Tomato yielded me a handsome crop of extremely early, large, smooth, solid Tomatoes.
B. F. THOMAS, Brooklyn, Md.

I grow Truck for Lexington Market, Baltimore, Md., and want to say your I. X. L. Tomato is the earliest and the best Tomato that was ever brought to that great market.
HENRY BLOOM, Catonsville, Md.

FREDERICK MEYERS, Most 90 Years Old, ORANGEVILLE, MD.

For 75 years I have planted Bolgiano's Seeds, bought my first seeds in 1832 when but a boy and have continued to plant Bolgiano's Seeds all my life because they have always proved Reliable.

Your I. X. L. Tomato is the best first early Tomato we have ever seen. Book our order for 2 lbs. for the coming crop.
July 23, 1906. VAUGHN BROS., Hearn, Texas.

I planted several early varieties of Tomatoes last season and found your I. X. L. Tomato to excel them all, I will plant it again.
Oct 24, 1906. J. M. WILSON, Augusta, Ga.

Your I. X. L. Tomato came extremely early for me and yielded an abundant crop of fine large, solid Tomatoes.
CHAS. A. COUNCILMAN, Trustee Md. Agricultural College, Glydon, Md.

Aug. 4, 1906.
Your I. X. L. Tomato proved to be the greatest success of any Tomato I have ever planted.
HUBBARD WILLIAMS, City Point, Fla.

Nov. 11, 1906.
My New Crop of I. X. L. Tomatoes are full of fruit and looking fine.
HUBBARD WILLIAMS, City Point, Fla.

Oct. 10, 1906.
Your I. X. L. Tomato is the Earliest and the Best Tomato we have ever grown.
ROESSEL BROS., Back River, Md.

My extremely early crop of your I. X. L. Tomato attracted the attention of many of my neighbors. They are abundant yielders and handsome, smooth red fruit.
JOSEPH COMES, Fullerton, Md.

BOLGIANO'S RELIABLE SEED STORE, Pratt & Light Sts., Baltimore, Md.

HOW TO DECIDE FROM WHOM TO BUY YOUR SEEDS.

A Seed Store is Known by its customers, and our customers are 90% Large Market Gardeners and Farmers, who grow Vegetables or Farm Products for their living and are therefore extremely careful from whom they buy their seeds.

You are about to go forth and sow your Seed; you are picturing in your mind abundant and profitable crops of delicious vegetables, beautiful flowers, velvety lawns, fine pastures or a full crop of hay or a big corn crop.

These are the results **you should have** in pay for your labor and investment; these are the results **you will have** if you trust us with your order for seeds.

FREE DELIVERY BY MAIL. We deliver free to any post-office in the United States all vegetable and flower seeds offered in this catalogue by the packet, ounce, quarter-pound and all varieties of Tomato Seed in any size package, including pounds. On all other seeds for half-pounds and upwards add 8 cents per pound.

SIMPLE RULES FOR ORDERING BOLGIANO'S RELIABLE SEEDS.

When Best to Order.—We are fully equipped for filling orders, and supplied with New Crop Seeds. Order at once, so that you can have your seed on hand ready to start planting your crops at the proper time without delay.

Send by mail if you cannot get to see us. We will send you Seeds that have been saved with great care. You will be pleased with the crops, and satisfied with our prices.

Use our Order Blank if you have one. If you haven't one, use any plain paper.

Tell Us in Your Own Way What You Want, in any language, always giving the Catalogue Number of each article. Enclose in your letter the amount of money, either a post-office money order, which you can get at the post-office, an express money order, which you can get at the express office, or a draft, which you can get at any bank; or put the money in your letter, take it to the post-office and tell the postmaster you want it registered.

The Cost of Your post-office or express money order may, on all orders over \$1.00 be deducted from the amount sent.

Postage Stamps, we will accept postage stamps the same as cash.

If You Live on a Rural Mail Route, just give the letter and the money to the mail carrier and he will get the money order at the post-office and mail it in the letter for you.

GUARANTEE.—We Guarantee all Shipments of Seeds, when remittance accompanies order, to reach the purchaser safely and in good condition.

Don't Be Afraid You Will Make a Mistake. We receive many orders from young and old who never before sent away for seeds. We are accustomed to handling all kinds of orders. No matter whether your order is in good or bad writing we will promptly fill it and send it to you.

Don't Be Afraid of the Freight or Express Charges. By our guaranteeing the expressage all the express lines in the United States and Canada, in the traffic agreement, are now carrying seeds at a reduced rate of 20% less than merchandise rates. Neither the freight or expressage will amount to much compared with what we save you in cost.

CHANGE OF ADDRESS.—If you have changed or intend to change your address, please let us know, and we will change it on our books, so that you will receive our Catalogues at your new Post-Office.

Be sure to Sign Your Name and Address.—If by boat or railroad say distinctly which boat or railroad to ship by, and if freight has to be prepaid add this amount to your order to prevent delay.

IF YOU ARE SATISFIED WITH US, with the goods you receive, the treatment we give you and your general business relations with us, will you do us the favor of mentioning the fact to some of your neighbors? If we can please you, we can please others, and we assure you that we will be careful to make your friends more than satisfied with the experiment.

Bolgiano's Seeds will produce for you **the best crops you have ever grown.** We guarantee them to be just as represented and to show you what confidence we have in our own Seeds, if they prove otherwise than represented by us, we will refill your order free of charge; but it must be agreed that we do not guarantee the crop any further than to refill the order.

We don't take chances with our Seeds; our stocks are right, and the Seed Farmers whom we employ to grow our Seeds are the most careful, the most experienced and the most honorable in the world.

We shall be glad to receive your orders and they will receive our personal prompt attention.

Yours for a Prosperous Year,
J. BOLGIANO & SON.

Market Gardeners, Farmers' Clubs and Institutions wanting to purchase Seeds in unusually large quantities should write for special prices. We have made prices very low in this Catalogue, yet when a number of bushels or pounds are wanted we can frequently supply at lower price than by the single pound or bushel. In writing give us a list of quantities and varieties required, and we will return list promptly with our lowest price for the lot.

Always remember that we can save you money, no matter where you live. Write us about any Seed you would like to know of, and your letter will be answered the same day it is received. If you wish to know exactly what the freight or express would be on any article to your station, write us and we will tell you.

Prices in this Catalogue are Subject to Market Changes, Special Quotations Promptly Given.

SPECIAL FOR SMALL GARDENS.—\$2.00 worth of Bolgiano's Reliable Garden Seed will produce from \$100 to \$200 worth of vegetables in any good Kitchen Garden. When vegetables come fresh, each meal, from your own garden, they are very delicious.

U. S. Dept. Agriculture Bulletin Entitled "The Vegetable Garden"

"The Small Garden probably pays better than any other land on the place. The average value of Garden Stuff to the acre was found to be \$147.17, while for Wheat the average was only \$11.65. In addition to this the GARDEN may be a bountiful source of quiet pleasure."

ENCOURAGE GOOD HEALTH BY THE FREE USE OF VEGETABLES.

Nearly every vegetable furnishes some constituent required by the system, that is otherwise not easily obtained except as a medicine.

Asparagus assists in the cure of kidney disorders. Beets and potatoes will add fat to the body. Carrots are excellent for indigestion. Garlic and leeks stimulate the circulation. Lettuce is a remedy for insomnia. Lettuce, onions and celery are tonics for the nerves. Onions are a germicide and also prevent malarial fever. Parsley assists good digestion. It is a boon to the dyspeptic. Parsnips are two to one ahead of Hood's or any other sarsaparilla. Peas and beans are most nutritious and are flesh-formers. Spinach has the same effect on the system as "blue pills." It is a kidney cure. Tomatoes will stimulate the torpid liver. Water cress braces up the system.

The liberal use of seasonable vegetables as they come in throughout the year will save doctors' bills and do more to keep the family in good health and good spirits than a well-filled medicine chest.

BOLGIANO'S

NEW AND SPECIAL

Vegetable, Flower and Field Seeds

FOR 1907

Bolgiano's Extremely Early Prolific

I. X. L. TOMATO

277. A WEEK EARLIER THAN THE EARLIANA—MORE PRODUCTIVE THAN THE CHALK'S JEWEL—AS LARGE AS THE GREAT B. B.—AS SOLID AS THE NEW CENTURY. IN FACT THE WORLD'S LEADING EXTRA EARLY TOMATO.

Your I. X. L. Tomatoes are about ten days earlier than any other sort that I have ever planted and are very prolific and are tomatoes of good size. J. H. FORT, Wildwood, Fla. Aug. 26, 1906.

Allow me to say your I. X. L. Tomato is the best of the kind for a money maker we have ever bought from a seedsman. They were three weeks earlier than the Triumph or Dwarf Stone and sold for six to eight cents per pound before others were in the market.

J. D. CORRY, Oklahoma.

I actually believe that I can make 1,000 crates of your I. X. L. Tomatoes to the acre.

JOHN ZILL, Delray, Fla. Oct. 29, 1906.

Please send me your seed catalogue for 1906. I grew some I. X. L. and Greater Baltimore tomatoes from your seed last year, and was delighted with them.

W. W. PETTET, Postmaster, Pickton, Ont. Can. Jan. 9, 1906.

Your I. X. L. Tomato was the best I have ever had. My neighbors had plants up when I put down my hot bed, but I had tomatoes some time before they had theirs.

Yours truly, EDWIN LOWE, McDaniel, Md. Aug. 26, 1906.

I had 6,000 of your I. X. L. Tomato plants last year and they were as fine as silk.

A. W. STONE, Benfield, Md.

BOLGIANO'S EXTREMELY EARLY PROLIFIC I. X. L. TOMATO.

277. In Market Gardener's Field Tests, I. X. L. Tomato proved to be a week to ten days earlier than the Spark's Earliana, with an abundance of fruit larger and more prolific than Chalk's Jewel, in fact any number of specimens could be found as large as the Great B. B. Tomato. It has a little more vine and leaves than the Wealthy Tomato, thus protecting the blossoms from being easily knocked off, by heavy rains or winds; also protecting the fruit from being sunburned or scalded. The I. X. L. Tomato is without a single exception the Leading Extremely Early Tomato, and while many of the most Experienced Tomato growers tell us we cannot say too much in favor of this Excellent Early Tomato, there are many who have not grown it yet. To them we say again, do not experiment with it but plant your entire early crop in I. X. L. Tomato, your crop will net you big returns. We stake Our Reputation on I. X. L. TOMATOES. Below we give in a concise form the most striking features of this Tomato.

1. EARLIEST, LARGEST, ABSOLUTELY SMOOTH TOMATO ON EARTH. A week earlier than the "Earliana," and as large as the "Great B. B."

2. A beautiful, brilliant red color.

3. Vines are a perfect mass of large, smooth fruit, a single plant yielding 1/2 bushel.

4. Fruit is extremely early, enormously abundant and ripens all at once.

5. Vines are very compact and can be placed two feet apart in three foot rows.

I can conscientiously say your I. X. L. Tomato has no equal for earliness, productiveness and solidity. I just started mine in the field when my neighbors were large and blooming; but the I. X. L. came a few days ahead of his in maturing shipping fruit, and held out the longest. It certainly was surprising. CHRISTIAN PETER, Winter Garden, Fla.

Your I. X. L. Tomatoes are all you claim for them, which is saying a good deal. In fact, all the seed I bought of you have produced exceptionally well, and I am much pleased with the results.

J. C. JENKINS, Pomomkey, Md.

6. As an extremely Early prolific stem setter it is a wonder.

7. The absence of unnecessary leaves permits all the fruit to ripen so remarkably early.

8. It is almost like finding money to grow the I. X. L. TOMATO.

9. The Largest growers tell us we cannot say too much in favor of the I. X. L. Tomato.

Price, Pkt. 10c @ 25c. 1/2 Oz. 50c. 1 Oz. 75c. 2 Ozs. \$1.25. 1/4 Lb. \$2.50. 1 Lb. \$8.

From 300 plants of your I. X. L. Tomatoes, I took 60 baskets to market, used 30 baskets in my home and there are from 30 to 40 baskets yet on the vines. Each plant yielded 1 1/2 pecks or more. The tomatoes are so solid it is like cutting a piece of meat and many weigh from 1 1/2 to 2 lbs. each.

WM. CLAUSS, Glen Burnie, Md., Anne Arundel Co.

I had about 2 Acres of your I. X. L. Tomatoes, they yielded 1/2 bushel to the vine and were the best large size early tomatoes I have ever grown.

MILTON STANSBERRY, Brooklyn, Md.

EXTRACTS FROM REPORTS OF THE LEADING AGRICULTURAL EXPERIMENTAL STATIONS IN THE U. S. ON BOLGIANO'S

"Greater Baltimore" Tomato

The Pennsylvania State College.

AGRICULTURAL EXPERIMENT STATION

GEO. C. BUTZ, M. S., HORTICULTURIST
J. P. PILLSBURY, ASS'T IN HORTICULTURE

State College, Centre Co., Pa.

Aug. 27, 1906.

The following is the report upon the "Greater Baltimore" Tomato Seed, which we promised a few days ago. Fruit large, oblate, slightly chameled about the stem end-not deeply however-fruit very regular in form, smooth and shapely, fleshy and solid and ripens well and evenly: color bright-altogether being very handsome in appearance. Our most conservative estimate of the rate of yield per acre of this variety is 300 or more bushels of 60 pounds.

Our conclusion then, is that "Greater Baltimore" is a fine variety, large, solid, uniform in shape and size-and very productive-and worthy of dissemination.

Very truly,

J. P. Pillsbury

Clemson Agricultural College of South Carolina

H. Mell, Ph. D., L.L. D., President

Department of Agriculture and Experiment Station

J. N. Harper, Director

I am pleased to state that the tomato seed you sent me of the "Greater Baltimore" has proven itself to be a very valuable vegetable for our climate. They were quite prolific, and the fruit was very handsome.

Thanking you, I remain

Yours very truly,

J. N. Harper

Director.

State Experiment Station,
BATON ROUGE, LA.

W. R. Dodson, A. B., B. S.
DIRECTOR

Sugar Experiment Station

OF
THE LOUISIANA STATE UNIVERSITY

R. E. BLOVIN, M. S.
ASSISTANT DIRECTOR IN CHARGE

Audubon Park, New Orleans, La.

We found the "Greater Baltimore" Tomato to germinate well, and to be a vigorous grower, prolific bearer and altogether quite satisfactory.

Yours truly,

R. E. Blovin

Per H. P. C.

Assistant Director.

per H. P. C.

Arkansas Agricultural Experiment Station.

Fayetteville, Arkansas.

W. C. Vinzenheller, Director

C. Clark, Executive Clerk

In reply beg to state that no tomato upon our experimental grounds has given the satisfaction that we have gotten from "Greater Baltimore." It is early, prolific, hardy, of excellent quality and is fruiting longer and more satisfactorily than anything else we have.

We thank you for calling our attention to this fine fruit. It should be largely planted by vegetable gardeners as well as for other commercial and family purposes

Yours truly,

W. C. Vinzenheller

Director.

Aug. 22, 1906.

I am glad to be able to state that the "Greater Baltimore" Tomato has proved extremely promising the present season. "Greater Baltimore" along side of Crimson Cushion and Ponderosa has proved as large as the latter and as solid and symmetrical as the former. That is saying a great deal for it. We have picked this season dozens of specimens of "Greater Baltimore" weighing over 30 ounces and several exceeding two pounds. I enclose a print of one of the latter, which tells its own story on the scale. I believe that you have a good thing in this variety.

Very truly yours,

H. N. Starnes

Biologist and Horticulturist

Maryland Agricultural Experiment Station

H. J. PATTERSON, DIRECTOR

The Station is located on the B. & O. R. R. and on the City & Suburban Electric Car Line, 8 Miles from Washington, D. C.

Telegraphic Address: Hyattsville, Md.
C. & P. Phone.

College Park, Prince Geo. Co., Md.

The "Greater Baltimore" Tomato Seed we received from you this season, has given us very excellent results. At present the "Greater Baltimore" is considerably in the lead of any variety. We like it very much and think that if it keeps up to its present promise, it will make a very useful variety.

Aug. 23, 1906.

Yours truly,

H. J. Patterson
State Horticulturist.

The Best Main Crop Tomato On Earth

125 FINE LARGE, SOLID MEATY TOMATOES TO A SINGLE PLANT.

Your "Greater Baltimore" Tomato I planted last season, is the finest I have ever planted. I shipped about 800 crates from 1 3/4 acres, some sold in Boston by J. D. Mead & Co. for \$3.00 a crate. I recommend it unreservedly to the growers of this section. I planted five different varieties and the "Greater Baltimore" led them all. You can put me down for "Greater Baltimore" next season.

Sept. 29, 1906,

Yours very truly,
THOMAS S. JOHNSON,
Box 279, Lakeland, Fla.

Bolignano's "Greater Baltimore" Tomato

There is no Tomato EQUAL to it. There are other GOOD Tomatoes, but "GREATER BALTIMORE" Tomato is BEST OF ALL.

WE Again Stake Our 89 Years of Honorable Reputation Back of this Wonderful Tomato. It's as Good as Gold.

1. GREATER BALTIMORE TOMATO IS THE HIGHEST MOUNTAIN TOP OF SUCCESS IN TOMATO GROWING
2. JUST DOUBLES YIELD OF THE BEST CROPPING TOMATO YOU HAVE EVER GROWN.
3. Smooth, well-formed and deep from stem to blossom.
4. Its extremely heavy weight is due to its firmness and great meatiness.
5. It ripens evenly to the stem and is entirely free from ridges, cracks and blight.

6. Unrivalled shipper, due to its solidity and firmness.
7. Fruits in large clusters at every second joint, joints are short and sturdy.
8. Brilliant red color, the handsomest Tomato we have ever seen.
9. Vigorous, compact, healthy vines.
10. The grandest Second Early and Main Crop Tomato on Earth.

PRICES.

Pkt. 10c and 25c,
1/2 Oz. 35c, 1 Oz.
50c, 1/4 Lb. \$1.50,
Lb. \$5.00.

279 Bolignano's "Greater Baltimore" Tomato.

After another season has passed, and the "Greater Baltimore" Tomato has been grown in almost every state in the Union, and in many Foreign Countries it is almost impossible to give a description of its merits without seeming to claim for it Supernatural Powers; so in describing it, we will, as far as practical, confine ourselves to extracts from the experience of those who have grown the "Greater Baltimore" the past year.

A Florida man writes "It is the finest Shipping Tomato ever sold,—tested side by side, and shipped side by side with five leading varieties—it beat them all." Another writes "Out of 15 Red varieties it was the best of all." "Very prolific—it yielded from 300 to more than 500 bushels of 60 lbs. per acre." One man raised 17,000 plants from 1/4 lb. of "Greater Baltimore" Tomato seed. "Vigorous grower," strong healthy plants. Fruit uniform in shape and size, solid, large, very regular, smooth, shapely, fleshy, very meaty, ripens well and evenly. Beautiful bright red color, fruit very handsome, dozens weighed 30 ounces, and several exceeded 32 ounces. Seed planted a month later than "Duke of York" produced shipping fruit two weeks before that variety was ready. "Fine crop in bad season." Excellent keeper—has kept until New Year's Day. Rust and blight-proof. Recommended unreservedly by a grower for "the section around Lakeland, Fla." Had proved better than any variety tried at Picton, Canada. "Stands the heat and drought of Mississippi." "Very valuable for South Carolina climate." In the canning districts of Delaware and Maryland "yielded a fine crop in a bad season." Texas says there is no better tomato in size and taste on the market; not an acid tomato—very fine flavored. As a home garden Tomato "The results have been far beyond expectations." On our own table we sliced the "Greater Baltimore" tomato like we would slice a fine tender roast of beef. We have tried to grow enough seed to go around this year, but to be on the safe side, you had better order immediately.

The "Greater Baltimore" was something to marvel at, Extra Large, immense yielder, rust and blight free, beautiful color, and the best of all red tomatoes tried here among fifteen varieties. Same season as the Chalk's Jewel but decidedly better. Our Fall "Greater Baltimore" plants are standing the heat and drought fine. Very truly yours,

MAGNOLIA FRUIT FARM,
S. WHEERRY & SON, prop.
Durant, Miss.

Bolignano's "Greater Baltimore" that I purchased from you is the best in our neighborhood.
T. McCLEARY WILES,
Aug. 10, 1906. Braddock, Md.

I think your Greater Baltimore Tomato beats them all so far.
Aug. 29, 1906. J. H. FORT, Wüdwöod, Fla.

I want to continue my praise of the Greater Baltimore Tomato, and to add after pulling them in October I had them on my table almost continuously until New Year's Day, when I had the last. They are a fine "keeper," and easy to ripen by degrees. N. CARROLL DOWNS,
Jan. 18, 1906. 713 14th St. N. W.,
Washington, D. C.

Mess. J. Bolignano & Son, Baltimore, Md.

Gentlemen:—I sowed in hot-beds, seed of your "Greater Baltimore" Tomato, and it came up profusely. I sold some of the plants, and set out about one-third of an acre. They ripened nearly as soon as an early variety that was planted beside them, and I had a fine crop in this bad season. By the judgment of others, the patch bore five hundred (500) bushels to the acre, and WE THINK they bore much more. To-day, November 21st, we ate some from same planting, which were ripened in our cellar. They are very meaty, and of large size, pleasing both wholesale and retail buyers. We shall grow them again. Yours very truly,

ARCH'D STERLING, Wüna Farm.

At this date, Sept. 26, 1906, your "Greater Baltimore" Tomato is still bearing and I do not think there is a better Tomato in size or taste on the market. I wish to get more of your tomato seed for the coming season.
Sept. 26, 1906. L. M. KNIGHT, Carrizo Springs, Texas.

Your "Greater Baltimore" Tomato proved as represented by you. I planted with care and watched them carefully. I picked two weeks off of them before I did off of the Dukes and planted seeds nearly a month later.
June 18, 1906. M. MITCHELL, Manvüsta, Fla.

Bolignano's Famous Early Fortune Cucumber.

YIELD MORE THAN \$1000.00 PER ACRE.

NO VARIETY IN THE WORLD CAN EQUAL THEM.

J. BOLGIANO & SON,
Baltimore, Md.
Gentlemen:—From 7½ Acres of Bolignano's Famous Early Fortune Cucumber, I cleared \$5,000.00.
Yours truly,
T. C. CONNELL, Fla.

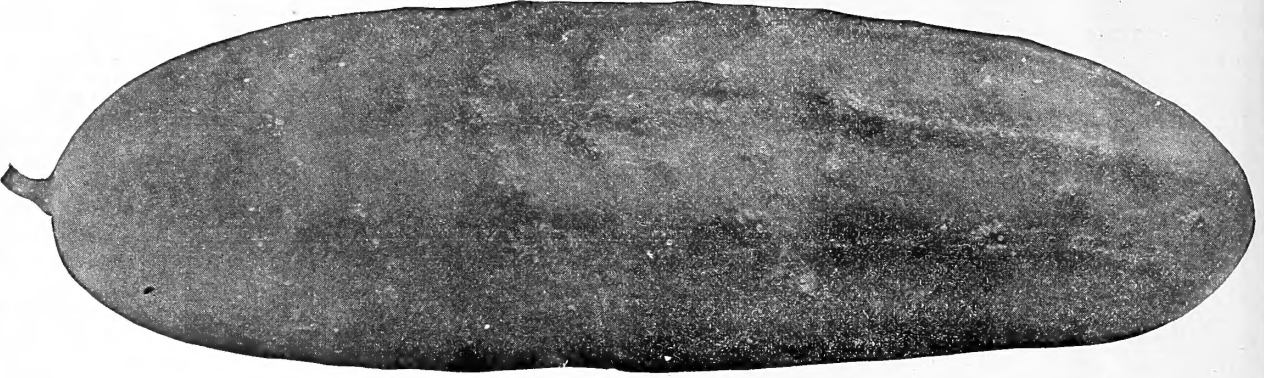

October 18, 1905.

J. BOLGIANO & SON,
Baltimore, Md.
Gentlemen:—I received net \$1015.42 from an acre of Cucumbers, last April, grown from Bolignano's New Early Fortune Cucumber Seed. I enclose \$4.00 for which please send me 4 lbs.
Yours respectfully,
J. F. GITHENS, DeSota Co, Fla.

December 4, 1905.

From 2 Acres planted with Bolignano's Early Fortune Cucumber I made \$1,600.00.
July 14, 1906.
Yours truly,
J. W. PERKINS, Oakland, Fla.

Your Early Fortune Cucumber is the finest I ever saw, and your Spinach seed all grows.
October 24, 1906.
N. W. GRANT, Atwin, Texas.

BOLGIANO'S FAMOUS NEW EARLY FORTUNE CUCUMBER.

Actually Proven by Many EXPERT GROWERS to be The EARLIEST and The Best DARK GREEN WHITE SPINE CUCUMBER on Earth.

84. Full-blooded, as pretty as a picture, and extremely early, wonderfully productive, a model in shape, of the most inviting and attractive deep green color. Is there any wonder we name this money-maker "Early Fortune" Cucumber? From very expensive and thorough tests of every cucumber grown, we selected the parents of this excellent stock. The result went far beyond our greatest hope. We found we had a Cucumber that was without a doubt the finest in the world. Realizing a very heavy demand would come as soon as the Cucumber growers learned of our "Early Fortune" Cucumber, we let one year go by to insure our supply of seed, but even now the quantity of this seed is very limited. If you wish to secure any of it this coming year for hot-house, frames, or open field culture, you had better order immediately, or our short supply will be exhausted.

Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.

The 60 lbs. of Early Fortune Cucumber Seed I bought of you last season gave me the finest crop of the finest and earliest Cukes, I have ever raised. They are rightly named. I shall surely never plant any other kind of seed now on the market. I have been buying all of my seeds of you for my truck farm, market and home gardens for the past fifteen years and allow me to say my dealings with you have always been of the happiest.
July 30, 1906. W. H. NIVER, Port Royal, S. C.

From what I see of your Early Fortune Cuke I am more than pleased with it. It is early, an unusually heavy yielder of Cukes of a uniform and perfect shape. There was hardly an ill shaped Cuke among them. If they will hold up in shipping they are certainly the Cuke for the trucker. Nov. 3, 1906. HERBERT C. MORRILL, Cedar Springs, Mich.

Gentlemen:—I have grown your Early Fortune Cucumber seed and without hesitation, pronounce it the finest I have ever seen or grown. Its fine shape and color surpasses all others. I have seen the Cucumbers when thrown out in packing, stay perfectly green for three or four weeks, or until decay sets in. I will plant no other as long as the Early Fortune can be had.
J. H. SADLER, Fla.

Messrs. J. Bolignano & Son, Baltimore, Md.
Gentlemen:—The New "Early Fortune" Cucumbers are all that you claim for them. They are fully as early and more prolific than any I have ever planted before.
Yours truly, S. C. GATES, Fla.

I enclose you check for \$3.80 for 3½ pounds of New Early Fortune Cucumber Seed. They are for a friend of mine who saw the Cucumbers grown from the seed that I got of you last year, and was so well pleased with them that to be sure that he got the same kind, asked me to make the order for him.
July 14, 1906. S. C. GATES, Manatee, Fla.

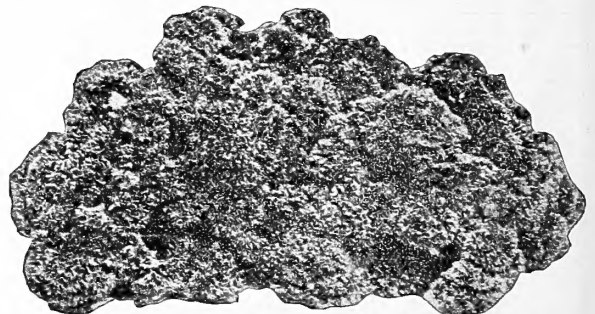

Messrs. J. Bolignano & Son, Baltimore, Md. July 23, 1905.
Gentlemen:—I have been growing other varieties of Cucumber for many years, but have not found any half as good as Bolignano's Famous New Early Fortune Cucumber. I grew them this year eleven inches long, and they are nearly all one shape. No variety in the world can equal them.
GELSTON DOUGHERTY, Md.

I bought your New Early Fortune Cucumber this year and I am certainly satisfied with it. I have been buying your good seeds for 10 years.
Aug. 2, 1906. HEINRICH STUDTE, Felton, Del.

Bolignano's Green Mountain Triple Parsley.

A Table Adorner of Rare Beauty.

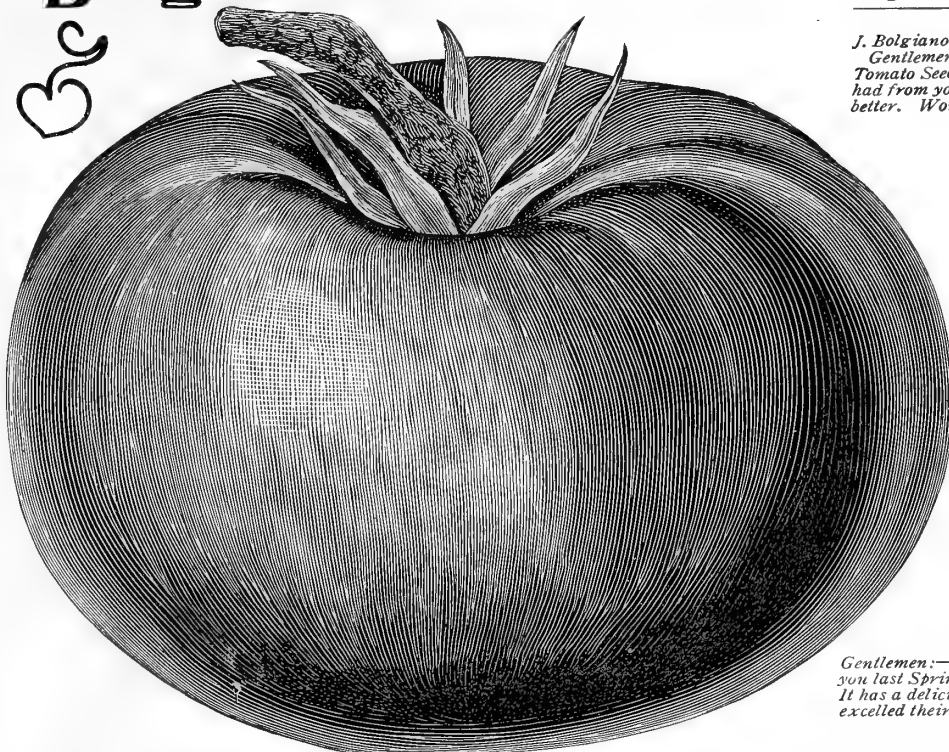

221. Never before have we been able to offer to the public a gift of Nature equal to our beautiful Green Mountain Parsley. Always alert, always ready to appreciate any seed of exceptional merit, we soon saw that everybody would want our new Green Mountain Parsley when they heard of its wonderful beauty. Hardy, immensely productive, deep velvet green. The leaves are densely curled and are borne in abundance. It is exceptionally easy to grow, and with very little care everybody can have for the whole year round a bed of the finest flavored Parsley in cultivation. If you have but a few square feet, you can raise sufficient Parsley to supply your table with decoration and your soups with fine fresh flavor. If you grow for your market stall, you cannot afford to have poor Parsley when your neighbor has the beautiful Green Mountain Triple Parsley. If you are a shipper to Northern markets you grow Green Mountain Parsley and you will make more money than you ever did. Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.

NEW GREEN MOUNTAIN TRIPLE PARSLEY.
A TABLE ADORNER OF RARE BEAUTY.

If your order amounts to \$1.00 or over, purchase your money order or register your letter at our expense.

Bolgiano's New Century Tomato

Terre Haute, Ind., Oct. 10, 1906.
J. Bolgiano & Son, Baltimore, Md.
Gentlemen—If you can give us New Century Tomato Seed 1906 crop, of as good quality as we had from you in 1905 we won't ask for anything better. Would ask you to enter our order for 60 lbs. of the New Century with the understanding of course that the seed will equal in quality to that which we had from you heretofore.
Yours truly,

The London Packing Co.
CHAS. F. LOUDON, Pres.

Gentlemen:—The New Century Tomato Seed which we purchased of you was entirely satisfactory.
Sanibel Packing Co.
July 9, 1906. Sanibel, Fla.

Gentlemen:—Your New Century Tomato that I planted last year, was the finest that I ever planted.
Very respectfully yours,
A. HUDSON,
Feb. 5th, 1906. Mt. Pleasant, S. C.

I have used some of your New Century Tomato Seed and they were the best I ever saw; 72 of them filled a crate.
D. P. GEORGE,
Feb. 13th, 1906. Burgaw, N. C.

Plant City, Fla., Feb. 23, 1906.
Gentlemen:—I have been planting your New Century Tomato for two years and find them to be a fine Tomato and a good shipper.
Yours truly, W. F. WOOTAN.

Gentlemen:—Your New Century Tomato bought of you last Spring is the wonder of the neighborhood. It has a delicious flavor, smooth and perfect. They excelled their picture.
Yours truly,
W. L. BURROUGHS,
North Carolina.

283. **BOLGIANO'S NEW CENTURY TOMATO.** Eight years ago, when we first introduced the NEW CENTURY Tomato, we felt as though the limit for improvement in Tomatoes had been reached, and judging from the letters we are receiving every season and from the great quantities of seed we annually sell, the New Century is still held in highest esteem by thousands of market gardeners and shippers all over the country. If you hesitate to plant your entire crop in the newer varieties, you can always feel that **New Century is an Old Friend, Tried and True.** Read the recommendations on this page and you will see in what high esteem it is held. We have spared no pains or expense in keeping this stock as pure and true as it was at the beginning; in fact by most careful roguing, eliminating and selecting, we believe New Century Tomato is better to-day than it ever was. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you. **Pkts. 10c and 15c, Oz. 25c, 2 Oz. 50c, 1/4 Lb. 75c, 1/2 Lb. \$1.25, 1 Lb. \$2.50.**

BOLGIANO'S "FLORIDA SPECIAL" TOMATO.

The Greatest Blight Resisting Tomato on Earth.

311. Not a single grower of Tomatoes, in Florida or in any locality where blight has injured the Tomato crops, should go through this season without trying this most excellent New Tomato. We call it "Florida Special" for it has been most carefully bred up to resist the ravages of blight which has been so discouraging to our Florida customers. It is Red in Color, large in size, fine flavored, firm and meaty, very prolific, and about as Early as the Earliana. It is a most excellent shipper, in fact during our entire time of selecting and breeding up the Florida Special, we took the utmost pains in selecting such tomatoes as would stand the long shipment to the northern Markets from Florida. We are confident Bolgiano's Florida Special Tomato is going to make a record this year, that will put it head and shoulders above any Tomato that has ever been introduced, excelling the I. X. L. Tomato. **Price, Pkts. 5c @ 10c, 1/2 Oz. 25c, Oz. 40c, 1/4 Lb. \$1.35, 1 Lb. \$5.00.**

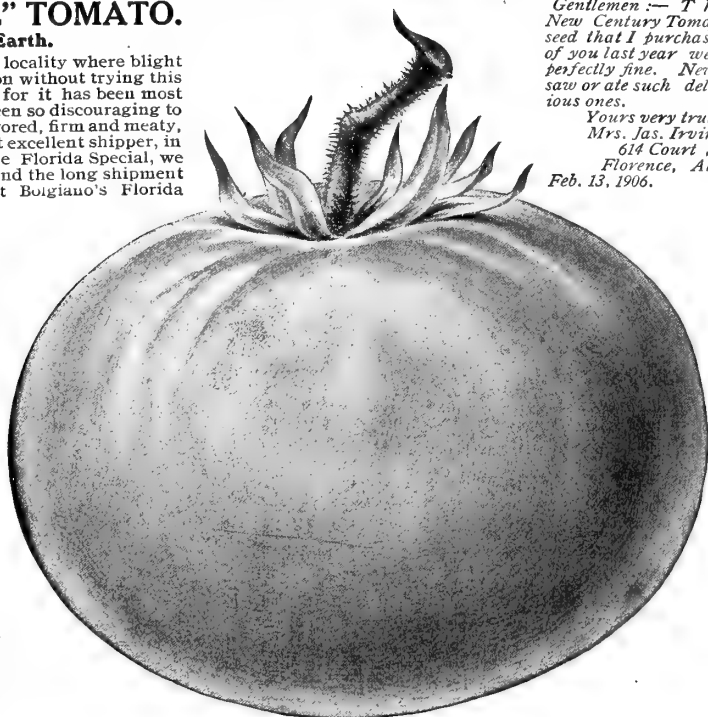

287. CHALK'S EARLY JEWEL TOMATO.

This excellent new Tomato has attracted the attention of market gardeners and shippers on account of its fine quality, its wonderful productiveness, earliness and large size. Chalk's Jewel is not quite so early as the Earliana, or so large as the I. X. L., but size of the fruit continues very large almost to the last picking. The vines are fairly loaded with fruit during the entire season, 75 of which will fill a 3/4 bushel basket. The fruit is very solid and deep through, measuring 3 1/2 inches across by almost 3 inches in depth. Color is bright scarlet and it ripens up to the stem, without cracks or green core. It is an excellent shipper. The climate in which we grow our tomato seeds, makes them earlier, freer from disease and blight, and more productive than seed you can procure from any other source. Try them for yourself. We stand by our claims. If you want the best stock of any Tomato that grows, get it from Bolgiano of Baltimore. **Price, Pkts. 5c @ 10c, Oz. 25c, 2 Ozs. 40c, 1/4 Lb. 75c, 1/2 Lb. \$1.25, 1 Lb. \$2.50.**

302. **KELLEY RED OR WADE TOMATO.**—This splendid Red Tomato originated in Anne Arundel County, Md., and through its superior qualities it has become the Tomato most largely used in that section. It is large, meaty, an abundant yielder, and withstands unfavorable conditions remarkably well. **Pkts. 5c @ 10c, Oz. 25c, 1/4 Lb. 90c, 1 Lb. \$3.50.**

288. **King of The Earlies Tomato.**—**Pkts. 5c @ 10c, Oz. 25c, 1/4 Lb. 90c, 1 Lb. \$3.50.**

FOR OUR COMPLETE LIST OF TOMATOES, SEE
PAGES 47, 48 AND 49.

Gentlemen:—The New Century Tomato seed that I purchased of you last year were perfectly fine. Never saw or ate such delicious ones.

Yours very truly,
Mrs. Jas. Irvine,
614 Court St.
Florence, Ala.
Feb. 13, 1906.

BOLGIANO'S FLORIDA SPECIAL TOMATO.

Four Delicious Garden Peas.

NEW EXTREMELY EARLY Long Podded ALASKA PEA.

1087. An entirely new vigorous Extremely Early Handsome long podded, delicious flavored Alaska Pea. Bound to become extremely popular for it has all the good qualities of our Famous Extra Early Alaska Pea and in addition it has a well filled pod almost twice as long, which will fill the basket in $\frac{1}{2}$ the time, and while it is not a distinctly sugar pea yet it has a much sweeter flavor than the Alaska. It is an abundant yielder. Being an entirely new introduction our supply of seed is limited, so place your order early. **Pkt. 10c. Pt. 15c. Qt. 25c. Gal. 80c. Pk. \$1.50. Bu. \$6.00.**

"Good Luck"

1088 Bolgiano's New Extremely Early Prolific Pea.

1. Almost as early as the Extra Early Alaska Peas.
2. On same land will yield 100 bushels to every 50 bushels of the Alaskas.
3. Single plants contain 40 to 50 thoroughly developed pods.
4. Pods $\frac{1}{2}$ longer than Alaska pods.
5. Pods are of a deep green color.
6. Plants strong and vigorous.
7. Deliciously flavored.
8. Peas slightly larger than Alaskas.

9. Supply extremely limited.
Pkts. 5c and 10c. Pt. 15c. Qt. 25c. Gal. 80c. Peck \$1.50. Bu. \$6.00.

Gentlemen:—The "Good Luck" Peas are the finest Peas I have ever raised. They have the largest pods and are the heaviest beavers of any early Pea. Next season I am going to plant them both for early and late crops.

Yours truly, **MICHAEL DAUBER**, Gardener
for the Maryland Hospital for the Insane. Catonsville, Md.

"Wonder Worker."

BOLGIANO'S EARLIEST WRINKLED PEA.

1083. The most delicious pea you have ever eaten. They fairly melt in your mouth. If you have never eaten a "Wonder Worker" Pea, you don't know what a good Pea tastes like.

Six weeks from planting, this wonderful large wrinkled Pea can be marketed. In earliness, great size and excellent flavor, it is unequalled. The Peas fairly melt in your mouth. The vines grow $2\frac{1}{2}$ feet high, are very hardy, resisting pests and cold weather. It bears an abundance of large, even, deep green pods.

It is claimed the Wonder Worker Peas are superior in earliness, hardness, and large size pods, to the Gradus or Prosperity Pea. It is the finest early Pea yet introduced. **Pkts. 5c and 10c. Pt. 25c. Qt. 40c. Gal. \$1.25. Pk. \$2.50. 1/2 Bus. \$5.00. Bus. \$10.00.**

"CRACKER JACK"

BOLGIANO'S SECOND EARLY WRINKLED PEA.

"CRACKER JACK" continues to bear an abundance of most delicious Peas, when all other varieties are dried up from the hot sun of the Early Summer.

1089 Bolgiano's Cracker Jack Pea.

1. A wonderful yielder.
2. Vines 2 feet, 2 inches high.
3. Growth, hardy, robust and vigorous.
4. Extremely large pods, have a handsome dark green color and are borne even more abundantly than on the Dwarf Prolific Green Marrow Peas.
5. Ready for market, just as the Wonder Worker Peas are over.
6. If planted a little late will stand the warm weather excellently.
7. It's the Pea market gardeners have been looking for, and it is a "Cracker Jack."

Pkts. 5c and 10c. Pt. 15c. Qt. 25c. Gal. 80c. Pk. \$1.50. Bus. \$6.00.

I never saw such Peas as your "Wonder Workers" and the farmers all around say they are better than any they ever seen. **F. A. Dolfield**, Owings Mills, Md.
Asst. Cashier National Howard Bank, Baltimore, Md.

Clyatt, Fla., Nov. 8th, 1905.

Messrs. J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—I want two sacks of "Cracker Jack" Peas for Spring Planting. Set them aside; I will send for them with my order for Spring crop Beans. I am sending a basket of the Peas to the State Fair at Tampa, Fla. Look out for orders for "Cracker Jacks."

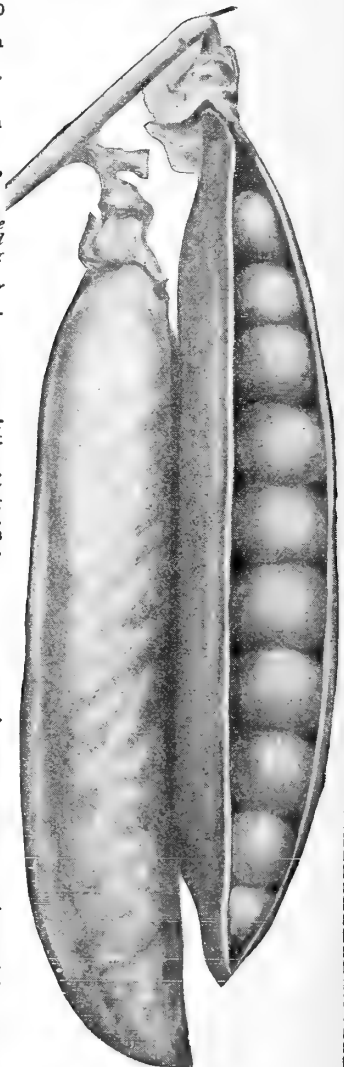

Very truly yours, **E. F. CLYATT.**

Olyphant, Pa., July 18, 1906.

I am well pleased with your "Cracker Jack" Peas. They matured all together, and I now have beans 4 in. tall on the same ground. It's nice when one can take all the vines up at one time and take the pods off and till the ground and plant it again.

I am also pleased with the potatoes. I have taken a few roots of each of the ten kinds I got from you and are all good; the Plucky Baltimore ought to be named "Plucky Baltimore Ball of Flour."

THOMAS WARD, 454 Hill St.

Bolgiano's New Cracker Jack Peas.

**OLD
TYPE**

"Duke of York" Tomato.

**BLUE
STEM**

They **STOOD** the DRY
WEATHER. No Signs
of BLIGHT.

OF SPECIAL VALUE TO FLORIDA GROWERS.

AT SEED TIME.

June 18, 1906.

Gentlemen:—I am proud to state to you that I had good success with your Duke of York Tomato, the best success of any Duke of York Tomato I ever planted. They stood the dry weather without showing any sign of blight whatever. For their eating qualities I don't think they could be improved, and they kept up bearing longer than any other variety tomato I planted. I also noticed that they have smaller vines and grow longer. When they start off to bearing, it seems as if they are not going to put out much fruit, but I found I was deceived. I don't care to have any better for my planting. The vines now up to this date have set in fresh bearing and are just as green, and I have not used any spray this season at all on my tomatoes.

Your Cabbage Seed and Big Boston Lettuce have my choice. Your seeds have always proved a success with me. I plant carefully, work carefully and gather carefully and ship carefully. Wishing you a continued success in your business, I remain,

Yours truly,
M. MITCHELL,
Grower and Shipper of Early
Vegetables.
Manavista, Fla.

**"DUKE OF YORK" TOMATO. GENUINE OLD TYPE.
BLUE STEM STOCK.**

297. **DUKE OF YORK TOMATOES.**—The genuine old type—blue stem Dukes have given the utmost satisfaction to the Florida Tomato Growers, it has brought many a dollar rolling their way but it has been difficult for these growers to get absolutely the straight type of Dukes when they ordered it, this situation however is a thing of the past for we are now prepared to supply all our friends and customers with the purest, truest, cleanest type of genuine old type—blue stem Duke of York they have ever seen or grown. Our supply for the last two years has not been enough to go around, this season we increased our acreage considerably, we are therefore prepared to fill many more orders than ever before but even now we fear the demand for this excellent strain will be more than we can supply, so order early. We honestly believe we will soon get the entire Florida trade on Duke of York Tomato Seed and we are going to get it because our Duke of York Tomato Seed is the Genuine Old-type Blue Stem Strain kept absolutely Pure and True. Send to us for your Duke of York Tomato Seed and you run no chances, we will either send you the Finest Stock of Dukes you have ever had or return to you your money. Texas Tomato Growers should give this Tomato a thorough trial, it has proved such a money crop for Florida, it might prove equally profitable in Texas. Duke of York Tomato is one of the grandest Tomatoes recently introduced, color, rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, fine flavor. It ripens its fruit uniformly together, whilst its profusion of clusters, averaging 8 and 10 large evenly formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is a strong, healthy grower, not subject to rust or blight, is an enormous cropper and produces until the vines are killed by frost, holding its size well until the last picking. Quality the very best, solid and meaty.

In reply to yours of June 13th, the Duke of York Tomato Seed was all that could be desired in every way. I sent my son at Terra Ceia the remnant of my seed bed and he reports a yield of 980 crates to the acre.
Aug. 3, 1906. W. H. ABEL, Sarasota, Long Boot Ke, Fla.

The Duke of York Tomato Seed was all right in every way.
July 10, 1906. W. H. ABEL, Sarasota, Fla.

284. THE GREAT B. B. TOMATO. BOLGIANO'S BEST.

Is unequalled. It has every good quality pertaining to the Tomato and avoids all faults of other sorts. One of the smoothest, most solid, heaviest and most handsome Tomatoes grown. It suits gardeners, canners and shippers, who are delighted with its faultless fruit, which fills their wants in every particular. The B. B. is as solid as an apple, has no core and the flavor is excellent. It weighs more pounds per bushel than many other sorts which proves its solidity; has a beautiful red color, outside and inside, and the fruit is quite large. There is no need of a field of poor Tomatoes when one dollar will buy enough to supply plants for one acre. Used successfully for early and late crops; always sells at the highest prices. **Pkts. 5c and 10c. Oz. 15c. 2 ozs. 25c. 1/4 Lb. 50c. 1/2 Lb. 75c. Lb. \$1.50.**

We have been using "Bolgiano's Great B. B." Tomatoes for a number of years. It has never failed to give entire satisfaction. We consider it the best Tomato that grows for canning purposes, and use it to the exclusion of all other varieties, and we will place our order again with you this year. We usually plant from three to five hundred acres in Tomatoes.
LEWIS LANKFORD, TULL CO.,
Wheaton, Va.

Feb. 21, 1905.

I had Bolgiano's Great B. B. Tomato last year and found them an excellent Tomato in every respect, better than I have ever grown before.

March 3, 1906.

Yours truly,
R. M. COOPER, Chesweld, Del.

You Can Select any Six 5c. Packets for 25c., or any Three 10c. Packets for 25c.

October 16, 1905.
J. Bolgiano & Son,
Baltimore, Md.

Gentlemen:—As far as I am personally concerned, I am showing my faith in you by the purchase of 5 lbs. of your Duke of York Tomato Seed. I assure you that I personally have confidence in your seeds.

Yours very truly,
J. T. WOFFARD,
Hallandale, Fla.

HARVEST TIME.

January 17, 1906.
Messrs. J. Bolgiano & Son,
Baltimore, Md.

Gentlemen:—The "Duke of York" Tomato bought of you, I believe, is the truest I have ever seen. I want them another year sure, and will write you again.

Yours respectfully,
J. T. WOFFARD,
Hallandale, Fla.

FOR 1907 CROP.

October 8, 1906.
Enclose Check for \$7.00 for which please send me 2 lbs. Duke of York Tomato Seed. I prefer the old stock as they are pure seed.

Respectfully,
J. T. WOFFARD,
Hallandale, Fla.

Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 90c. 1/2 Lb. \$1.75. Lb. \$3.50.

The Duke of York Tomato Seed I bought of you were all O. K.; also the Celery and Lettuce. I will buy of you for next season.
June 23, 1906. A. B. PETERSON, Palmetto, Fla.

The Duke of York I obtained from you were better than any other Tomato and of very fine quality.
S. A. STEVENS, Coleman, Fla.

WEALTHY TOMATO.

278. Thousands of dollars clear have been made by men who planted the Wealthy Tomato. From the day you sow the seed until the last large, shapely fruit is shipped to an anxious early market, Wealthy Tomato keeps the lead. One of the earliest of the earliest; smooth, firm, delicious flavor, beautiful red color, and an abundant yield. In the Wealthy Tomato Mother Earth pays us a thousandfold for our efforts. In Spring-time those who have the means are only too glad to spend it freely if in return they can get the first fruits of the season. Then the fancy prices are realized, and if you trust the Wealthy Tomato it will put you in a position to get your share and also the share of the man who takes years to find out a money-maker. **Pkts. 10c and 25c. Ounce 50c. 1/4 Lb. \$1.25. 1/2 Lb. \$2.50. Lb. \$5.00.**

LIVINGSTON'S NEW GLOBE TOMATO.

Of Special Value for the Home Garden and Florists.

In shape it is distinct from all others, being a beautiful globe, with quite a good percentage of elongated (stem to blossom) fruits. It is among the first to ripen; fruit of large size, and a good marketable size is maintained throughout the season; always smooth, firm-fleshed, and has very few seeds. Ripens evenly through and through; a fine glossy rose in color, tinged with purple; very productive, the plant is always loaded with fruit, as it has joints at frequent intervals and each joint produces large clusters of from 3 to 7 fruits. Especially adapted to slicing or eating from the hand as the flavor is very delicate and agreeable. **Pkt. 10c. Oz. 25c. 2 Ozs. 50c. 1/4 Lb. 90c. 1/2 Lb. \$1.75. Lb. \$3.50.**

Bolgiano's New Bean No. 18.

J. Bolgiano & Son,
Baltimore, Md.

Gentlemen:—I was more than pleased with the Bean Seeds shipped me last November. While others were getting low prices, I was receiving the top of the market. I was one of the few that Beans did not rust on. Thanks for dealing with a first class house.

Yours truly,
R. E. S. MATHISON,
Neptune, Fla.

Jan. 22, 1906.
Messrs. J. Bolgiano & Son,
Baltimore, Md.
Gentlemen:—

Your BEAN SEED received a few days ago, and THEY ARE THE FINEST I EVER SAW. I Planted the same variety last year; NOT A FLAT HILL IN NINE BUSHELS. Something uncommon in our settlement. You are my seed man ALWAYS.

Yours very truly
L. E. PARTIN,
Kissimmee, Fla.

BOLGIANO'S NEW BEAN NO. 18.

1018. This wonderful new round, meaty, green podded bean had for its parents two separate and distinct stocks of Thoroughbred Hopkins Improved Earliest Red Valentine Beans and the inbreeding of their stocks has produced an Extremely Early and most prodigiously productive Stock of beautiful deep green, round podded Valentine Beans. The Flavor and Quality cooked and treated side by side with 50 other leading varieties proved the No. 18, to be by far the most delicious and tender.

We have been experimenting with No. 18 Bean for three years and we can unreservedly recommend it as the greatest new production in the way of Green Podded Beans in the last 10 years. Being an extremely new stock it is free from the faults that accumulate around stocks that have been on the market for a few years. We have succeeded in getting the type thoroughly fixed and we are willing to say that you will hardly find one off vine in an acre of No. 18. If you want the most productive, the most beautiful, the most salable and the best market or shipping crop of round green podded beans you have ever raised; by all means plant a patch of Bolgiano's No. 18.—The Coming Leader Among Beans. Packet 10c. Pint 20c. Quart 35c. 2 Quarts 65c. Gallon \$1.25. Peck \$2.25. 1/2 Bushel \$4.00. Bushel \$8.00.

1001

BOLGIANO'S NEW EARLY "MAY QUEEN" BEANS.

Two years having passed since we first introduced this prolific Early bean it has already become an indispensable variety with many of our customers. It is remarkably early, exceedingly prolific and its extra large finely shaped straight dark green pods are always solid, tender and of a delicious flavor and borne in great abundance. It is a most excellent shipping bean, carrying in fine shape for many days after it is picked. Some of our customers have also tried it as a late bean with astonishing results; they were so well pleased with it as an Early bean they wanted more of them and therefore experimented successfully with them in the Fall. The stock is perfect; the plants are of a strong robust habit and mature the crop very regularly. If you do not already grow "The May Queen" you should certainly give it a trial this season.

Pkts. 10c.
Pt. 15c. Qt. 25c. 2 Qts. 45c. Gal. 75c. Pk. \$1.35. Bu. \$5.00.

EARLY LEVIATHAN POLE LIMA BEAN.

ONE WEEK EARLIER THAN ANY OTHER POLE LIMA, AND
TWO WEEKS EARLIER THAN MOST. OF SUPERIOR
QUALITY. IMMENSE SIZE. WONDERFULLY PRODUCTIVE.

1040. The best variety of Pole Lima for general use. This delicious vegetable is denied many would-be growers on account of the length of season required to mature it, the early frost coming on just as the crop is ready to pick. This sort is at least one week earlier than any large Pole Lima yet offered and fully two weeks earlier than most, consequently it will prove a boon to thousands of growers. Earliness is often obtained at a sacrifice of other valuable features, but in this variety we claim superiority, not only in this respect, but in size of bean and pod and enormous productiveness. It is in fact about perfect and incalculable value. Price, Pkt. 10c. Pt. 20c. Qt. 35c. Pk. \$2.00. Bu. \$7.00.

1002

BOLGIANO'S Emerald Beauty Beans.

Although we introduced this splendid bean several years ago, its great popularity increases from year to year and its excellent qualities are so much appreciated by many of our oldest customers, we have decided to list it here again amongst our specialties so that our newer customers may have it drawn more prominently to their attention and enjoy with the rest of us its unusually good qualities. The Emerald Beauty is a flat green podded bush bean, a prolific and continuous bearer, the first in Spring and the last in Fall. It is absolutely stringless, very tender and delicious flavor. The plant is of remarkably handsome and thrifty growth. The rich green pods are of immense size, thick, broad, extra long very uniform in shape, solid, meaty and of high quality. Market that will accept a flat podded bean will soon appreciate the surpassing qualities of the Emerald Beauty and even if your market wants a round podded bean exclusively, plant some of the "May Queen" beans for your own home use and enjoyment. Pkt. 10c. Pt. 15c. Qt. 25c. Gal. 75c. Peck \$1.35. Bushel \$5.00.

1008

GIANT STRINGLESS GREEN POD VALENTINE BUSH BEAN.

This is a great improvement on the old time popular favorite Valentine Bean. The pods are fully one-third longer, averaging 5 to 6 inches in length; absolutely stringless; very crisp, round, full and fleshy. It is enormously productive, its handsome pods being ready for market a few days earlier than the old time Valentine. We confidently recommend it either for the home garden or as a profitable variety to grow for market. Price, Pkt. 10c. Pint 15c. Qt. 20c. Gal. 60c. Pk. \$1.10. Bu. \$4.60.

FOR OUR COMPLETE LIST OF BUSH AND OTHER BEANS

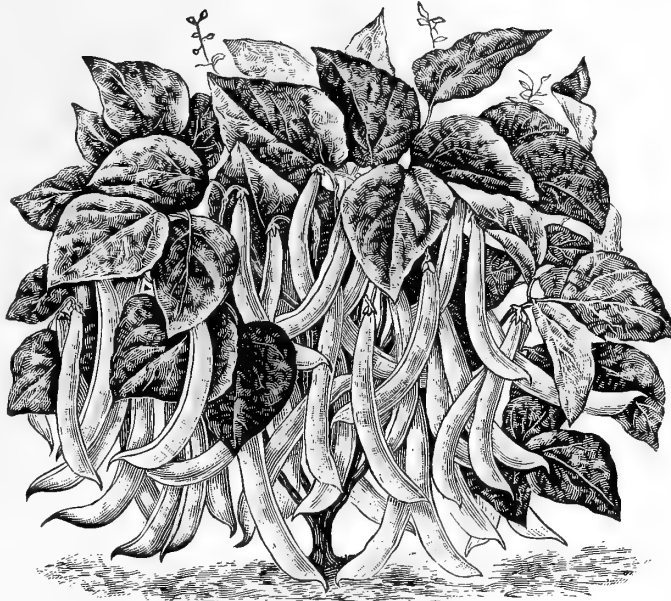

SEE PAGES 29, 30 AND 31.

BOLGIANO'S NEW PEARL WAX BEAN.

New California RUST-PROOF DWARF-WAX

1024. One of the handsomest and most productive flat podded Wax Bean ever grown. In this new variety, we have one of the very best wax sort for market gardeners and private families. It will sell twice as well and at a higher price than other sorts. The pods are longer, broader and of a brighter yellow color than many other sorts, very superior quality, tender and stringless. The vines are of vigorous growth, leaves dark green, hardy and yield enormous quantities of large, handsome, flat, meaty pods, borne well up from the ground and has not shown any disposition to rust, no matter where grown. It is from eight to ten days earlier than the Valentine. The seeds should not be planted closer than 4 inches apart in the row. We particularly recommend this valuable sort to market gardeners.

Pkts. 5c and 10c. Pint 15c.
Qt. 25c. 1/2 Pk. 60c. Pk. \$1.
Bus. \$4.00.

1031 BOLGIANO'S NEW PEARL WAX BEAN.

The name of this grand new bean partly tells how good it is. If you had grown it in your field or garden last summer, like we did, when for almost two solid months we had copious rains every day, and it showed no signs of blight or rust, you would agree with us when we say a bean that will yield a fine crop of beautiful long, flat, clean waxy pods, under such adverse circumstances, certainly cannot be praised too highly. It is a PEARL of Great Value. Although a flat bean, the seed looks somewhat like a Valentine Bean; the plant grows about 2½ ft. high by 2 ft. across. It is a remarkably sturdy, rank, vigorous grower, well loaded with pods. The luxuriant foliage shelters the pods from the hot sun, and is free from blight or rust. The pods are long, slim, flat, plump, handsome and meaty; they somewhat resemble those of the Davis and Wardell's Wax Beans, but are plumper, longer, and straighter. They average from 7 to 8 inches long, and are of a clean light waxy yellow color. As to quality, the pods are exceptionally tender, brittle, and of fine texture, free from fiber, and if picked when ripe, they are entirely stringless. Both for shippers, market gardeners and the Home Garden, the exceptionally good qualities of Bolgiano's New Pearl Wax bean renders it of the greatest value.

Pkt. 15c. Pint 25c. Quart 50c. Gallon \$1.50. Peck \$3.00.

BOLGIANO'S SUNSHINE WAX BEAN.

1018. The beautiful, clear, attractive, bright golden color of this most delicious Wax Bean gave it the name of Sunshine Wax. In the market, side by side with many of the older and better known Wax Beans, the Sunshine Wax shone out and immediately attracted the attention of all.

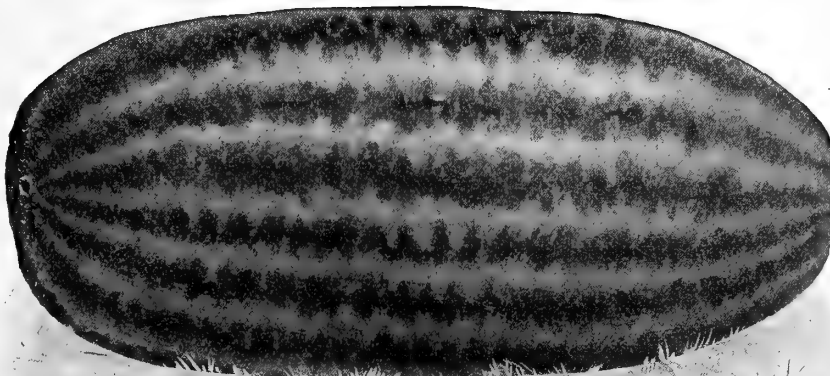

The vines are so heavily laden with an abundance of long, round, shapely pods it seems hardly possible that they can hold them all. You think of the Sunshine again when you are marketing a large crop of fine Beans a week or two before your neighbors have begun to pick. Now is your chance; order quick. Our supply is very limited this season.

Pkt. 10c. Pint 15c. Quart 25c. Gal. 85c. Peck \$1.50. Bushel \$6.00.

Bolgiano's "Cold Mountain Spring" Watermelon.

July 1st, 1905.
J. Bolgiano & Son,
Baltimore, Md.
The packet of your
melon, "Cold Mountain Spring," was
planted and fulfilled
every claim you made
for them. In fact,
they are the ideal
melon for Southern
markets, prolific, uni-
formly good size,
tough rind, flesh firm
and delicious. You
may expect a good
demand for this variety
of seed at this point
another season. Ad-
vertise early, keep the
stock pure and you
will have a bonanza
in this melon.

Yours truly,
S. B. Brantly,
Clermont, Fla.

COLD MOUNTAIN SPRING WATERMELON

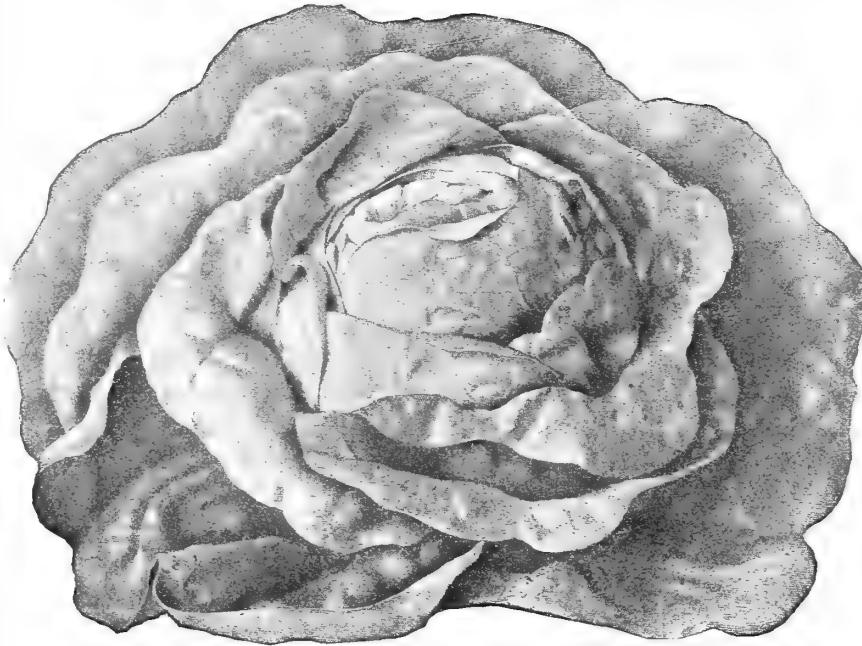

July 23rd, 1906.
J. Bolgiano & Son,
Baltimore, Md.
Gentlemen:—Will
you be so kind as to
enter my order for 50
lbs. of Selected Cold
Mountain Spring
Watermelon Seed. No
other variety will be
planted here another
year, and your firm
will be called upon for
about 250 lbs. of seed
of this variety at
Clermont, and the
neighboring points
will likely order the
same amount. This
is by far the best
Melon we ever plant-
ed; so be sure and keep
the seed pure and up
to the standard.

S. B. Brantly
Clermont, Fla.

171. **Bolgiano's Cold Mountain Spring Watermelon.** **New Variety.**—Last summer we were spending our vacation in the Mountains. During our absence, one of the leading Watermelon growers, living about 100 miles from Baltimore, wrote us, he had for a number of years been developing an extra, selected strain of Watermelon, and the results of his efforts had gone far beyond anything he had ever hoped to produce. Were we interested? He shipped us several samples, these came on boat to Baltimore 100 miles, then on railroad through the mountains for 250 miles. Reaching us in perfect condition after traveling 350 miles, through rough country and roughly handled. These melons attracted the attention of everyone by their beautiful deep green color, stately size and excellent shape. We had them on exhibition, then took them with us back into the mountains. We put the Melons in a Cold Mountain Spring, and in a few hours we cut them. The Melons were in a perfect condition, "Red to the Rind," and entirely free from stringiness. We immediately inspected the crop. The Cold Mountain Spring Watermelon is a winner as a shipper, as a table Melon and as a Money Maker. Our supply of seed is necessarily limited and only the seed produced by the originator, so order immediately. Pkt. 10c. Oz. 15c. 1/4 Lb. 40c. 1/2 Lb. 75c. Lb. \$1.50.

FOR COMPLETE LIST OF WATERMELONS SEE PAGE 40.

Bolgiano's "Millionaire" Lettuce.

BOLGIANO'S "MILLIONAIRE" LETTUCE.

150 As you can see by the name of this valuable new Lettuce it is an extremely profitable variety for both Market Gardeners and Shippers to grow; as well as a decidedly delicious variety for the Home Garden. If we could meet every one of our customers face to face we would persuade each one of them to give the "Millionaire" Lettuce a thorough trial the very first thing this Spring. We recommend it unreservedly as one of the best lettuces, and one of the most profitable that has ever been grown anywhere. It is a very quick growing hardy Lettuce and will stand much damp, cold weather. "Millionaire" Lettuce can be planted out of doors or under glass and in either case will produce fine round compact heads 6 to 7 inches in diameter, which weigh from 12 to 16 ounces, much sooner than any other variety. It is an excellent market variety, the heads are a clear light green, the outer leaves being slightly tinged with brown and closely folded around the head making it all head, the inner leaves are a clear bright rich golden yellow. In quality "Millionaire" Lettuce is unequalled, it is crisp, tender and has a delicious rich buttery flavor. **Pkt. 10c.**
Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.

Bolgiano's Gold Prize Lettuce.

**Of Great Value to Market Gardeners.
 FOR SPRING, SUMMER, AND FALL.**

Messrs. J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—I acknowledge with thanks the gold prize which you offered to all the market gardeners, around Baltimore, for growing the finest individual head of Lettuce from the sample which you gave us in the late summer.

The head which I brought to you, as you weighed and measured yourself measured 1 foot across, 8 in. high, and weighed 18 ounces. This went through a very unfavorable season, and I am confident that with a favorable chance it would have done even far better. I wish you all success in your new building, Pratt and Light Sts.

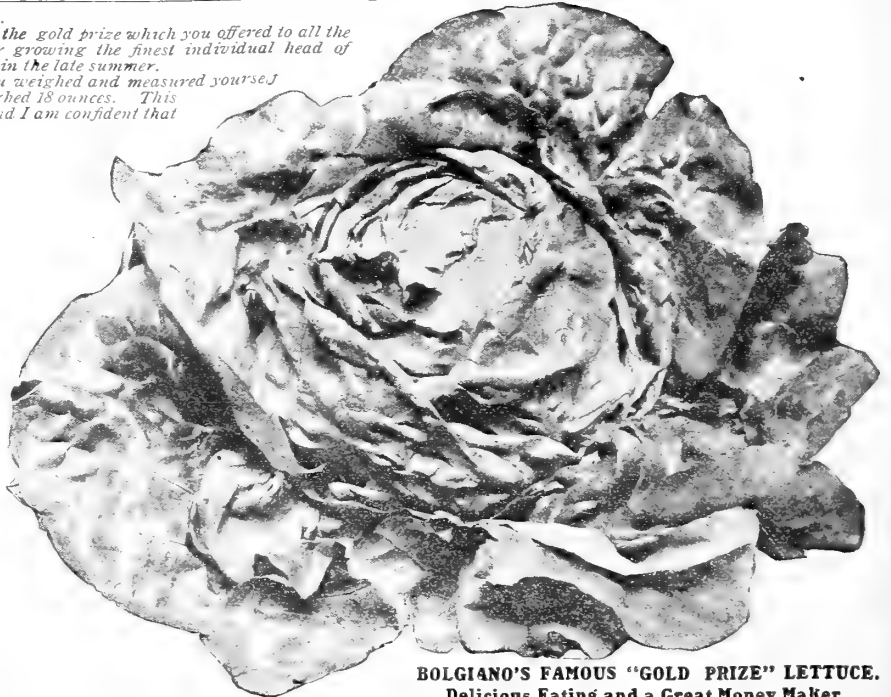

Yours truly,
 HENRY JASPER.

118 BOLGIANO'S "GOLD PRIZE" LETTUCE.

1. Handsome, very large, Solid Heads.
2. Will not rot in the stem.
3. Outer leaves a beautiful light green color.
4. Inner head large, round, creamy, tender and crisp.
5. Very slow to go to seed.
6. Pronounced by experts to even surpass our Celebrated Big Head Lettuce. Not tough like Defiance Lettuce.
7. Larger and a few days later than our Big Head Lettuce.
8. Once grown, always wanted on account of its extra fine quality.

Price, Pkt. 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.

**FOR A COMPLETE LIST OF
 LETTUCE

 "Lettuce fine—ship all you can—market high." W. R. Johnson, Cincinnati, Ohio.

Bolgiano's Big Boston Lettuce is the ticket for market gardening. Yours very truly,
 R. Guy Zetrouer,
 March 1, 1906. Rochelle, Fla.

J. Bolgiano & Son,
 Baltimore, Md.

From 3 acres of your Big Boston and California Cream Butter Lettuce, I made \$3,200.00.
 Yours truly,
 J. W. PERKINS,
 Oakland, Fla.

Bolgiano's "JUNIOR" ROCKY FORD CANTALOUPE.

Without A Single Exception. The Biggest Money Making Melon Ever Offered. Two Weeks Earlier, A Little Larger, Twice As Productive As Rocky Ford. More Thoroughly And Deeply Netted. Rust And Blight Proof.

BOLGIANO'S "JUNIOR" ROCKY FORD CANTALOUPE.

16. This Greatest of all Money Making Cantaloupes, had for its parents two exceptionally fine stocks of Rocky Ford Melons, it has been bred up by our expert growers to be entirely blight and rust proof. "Junior" is a wonderfully prolific yielder, single plants producing as high as 16 fine melons. It will develop shipping fruit ten days to two weeks before the Rocky Ford. In form it is ideal, being just the right shape to pack to best advantage into crates. In size it is a little larger than the regular Rocky Ford. Its netting is close and deep thoroughly covering the melon, protecting its keeping and shipping qualities and lessening the loss of weight from evaporation. In quality it is most deliciously sweet and spicy creating a largely increased demand on account of these excellent points. The seed cavity is very small and is well filled with seed, the attractive green flesh is thick, smooth and firm, combining together to making it the best melon for carrying long distances that the grower has ever had. **Pkt. 10c, Oz. 25c, 1/4 Lb. 65c, 1/2 Lb. \$1.25, Lb. \$2.50.**

Gentlemen:—I saw some of your "Junior" Rocky Ford Cantaloupes growing and they certainly were the finest things in the way of cantaloupes I have ever seen. I will want at least two pounds for my 1907 crop.

October 10, 1906.

Yours truly,
N. C. Cromwell, Norfolk, Va.

I was well pleased with your Rocky Ford Cantaloupe Seed this year and sent you an order a few days ago for 5 lbs.; also for 1 lb. of your Junior Rocky Ford to be shipped in January. From all I can hear, your seed gives general satisfaction.

August 3, 1906.

A. Broadfoot,
Fayetteville, N. C.

Gentlemen:—I was very much pleased with the Rocky Ford Cantaloupe that you sold Mr. J. B. Huske of this place. They were short and thick, packed in crates better than any other variety, and brought from 50c to \$1.00 more on the market. Can you book my order for 25 lbs. of this same type for coming season?

July 20, 1906.

C. D. AVERETTE,

Fayetteville, N. C.

ROCKY FORD CANTALOUPE.

157. THE FINEST STOCK IN THE WORLD AS ONE OF OUR CUSTOMERS PUT IT "NOT A MIXED SEED IN THEM."

A Sweet, Luscious Melon, World Famous for its Captivating Flavor

PUREST AND BEST STRAIN GROWN.

- 12 Strong Points for which Our Stock is Famous.
1. Size about 4 1/2 inches high by 5 inches long.
2. Netting well defined and deep.
3. Blossom-end well protected with a small button.
4. Ten distinct ribs.
5. No netting across the space between the ribs.
6. The space between the ribs well defined from stem to blossom button, but not so wide as to weaken the melon.
7. When cut, flesh is green, changing VERY SLIGHTLY toward yellow at center.
8. Flesh very deep, so as to leave a small seed cavity.
9. Flesh fine grained.
10. Our seed is saved from the finest melons of the first picking.
11. Each individual melon is cut open by hand, and carefully inspected both inside and out.
12. Last, but not least, it is an excellent shipper, having deep flesh at the blossom end. The blossom end in many other strains is a very weak point.

157. There is a difference in the stocks of the Rocky Ford Melons that are being placed in the trucker's hands, and that difference is most severely felt when the trucker places his so-called Rocky Ford stock on the market alongside of some of Bolgiano's true, handsome, most deliciously flavored stock. It does not need the eye of an expert to discern the difference, for the one presents regularity of form, uniformity of size, each Melon cut proving the parent luscious stock; and the huckster, shipper, commission merchant, fruiterer, hotel-keeper, quickly purchase this stock, knowing that they never have trouble selling at good prices a Melon of such trueness and quality. Bolgiano of Baltimore can send it direct to you, no matter where you live. It is impossible to secure truer, better stock, even if you pay five times the price we ask. We await your order, and shall take pleasure in promptly filling the same. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, 1/2 Lb. 25c, Lb. 50c.**

NEW EDEN GEM.

167 This Magnificent new Muskmelon is a selection of the old Rocky Ford, which it completely surpasses in lusciousness, yield, carrying, and good selling qualities. In shape it is somewhat longer and a trifle larger and closer and deeper netted. **Packet 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 60. Lb. \$1.00.**

THE GENUINE POLLOCK CANTALOUPE.

334 A rust resisting melon, with netting over the blossom end; not a long melon, but rather inclined to be short, with the finest shipping and eating qualities. The selections from time to time have reduced the size, now they crate nicely. **Pkt. 10c, Oz. 15c, 1/4 Lb. 30c, 1/2 Lb. 50c, Lb. \$1.00.**

FOR OUR COMPLETE LIST OF CANTALOUPEs, See Pages 39 & 40.

BOLGIANO'S NEW "SQUARE DEAL" CABBAGE.

Your "Square Deal" Cabbage is the best cabbage we have ever raised in Oklahoma. Some of the heads weighed 10 lbs. and this is no cabbage country either.

J. D. CORRY,
Oklahoma,
Aug. 7, 1906.

Frederick, Md.
May 30, 1906.
Gentlemen:—

Your "Square Deal" Cabbage seed came up fine. I will purchase a lot of seed from you this fall.

Yours very truly,
A. I. HOFFMAN.

From 4 acres of
Bolgiano's Succession
Cabbage I cleared \$1400.
T. C. CONNELL,
Oakland, Fla.

Bolgiano's New "Square Deal"
Cabbage.

154. Without a single exception, Bolgiano's New "Square Deal" Cabbage is the Biggest Money Making Cabbage ever offered the American trucker. This is a strong assertion, at least 100,000 people will read it, so you can readily see we could not afford to make such a statement unless we were sure of our ground. The "Square Deal" Cabbage matures immediately after our New Leader Cabbage. It is absolutely a "Square Deal" as we have seen ten-acre fields without a single irregular head. The uniform heads are of excellent size for shipping, larger than the New Leader, and yet not so large as to be unwieldy. The color is a fine fresh green and is retained during long shipments. The heads are solid and compact with very few outer leaves. For a fine, Solid, Tender, Uniform, Early, Flat Cabbage, Bolgiano's "New Square Deal" Cabbage challenges the world. The demand for a fine Cabbage of this character, led us by the most rigid and careful selection, during the past five years, to mature this Cabbage, which we are confident will give all our friends and customers a "Square Deal" every time.

Price, Pkt. 10c. Oz. 35c.
1/4 Lb. \$1.00. Lb. \$3.50.

ALL OUR CABBAGE SEED IS THE CHOICEST
AMERICAN GROWN.

"BIG WINNER" WAKEFIELD CABBAGE.

25. Two years ago we introduced the **Big Winner Wakefield Cabbage** and it has become very popular with Cabbage growers, both large and small. It is as large as the Big Charleston Wakefield Cabbage and as early as the Early Jersey Wakefield. Handsome in appearance, massive and graceful. The heads are solid and heavy, making a perfect shipping Cabbage. It is fine form and in flavor deliciously sweet. Among the pointed heading Cabbage it is by far "The Big Winner Wakefield." Don't let this season go by without a liberal planting of this Profit-producing Excellent Cabbage.

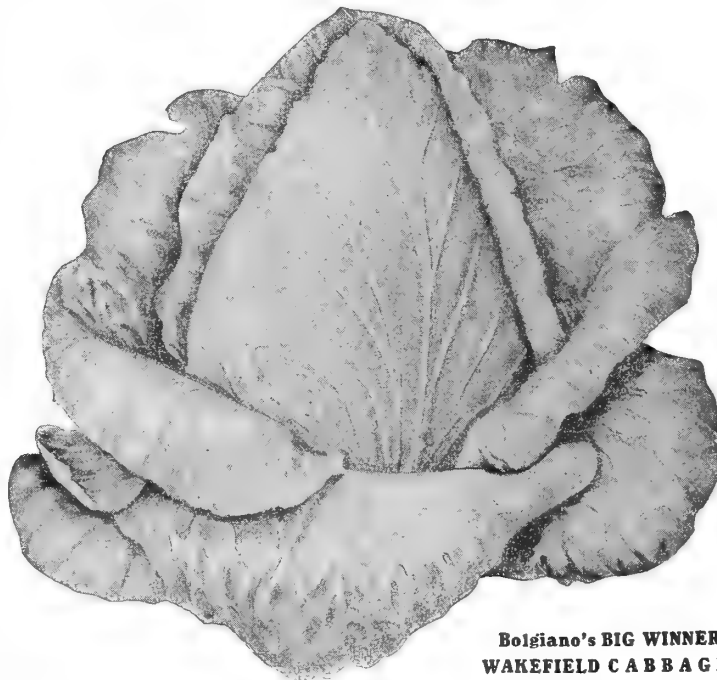

Price, Pkt. 10c. Oz. 35c.
1/4 Lb. \$1.00. Lb. \$3.50.

**BOLGIANO'S
EXTRA EARLY
EXPRESS CABBAGE**

Suitable for Market Gardeners for Very Early Crops. 10 Days Earlier than the Wakefield.

27. What pleasure there is in growing a uniform, attractive, solid crop of Extra Early Cabbage! Bolgiano's Extra Early Express is the **best** Extremely Early Cabbage on Earth. Praises of its merits come from the most experienced growers. They remember a good thing when it pays them. Earliest, uniform, solid, fine color; brings top prices. No soft heads, 10 days earlier than the Wakefield.

Pkts. 5c and 10c. Oz. 20c.
2 Ozs. 35c. 1/4 Lb. 50c. Lb. \$1.50.

Gentlemen:—Please send me another 1/4 lb. package of your Large Charleston Wakefield Cabbage Seed: it was the best I ever sowed.
Sept. 11, 1906.

F. W. ROBERTS, Mims, Brevard Co., Fla.

**Bolgiano's
NEW-LEADER
CABBAGE.**

26. As early as the Wakefield, yields 12,000 heads, one-third more per acre than any other extra early Cabbage. The outer leaves are so few and so small that they can be planted very close. The heads are compact and solid from the time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small hard heads, or later, when the Wakefields come in of large thoroughly matured, solid, round, flat heads. In quality, it is "The Leader," the veins of the leaves are extremely fine; its rapidity of maturing, compact growth gives it a flavor unequalled. The demand for such a Cabbage in Northern Markets is becoming greater and greater each year. The people want an extremely early new slaw head Cabbage and "THE LEADER" supplies their wants. Pkt. 10c. Oz. 25c.
1/4 Lb. \$1.00. Lb. \$3.50.

**Bolgiano's BIG WINNER
WAKEFIELD CABBAGE.**

For Complete List of Cabbage, see pages 32 and 33.

BOLGIANO'S FAMOUS STOCK FRENCH GOLDEN SELF-BLANCHING CELERY.

IS THE FINEST STOCK IN THE WORLD. STANDS SHIPMENT BETTER THAN ANY OTHER.

J. Bolgiano & Son, Baltimore, Md.

Last October I purchased of you 1 lb. of your New Crop French grown Self-Blanching Celery, and am well pleased with my crop, and will now take the 5 lbs. I requested you to reserve for me.

H. H. CHAPPELL, Florida.

Gentlemen:—My Celery, grown from your French Golden Self-Blanching Celery Seed took the premium in South Florida last season. It was the finest I have ever grown, and some of it weighed 3 lbs. to the bunch.

J. W. TEASLEY, Fla.

Messrs. J. Bolgiano & Son.

Gentlemen:—I have been growing Celery for the past 38 years, but the French Golden Self-Blanching Celery I raised this year from your seeds, beats any I ever saw. The sample stalk I am sending you weighs most 2 lbs. trimmed for market; this represents the average run of the crop.

Yours truly,
HENRY JASPER,
Germantown, Md.

Gentlemen:—I planted a small amount of your French Golden Self-Blanching Celery Seed last year, and made fine Celery. Will raise it on a large scale this year.

J. P. DOSS, Astor Park, Fla.

Your French Golden Self-Blanching Celery Seed is the best, and I took pains to let it be known, and you received a great many orders.

Yours truly,
W. H. ABEL, Fla.

J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—Your Golden Self-Blanching Celery will surprise and delight every Celery grower. The sample I am sending you will speak for itself. Large, heavy, solid, and in appearance strikingly beautiful. It is always easy to sell the best.

J. ZANDER, Belair Market.

71. Bolgiano's Famous Stock of French Golden Self-Blanching Celery.

While you can readily afford to put your whole crop in our stock of this **most valuable** Celery, you cannot afford to let this year go by without growing some of it. We have positively refused to sell all Self-Blanching Celery Seed except this stock. The Celery it produces will not only ship well but will bring the highest market prices. It will create a new price for you; your commission man can get outside figures for it, and he will sell quickly all you can ship. Try our stock; YOUR PRAISES will be louder than ours. Perfect, solid, crisp, vigorous stalks; thrifty, compact growth, self-blanching to a very remarkable degree; even the outer ribs become a handsome, fresh, clean yellowish color, with a heart that is large and solid, of a beautiful, rich golden yellow color. It never becomes stringy or pethy. To fully appreciate its beauty and attractions, it must be seen. Many of our customers place their orders with us six months before planting time in order to be sure of this stock of seed.

Pkts. 5c and 10c. Oz. 35c. 1/4 Lb. \$1.00. 1/2 Lb. \$2.00. Lb. \$3.50.

BOLGIANO'S FAMOUS STOCK. 1/2 Lb. \$1.75. Lb. \$3.50.

Messrs. J. Bolgiano & Son, Baltimore, Md.

Dear Sirs:—I have just finished cutting my Celery crop of three acres, 3064 crates selling f. o. b. here, for the nice little sum of \$6,120.72. This has been an off year too for us, as well as other Florida points, and this was grown from your seed secured last summer. I had a quarter of an acre measured and the Celery on it sold for \$730.00. That was my heaviest yield.

Yours truly,
H. H. CHAPPELL, Fla.

Florida.

J. Bolgiano & Son,
Baltimore, Md.

Gentlemen:—As soon as your new crop of Celery seed arrives in Baltimore, please send me two pounds. I wish to test these seed for my next year's crop besides wishing them for planting a late crop this fall. Please advise when expected. Am planting about 10 acres Celery this season from your seed.

Yours truly,
H. H. CHAPPELL,

J. Bolgiano & Son,
Baltimore, Md.

We grew 3 pounds of your True French Golden Self-Blanching Celery seed last winter in the State of Florida, and they proved to be the very truest strain.

S. & S. W. COBB,
New York.

Bolgiano's French Grown NEW VICTORY CELERY.

81. An excellent winter Celery. We have grown this seed in America for several years and find by careful experiments it loses some of its solidity; while Seed we have grown in France remains as solid as the finest stock of French Golden Self-Blanching Celery. As a result we have grown our entire supply for this Season in France and we can recommend it to you as a most solid and most profitable winter celery. Our French grower, carefully selects by hand each individual plant in transplanting and only the absolutely solid plants are retained, the rest are thrown away. Again when he puts the full grown plants in Kilns for Winter, each individual plant is gone over and only the absolutely solid are put in the Kilns. Again in the Spring before putting the plants in the bed where the celery is to go to seed only the absolutely solid plants are used. We are sure our stock of French Grown "New Victory" Celery is one of the Best Winter Celeries on Earth.

It has a great amount of heart, is heavier, stouter, and thicker than many of its rivals. It is the most economical Celery yet introduced, every particle being solid, crisp, and of a delicious flavor. Its beautiful, large, golden heart and compact growth make an ornament hard to surpass. It is a remarkable keeper, maintaining its firmness as late as May. Critical market gardeners pronounced it to be of the finest quality, best keeper and most salable Celery they have ever raised. It is ready for market by December.

Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. \$1.00.

Bolgiano's "SWEETNUT" CELERY

New French Grown

76. For home gardens and nearby markets, Bolgiano's New Celery "SWEETNUT" is the most delicious, sweet, nutty, crisp celery that has ever been offered the public. "Sweetnut" Celery has been developed by one of our most careful French Growers for many years. The most rigid selection had to be made to get this strain thoroughly fixed but this season we are delighted to say after two years of exhaustive testing in our Test Gardens we can offer our friends and customers a Celery that is surpassingly delicious. It is absolutely solid, a most excellent winter keeper, of vigorous, sturdy growth, making fine large solid stalks, with a large full creamy-yellow heart. It is necessary to blanch it by earthing up or storing it for the winter. It blanches to a beautiful creamy-yellow, when the stalks are extremely brittle, entirely stringless and exceptionally crisp. On account of its great brittleness it should not be shipped long distances but of course for home use and nearby markets its brittleness is one of its most desirable features. We recommend this Celery to our customers who enjoy the most delicious things the garden affords. Our supply is yet very limited but we want everyone to give it a trial this year.

Pkt. 10c. Oz. 50c.

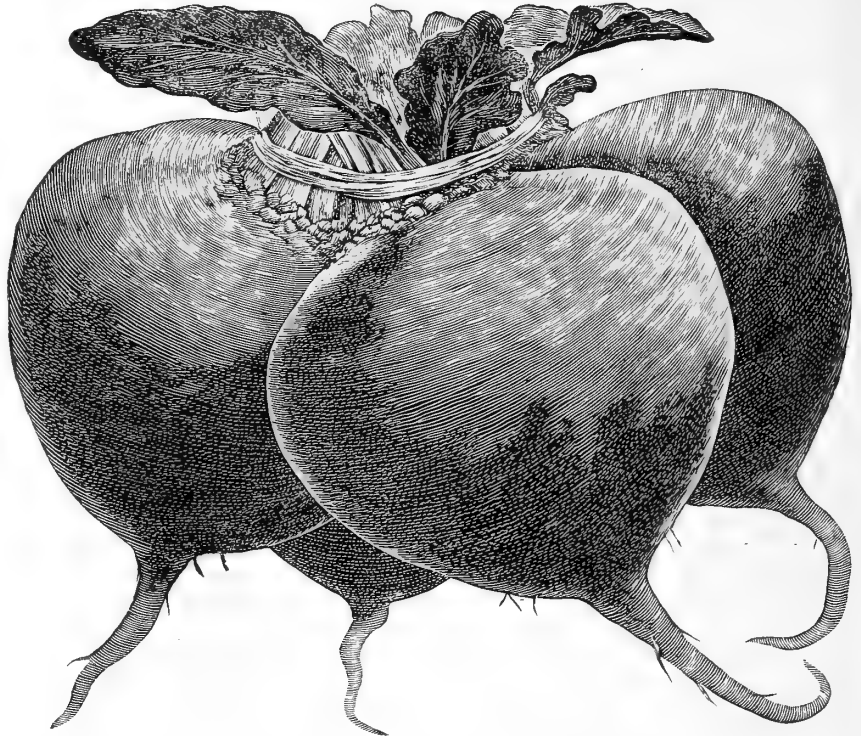

FOR OUR COMPLETE LIST OF VARIETIES OF CELERY, SEE PAGE 35.

Bolignano's "American Beauty" Beet

NEW

12. The skin and flesh of "The American Beauty" Beet are both a deep rich blood crimson color. It matures just after the Eclipse, has a most beautiful form being a little deeper than round, medium in size, generally about three inches in diameter, has a remarkably smooth surface and a small tap-root. It is exceedingly tender and deliciously sweet. The very dark, attractive leaves are small and are borne on slender stems which take up but little of the root. It is particularly delicious on account of its tenderness and it is entirely free from flesh of a stringy or woody character. In our extensive trials last spring and summer we found "The American Beauty" Beet surpassed every leading variety in color, shape, form, size of leaves and root, tenderness and sweetness of flesh and was only a few days behind the Eclipse in maturing. As a Market, Shipping or a Home Garden Beet "American Beauty" stands supreme. We unreservedly recommend every one of our customers to give it a trial this spring and summer, for if planted in the summer it will keep in perfect condition during the entire winter, losing none of its tenderness, sweetness, or rich color during the entire winter.

Pkt. 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

BOLIGNANO'S NEW "AMERICAN BEAUTY" BEET.

Bolignano's Black Beauty Egg Plant.

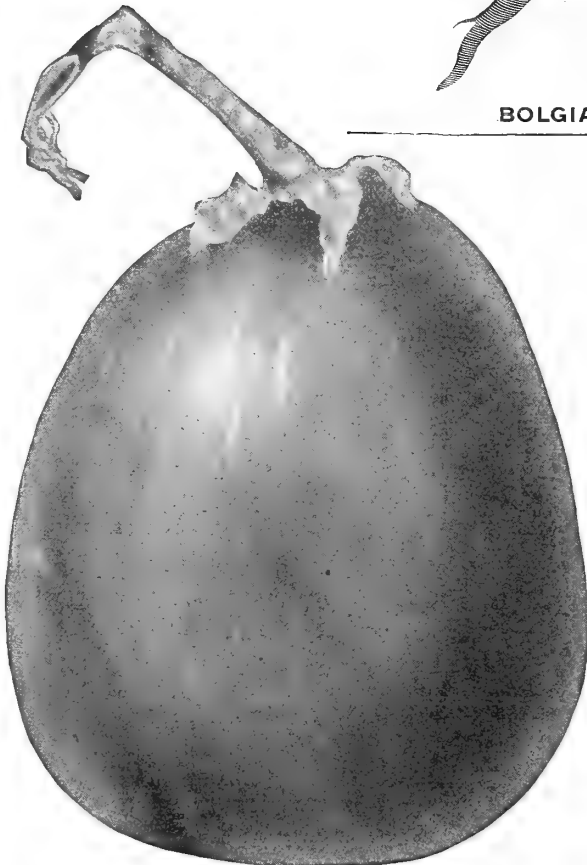

TWO WEEKS EARLIER THAN ANY OTHER EGG PLANT.

100. **Bolignano's Black Beauty Egg Plant.**
1. An entirely new variety and a splendid shipper.
 2. A novelty of remarkable merit.
 3. As large as the New York Spineless Egg Plant.
 4. Two weeks earlier than the New York Spineless Egg Plant.
 5. Fine flavor.
 6. Most attractive appearance.
 7. Plants branch freely near the ground.
 8. Skin a rich, lustrous purplish black.
 9. Satin gloss and rich coloring add greatly to the beauty of the fruit.
 10. The intense, brilliant coloring is uniform over the whole fruit and does not fade or change to a lighter color at the blossom end.
 11. The heavy leaves which attach the fruit to the stem are bright green, making a beautiful contrast with the fine dark color of the fruit.
 12. Thoroughly free from spines or thorns.
 13. Fruit sets freely.
 14. Coming two weeks earlier than the New York Purple Egg Plant, they readily bring double the price. Pkts. 5 and 10c. 1/2 Oz. 15c. Oz. 25c. 2 Ozs. 50c. 1/4 Lb. 90c. 1/2 Lb. \$1.75. Lb. \$3.50.

FLORIDA HIGH BUSH EGG PLANT.

99. **The Florida High Bush Egg Plant** has proved of the greatest value to Southern truckers and shippers. It has been grown in Florida for the past three or four years. It is remarkable for its vigorous growth and productiveness, is very hardy, and will stand more cold weather than the New York Improved. The hot sun does not blight the blossoms. The plant has a characteristic leaf, unlike any other Egg Plant we know of. It grows from three to four feet high, erect and sturdy, free from thorns. Fruit is large, oblong in shape and purple, though not so deep a color as the New York Improved. It resists drought and wet weather to a wonderful degree, partly on account of its strong upright growth. It stands the cold better, and is the only Egg Plant that stands shipping from this section to the Northern markets under almost all circumstances. It is of a large size, first-class shape and superior flavor. Its shipping qualities are the very best. It brings the highest price in the Northern markets, keeping its freshness and condition much longer than any other variety. The growers realize good returns for this variety when all other varieties have been reported "arrived in bad condition," and many would not plant any other variety.

Pkt. 5c & 10c. Oz. 25c. 1/4 Lb. 90c. 1/2 Lb. \$1.75. Lb. \$3.50.

BLACK BEAUTY EGG PLANT.

Bolgiano's New Century Cauliflower

THE HIGHEST PRICED CAULIFLOWER SEED IN THE WORLD.

It Can Never Be Any Cheaper. It Is By Far The Best Cauliflower Seed In The World. If You Grow Cauliflower, Give It a Trial. Large Growers Who Have Tried It By The Ounce, Are Now Buying It Each Season By The Pound. It Is In a Class To Itself--IT STANDS SUPREME.

We have done our part by growing for you the finest stock of Cauliflower in the World, if you want the Best here's your opportunity.

New Century Cauliflower.

54. THE BEST IN THE WORLD.

1. It heads when others fail.
2. Large, perfect heads measure from 12 to 14 inches in diameter.
3. The beautiful white heads are compact, deep and solid.
4. Heads will outweigh those of any other strain.
5. It is the earliest of all Cauliflowers.
6. One-third more can be planted on the same space than can be done with other varieties because of its close growing, compact habit.
7. It is the Most Carefully Grown Cauliflower Seed in the World.
8. The Best is the cheapest, Receiving the care and attention which is absolutely necessary for the growing of this Special Stock.

WE CAN NEVER SELL IT FOR LESS THAN
\$1.00 for 1/4 Oz. \$2.00 for 1/2 Oz. \$4.00 per Oz.
\$15.00 per 1/4 Pound.

Messrs. J. Bolgiano & Son, Baltimore, Md.
Gentlemen:—Last Spring I planted your "New Century Cauliflower" seed alongside of Henderson's Snow Ball Cauliflower. I have been growing Cauliflower and truck on a large scale for the past 47 years, and in all of my experience I have never seen a Cauliflower to equal the New Century. It is as early as the Snow Ball, but produces much larger and more attractive heads. Whenever I brought it home for our own use the folks always knew I had the New Century, and my helpers who have stood by me many years agree with me in this statement. On the market the New Century Cauliflower would sell at a much higher price than any others, and the person who hesitates about buying the New Century on account of the difference in price, is making a serious and great mistake, because in one small sale he can more than make up the slight difference.

HENRY FAUTH,
Catonsville, Md.

Complete Cauliflower
List—See Page 34

BOLGIANO'S NEW CENTURY CAULIFLOWER. THE BEST CAULIFLOWER IN THE WORLD.

105 A WONDERFUL NEW ONION.

IT WILL MATURE WHEREVER A PRIZETAKER OR A BERMUDA ONION WILL MATURE.

FOR THE BEST NAME.

We offer the following Cash Prizes to those who buy an ounce of this NEW ONION SEED, and tell us at the time of purchasing that they are entering the contest.

\$5.00 In Gold for the Best Name.
\$2.50 In Gold for the 2d Best Name.
\$1 Each for the next 5 Good Names.

It is large, globe shaped, pale yellow and weighs from 2 to 3 pounds, measuring from 16 to 19 1/2 inches in circumference. For Quality, Flavor and Size it is the Best Onion in Cultivation. In order to obtain the largest and finest bulbs the seed should be sown early and the seedlings transplanted to richly manured soil as early as possible.

In planting treat the same as Prizetaker or Bermuda Onions but allow more room as the bulbs are much larger.

\$1.00 an ounce and not more than 4 ounces allowed to any one customer, as our supply is limited to a few pounds. We know we have THE ONION that will make you big profits. If you knew as much about THIS ONION as we do, you would want to buy every ounce we have. :: :: :: :: ::

GRAY'S "MORTGAGE LIFTER" POTATO.

(OUR 1906 NO NAME POTATO.)

We wish every one of our customers who grow Potatoes could talk with the Growers who grew a crop, this year, of this Grand New Potato. It certainly is something to marvel at, and yet if all our customers realized its great value our limited supply would not be a drop in the bucket. It is an early variety maturing a little later than the Crown Jewel, it is pure white, large handsome size, distinctive in shape being long, well filled and tapering at both ends. Eyes are strong and well set not too deeply however.

It certainly is a beauty and as to yield Mr. Herman Arndt, of West Arlington, Md., reports a yield of 30 bushels from Peck cut Potatoes, and from one short row he dug 7½ bus. with absolutely no culls. Another grower says they grow so large it don't take many to fill a barrel, no culls, and by the car load they brought over \$20 a car more than the best Potato on the market. Mr. Prevatt, of Seville, Fla., after giving this Grand Potato a thorough trial orders eight barrels in the place of the one he planted last year. Mrs. Wm. G. Harvey of Roslyn, Md., calls it The "Farmers Favorite" among other names it was called are "Maryland Beauty," "Money-Maker," "Virginia Wonder," The "Excelsior," "Gold Standard," "Silver King," etc. We finally selected Gray's "Mortgage Lifter" as suggested by Mr. Jas. T. Gray, of Grange, Md., because Mr. Gray actually paid off a good size mortgage on his farm with the proceeds from the Wonderful Crop of this Grand New Potato which he grew this year and we hope that the mission of Gray's "Mortgage Lifter" Potato will not be ended until it has helped to clear many more farms of their mortgages. **Price: Lb. 40c. 3 Lbs. \$1.00 by mail postpaid.**

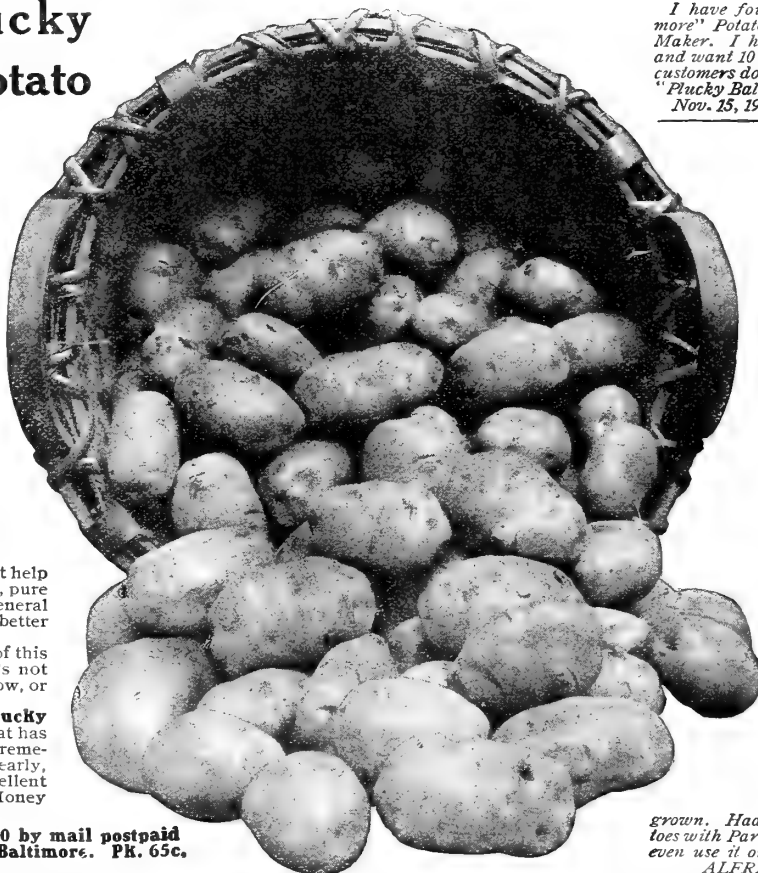

By express or freight, F. O. B. Baltimore, PK 65c. Bus. \$2.00. Bbl. \$5.00.

Bolgiano's Plucky Baltimore Potato

BOLGIANO'S WONDERFUL NEW PROLIFIC EXTREMELY EARLY SEED POTATO.

1. Ten days earlier than the Red Bliss Triumph.
2. **Snowy White Potato** about the size and shape of the Houlton Early Rose.
3. Yields from 250 to 350 bus. per acre of most attractive, marketable Potatoes.
4. Always brings 50c more per barrel than the fanciest stock of any other variety on the market.
5. The quality is delicious, the entire supply is quickly taken up by the most critical hotel trade in New York and Boston.
6. Young, full, pure blooded stock; not susceptible to disease.
7. Seed grown in the most careful manner.
8. If you are a Potato grower and you once saw the **Plucky Baltimore Potato**, you could not help but buy it. Its attractive shape, pure white color and in fact its general appearance speaks for itself, far better than we can write about it.
9. We have the entire supply of this **Grand New Potato**, and that's not many barrels, so order right now, or our supply will be exhausted.
10. We can recommend the **Plucky Baltimore** as the best Potato that has ever been sold the truckers. Extremely attractive, extraordinarily early, enormously productive, excellent quality, Pure White and a Big Money Maker.

Price, Lb. 40c. 3 Lbs. \$1.00 by mail postpaid
By Express or Freight, F. O. B. Baltimore. PK 65c.
Bus. \$2.00. Bbl. \$5.00.

I have found your "Plucky Baltimore" Potato to be a splendid Money Maker. I have used it for two years and want 10 Barrels for 1907 crop. My customers don't want anything but the "Plucky Baltimore." JOHN DEIHL,
Nov. 15, 1906. Grange, Md.

Your "Plucky Baltimore" Potatoes ought to be named "Plucky Baltimore Ball of Flour." I am well pleased with it.

THOMAS WARD,
Olyphant, Pa.
July 18, 1906.

The "Plucky Baltimore" Potatoes are the best Potatoes that were ever dug out of the ground. In earliness, size, color, and yield, they are perfect. When cooked, they are like a lump of flour.

Michael Dauber,
Gardener of the Md.
Hospital for the Insane
Md.

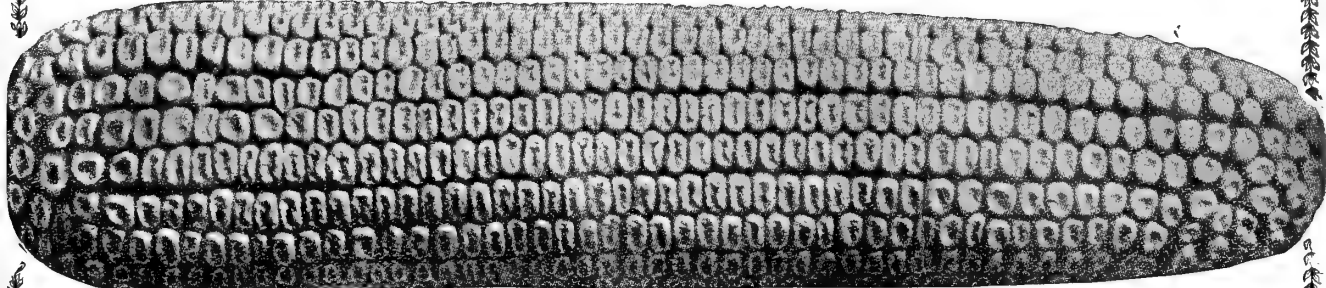

Your "Plucky Baltimore" Potatoes are the earliest I have ever grown, it is a good yielder, of excellent quality as well as a good keeper. I will grow no other variety.

Chas. S. Gleason,
St. Inigoes, Md.

From one barrel of "Plucky Baltimore" Potatoes I grew 70 boxes. They are the best yielding Potatoes I have ever grown. Had to treat all my other Potatoes with Paris Green twice but did not even use it once on Plucky Baltimore. ALFRED SELIG, Grange, Md.

BOLGIANO'S WHITE COB 65-DAY CORN.

THE HANDSOMEST EARLY CORN THAT'S BROUGHT TO MARKET.

1049. You will be thoroughly persuaded after one trial of this Extra Early Large Roasting Ear Corn that you cannot afford to let a single season pass without planting generously of this excellent Corn. White Cob 65-day Corn is the result of carefully selecting the earliest and largest ears of Gillespie's Early Neck Corn, and crossing these with the earliest and best varieties of Sugar Corn. The result is a Corn of fine quality, of 12 to 14 rows and reliable no matter what weather it has to stand. Being large, extremely attractive, early, tender and sweet, it quickly sells at money making figures. Ear 5c. Doz. 40c. 100 Ears \$2.50. Pkt. 5c. Pint 10c. Quart 20c. Gallon 40c. Peck 75c. Bushel \$2.50.

Bolgiano's Snow White Evergreen Sugar Corn

1066. **NINE FACTS ABOUT THE BEST SUGAR CORN IN THE WORLD.**
 1. White as snow. 2. Beautifully shaped ears. 3. Deliciously flavored and as sweet as sugar.
 4. Very tender. 5. Long, slender, purest white grains. 6. The finest Sugar Corn in the world.
 7. Stalks straight and vigorous; 6 to 8 feet high. 8. Ears are uniform, very large and completely filled to the tip. 9. Market gardeners, canners, and all who enjoy Sugar Corn will pronounce "Bolgiano's Snow White Evergreen" the finest Corn on Earth.
 Price, Packet 5c and 10c. Pint 10c. Quart 15c. 2 Quarts 25c. Gallon 40c. Peck 75c. Bushel \$2.50. Ear 7c. Dozen 50c. 100 Ears \$2.50.

1115. NEW PREMO 60-DAY SWEET CORN.

This is a very fine, very early Sugar Corn; and can be planted fully as early as the Early Adams', and seed does not rot easily when planted early. The stalks grow about five feet high and mostly bear two well-developed ears to the stalk. It is of extra fine quality, very sweet and delicious. A good early market sort. Pkt. 15c. Pint 10c. Quart 20c. 4 Qts. 55c. Peck \$1.00. Bushel \$3.50.

BOLGIANO'S FAMOUS STOCK Country Gentleman Sugar Corn.

1065. Six Reasons Why It Should Be In Every Garden.
 1. Yields from 3 to 6 ears on each stalk. 2. One of the most delicious Sugar Corns grown. 3. Kernels plump, pearly white, milky, and so tender they fairly melt in your mouth. 4. It is deliciously tender, even when a little old.
 5. Ears average 8 or 9 inches long. 6. Cob small, plump, and filled zig-zag from end to end with pearly white kernels of great depth. Price: Ear 5c. Doz. 50c. 100 Ears \$2.50. Pkt. 5c. Pt. 10c. Qt. 20c. 2 Qts. 30c. Gal. 50c. Peck. 75c. Bus. \$2.50.:

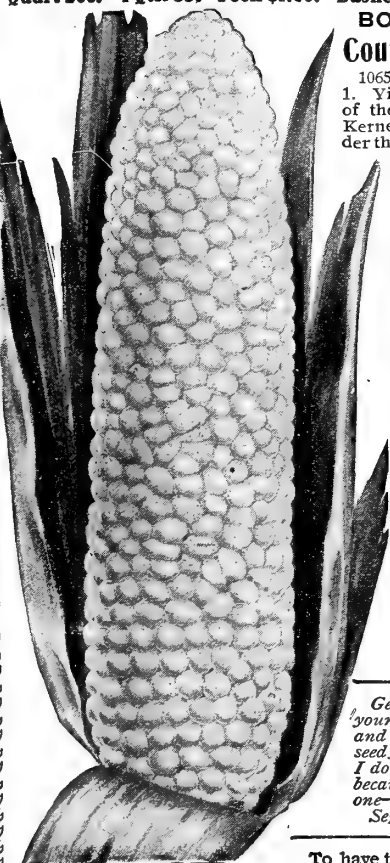

Peepo'day Sweet Corn.

1068. The two points of this remarkable Corn to which we wish to call most particular attention, are its extraordinary earliness and unparalleled sweetness; so marked as its sweetness and delicacy of flavor, that many of our customers who have been in the habit of planting several varieties to secure a succession, now plant PEEPO'DAY exclusively, arranging the plantings a few days apart so as to have this delicious Corn throughout the season. Another point of great importance is the wonderful productiveness of PEEPO'DAY. In fact our crops of PEEPO'DAY have given us for three successive years almost double the yield per acre of any other variety we have grown, early or late. Incredible as this may seem, it is readily accounted for by the fact that the stalks bear from 2 to 5 ears each and the growth being dwarf—about 4 feet—admits of a very close planting. Prices: Pkt. 10c. Pt. 10c. Qt. 20c. 2 Qts. 30c. Gal. 55c. Peck \$1.00. Bus. \$3.50.

Gentlemen:—I want to tell you that I have been buying your seed 12 years, and they are the best I got anywhere and also the cheapest. Last Spring I bought numerous seed from you, and tho' the weather was distressingly dry, I don't believe a seed failed to germinate. I tell you this because I know a word of praise when deserved encourages one—not to "weary in well doing."

Sept. 26, 1906.

Mrs. Geo. Davidson, Annapolis, Md.

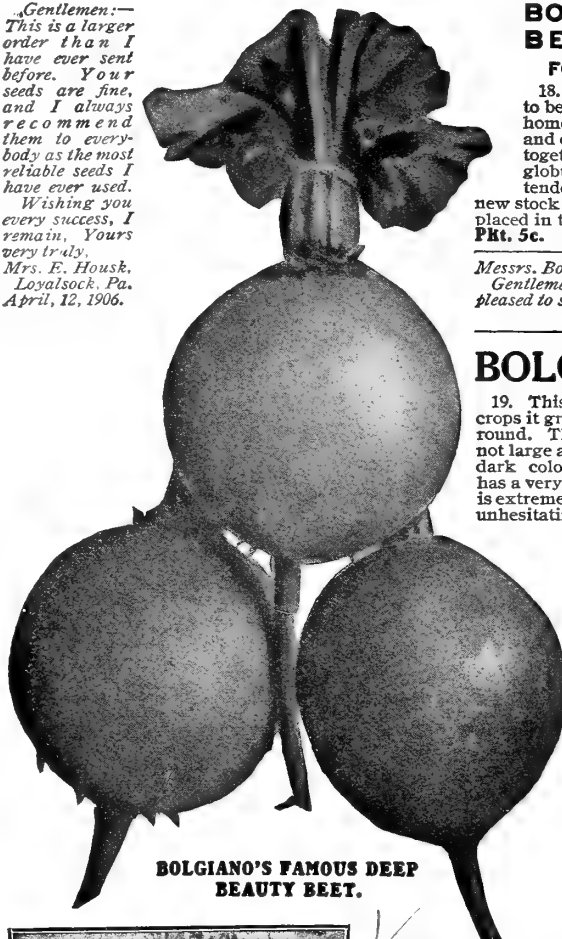

Country Gentleman Sugar Corn.
For our complete list of Sweet Corn see page 36.

To have the finest sweet corn, it must be picked in just the right condition; that is, when the skin of the grain breaks at the slightest puncture, and plantings should be made frequently enough to have a supply at this stage.

Snow White
Evergreen
Sugar Corn.

Gentlemen:—
This is a larger
order than I
have ever sent
before. Your
seeds are fine,
and I always
recommend
them to every-
body as the most
reliable seeds I
have ever used.
Wishing you
every success, I
remain, Yours
very truly,
Mrs. E. Housk,
Loyalsock, Pa.
April, 12, 1906.

**BOLGIANO'S FAMOUS DEEP
BEAUTY BEET.**

BOLGIANO'S DEEP BLOOD BEAUTY BEET.

FOR SIX YEARS THIS SPLENDID BEET HAS LED ALL OTHERS.

18. Our long experience in the growing of Beets has shown this new strain of Beet to be the best Extra Early Deep-Blood Turnip Beet, not only for market gardeners, but home garden. Its small upright growing tops, extra early maturing, splendid shape and deep crimson color make it popular with everyone. The rows may be grown close together. In the leaf the stem and veins are dark red, the blade green. The roots are globular and peculiarly smooth; color of skin and flesh is deep blood red, very crisp, tender, fine-grained and sweet, remaining so for a long time. We believe this excellent new stock will produce a crop more uniform in shape, color and quality than any Beet ever placed in the hands of the trucker.

Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 30c. 1 Lb. 50c.

Messrs. Bolgiano & Son, Baltimore, Md.

January 24, 1906.

Gentlemen:—I have purchased at different times various kinds of seeds from you, and I am pleased to say that they have been, without an exception, the best seed that I have ever used.

Yours very truly, FRANK L. GILBERT, Jacksonville, Texas.

BOLGIANO'S NEW ROYAL RED BEET.

19. This grand Beet is really worth its weight in Gold on account of the very satisfactory crops it grows and its great selling qualities. It is handsome in shape a little deeper than round. The flesh is rich, deep crimson and exceedingly tender. It grows medium in size not large and coarse. It is equally good both for early and second early crops. The small dark colored tops add to its value and also to its attractiveness. The Royal Red has a very dark red skin, is smooth, shapely and has but one small tap root. On light soil it is extremely early and of fine form. It is an excellent keeper and is deliciously sweet. We unhesitatingly recommend the Royal Red Beet to every one of our friends and customers, it is worthy of the most extensive use.

Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 30c. 1 Lb. 50c.

3. Bolgiano's Early Dark Ox-Blood Beet.

7 REASONS WHY YOU SHOULD GROW THIS BEET.

- 1st. It is extra dark blood color, from end of its tap root to top of its short, graceful leaves.
- 2nd. Early as the Crosby Egyptian.
- 3rd. Almost globe-shaped.
- 4th. Small amount of even foliage of deep Ox-Blood color.
- 5th. Beets are very smooth and free from side rootlets.
- 6th. Flesh fine grained, sweet and of an Ox-Blood color.
- 7th. You are the loser if you don't grow Early Dark Ox-Blood Beet this year.

Price: Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. 1/2 Lb. 30c. 1 Lb. 50c.

Gentlemen:—Having had experience with your seeds for 25 years I can truthfully state to anyone from my own experience that your seeds are what you represent them to be.
February 7, 1906.

MRS. BESSIE NEWBERN,

Odenton, Md.

BOLGIANO'S Pride of the Market Carrot.

THE MOST POPULAR CARROT THAT GROWS.

64. It is the most perfect, finest colored, most tender and best flavored carrot that was ever placed in your hands. Pride of the Market because it is the best. You must have the best of everything. In Carrots, to get the best we select roots that resemble our ideal, and from them grow seed for you. The Pride of the Market is half long, deep color, free from small side roots, small, tender core, uniform and graceful. The photo opposite will tell you what a perfect form it has. As an early Carrot, it is all your heart could wish. In mid-summer we have seen it out-sell every other variety on account of its superior merits and quality; for Winter there is none like it. Its attractive tops remain a rich green, thus giving it a fresh and beautiful appearance, and enabling you to bunch it when your neighbor is compelled to sell his by the measure. This Carrot will make your stall attractive during Winter, when vegetables are scarce and uninviting. At all times of the year, and in every way you take it, the Pride of the Market Carrot will pay you and be your friend. **Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. 1 Lb. 75c.**

60. Bolgiano's New Scarlet Beauty Carrot.

1. A handsome and profitable Carrot. 2. Rich, deep scarlet in color. 3. In length, between long and half long. 4. Very straight roots. 5. Very little foliage for size of roots. 6. Delicious flavor. 7. Heavy yielder. 8. Uniform in shape. 9. Often 2 3/4 to 3 ins. at the top and 10 to 12 inches long. 10. One of the most profitable Carrots that has ever been brought to market. **Price: Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. 1 Lb. 75c.**

PROSPERITY POTATOES

I am very much pleased with the Prosperity Potatoes I bought from you. I raised 500 bushels from 14 plants. I will plant the Prosperity Potatoes again next year. At Prospect Fair Prosperity Potatoes drew the first prize for me.

GEO. H. BURTON,
Baltimore Co., Md.

Oct. 23, 1906.

Dear Sirs:—

On your recommendation, I planted a crop of Prosperity Potatoes; they yielded well: I have a carload in the barn ready to ship.

PHILIP S. MORGAN,

Sept. 16, 1906. Múchelville, Md.

ENVY OF THE "OULD SOD."

Baltimore County Man Raises Potato Weighing 22 Ounces.

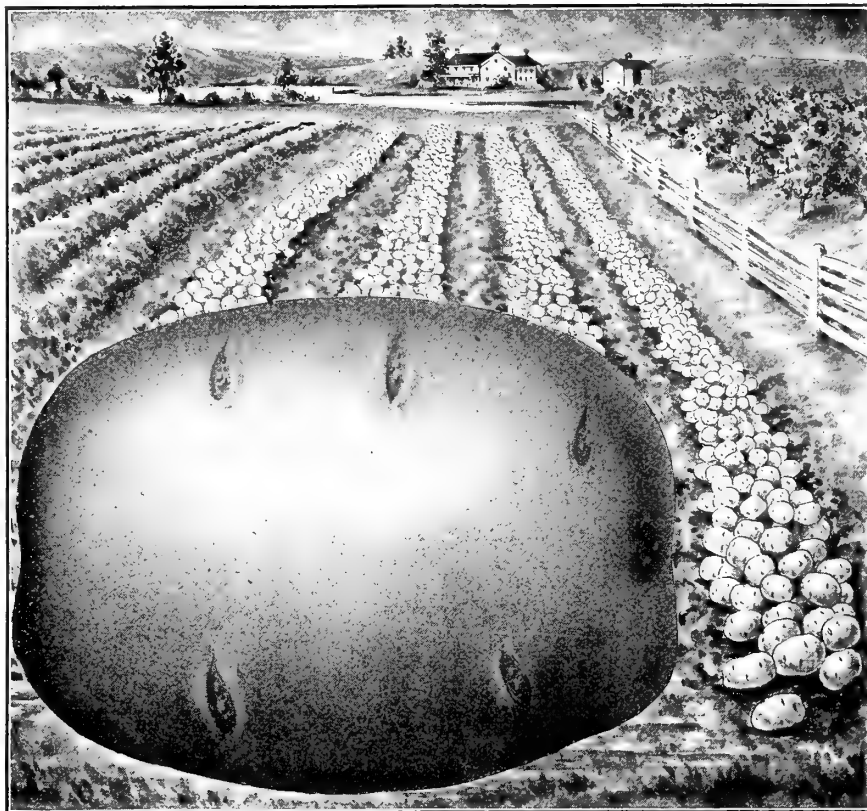

Mr. P. M. Birkhead, of Catonsville, sent to the Sun Office yesterday two splendid specimens of what is known as the "Prosperity" variety of potatoes. The aggregate weight of the potatoes was two pounds and a half, one of them weighing 22 ounces, and the other 18 ounces. The larger of the potatoes measures about nine inches in length and about eight inches in circumference. The other is about six inches long and about nine inches in circumference. Mr. Birkhead declared that half an acre yielded 100 bushels of that variety, all of the potatoes being unusually large.

Dear Sirs:—In gathering Ripe Neapolitan Peppers the other day I counted 61 Peppers—large and small—on one plant. They are well worth \$7 per pound.

Yours truly,
M. B. OLDS,
Tyler, Tex.

Aug. 23, 1906.

**NEW
NEAPOLITAN
PEPPER.**

BOLGIANO'S FAMOUS PROSPERITY POTATOES.

THIS Magnificent Potato has become the most popular middle crop potato of the newer varieties, and certainly one of the most worthy. Yields great crops of even, fine, smooth, large Potatoes, even under the most unfavorable circumstances, and can be relied upon to bring in good money. It is undoubtedly the handsomest large Potato ever produced, and will outyield any other Potato, and practically every Potato is of marketable size. It is always ahead of all others in yield and smoothness, and is of excellent quality. Every farmer will, after giving this most wonderful Potato a trial, discard every other kind and plant nothing but Bolgiano's Famous Prosperity Potato for his main crop. It grows a very strong, upright top, with dark colored stalks and purple blossoms, and is very little affected with drought, blight or bugs. The flesh is as white as snow, and cooks dry and mealy. The eyes are even with the surface, the skin white, with a rich yellowish-creamy cast, and considerably ruffled or netted. This Potato will astonish old Potato-Growers in its abundant yields and fine qualities, and every person who is ambitious to make the most money out of his crop cannot afford to let this year pass without obtaining seed of our crop of the New Prosperity Potato. **Lb. 30c. 3 Lbs. 75c., by mail postpaid. Peck. 50c. Bushel \$1.35. Barrel \$3.50.**

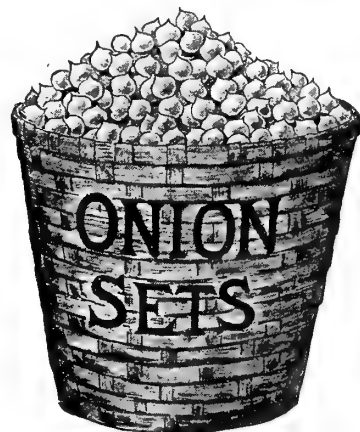

For Complete List of Potatoes see Page 44.

New Neapolitan Pepper

Also called PEDWICK PROLIFIC

Without exception the Earliest of all Peppers, by a Week to Ten Days. A Money Maker from the Word—GO.

233. Market gardeners who grow this Pepper send their crop to New York, Boston, Philadelphia, and even Chicago in car-lots from one to three weeks earlier than any other Pepper can be shipped. It is a good size, mild, piquant flavor, strong growth, very stocky, and the Peppers are borne erect, averaging an inch larger than the photograph opposite. Flesh is very thick and fruit is of beautiful red color. The fruit is borne in great abundance, it is not unusual to see forty or more Peppers on a single plant. If you grow Peppers do not let this season pass without growing some of the New Neapolitan Pepper, you will be the loser if you do. **Pkt. 10c. 1/2 Oz. 15c. Oz. 25c. 2 Ozs. 50c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

RUBY KING RADISH

WE CLAIM THAT THIS IS THE
BEST EXTREMELY EARLY RED
FORCING RADISH IN THE
WORLD. :: :: :: ::

230. **Bolgiano's Extremely Early Ruby King Radish.**—KING OF ALL Extra Early Scarlet Radishes would be an appropriate name for this most excellent Radish. We claim without fear of challenge, Bolgiano's Extremely Early Ruby King Radish is (without a single exception) by far the MOST BEAUTIFUL, Extremely Early Scarlet button Radish that has ever been brought to any market. The color is a bright, glossy, shining scarlet and when the dust or soil is washed from it, it fairly glows in its brilliant color. No Radish on earth will mature as quickly as the Ruby King, and have such small foliage. It will stand forcing without becoming in the least pethy. The flesh is deliciously tender, juicy and mild. Equally good for open ground culture as for forcing. It is at its very best when permitted to grow quickly. We have offered this Money Making Radish for six years and each year our sales so marvelously increase we feel satisfied that the wide-awake Market Gardeners are leading the very earliest markets all over the country with Ruby King Radish. We again place Bolgiano's Extremely Early Ruby King Radish at the head of all Radishes.

30c. Lb. 50c.

BOLGIANO'S EXTREMELY EARLY RUBY KING RADISH.

Bolgiano's Extra Early Long White Pearl Forcing Radish.

249. In our trial grounds, this most attractive, appetizing, cool crisp Radish, matured in the remarkable short time of 13 days. In size and form it is a duplicate of our famous Glass Radish; but having a clear, pure white waxy appearance from top to bottom; is perfectly sound and will remain so longer than any other White Radish. The Early White Vienna, or Lady Finger Radish, does not compare with it. Any trucker once planting this Radish, will undoubtedly use it to the exclusion of all other early white varieties. Packet 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 25c. Lb. 40c.

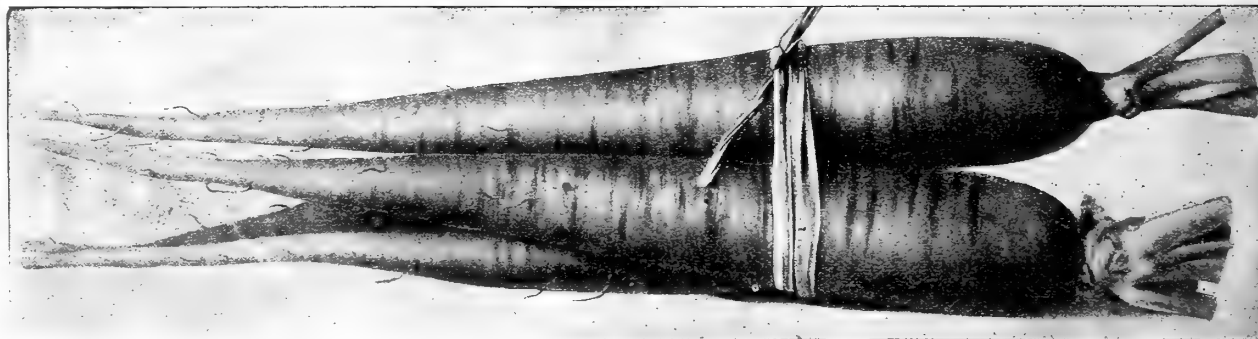

Bolgiano's New Long Red Glass Radish.

250. This is the best of all long Red Radishes. It requires deep, well-worked, loose ground, and will quickly grow to a beautiful, uniform, long, almost transparent, brilliant red Radish, with a pure white tip. It grows perfectly straight and smooth, with short tops. No home garden is complete without it, and those market gardeners who have deep ground will be able to grow the most salable Radishes they have seen with this Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

Bolgiano's New Short White Chinese Celestial Radish.

THE MOST POPULAR WINTER RADISH ON EARTH.

256. **New Short White Chinese Celestial Radish.**—In 1897 we placed this very attractive Winter Radish in the hands of our largest truckers, and since then we have never had seed enough to supply the demand. *Is as solid and juicy as an apple; pure white flesh and delicious flavor*—a very choice variety. We never sent out a Winter Radish that gained so much popularity in so short a time. Sown any time after July 1st to the middle of August, it will keep all Winter in prime condition; mild in flavor, brittle, never gets woody as do most Winter varieties. Market gardeners have found it to be a splendid seller and have always made money on it. Pkts. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

BOLGIANO'S NEW LONG RED GLASS RADISH.

Gentlemen.—I do not think that any Radish Seed surpasses your Ruby King. I have been truck growing for over 50 years, except during the war.

Sept. 29, 1906. H. R. SAMS, Beaufort, S. C.

I want to thank you for persuading me to grow Ruby King Radish. It has completely captured the entire market, I can't afford to grow any other early variety after this even if it does cost more.

Oct. 5, 1906. CHARLES LEISTNER, Lexington Market, Baltimore, Md.

Gentlemen.—I bought seed of you last year and you sent them to me labeled "Bolgiano's Extra Early Ruby King Radish." Be sure that you send me the same thing this year, for it sells like hot cakes. Yours truly, A. H. VANN, Ala.

I grew one of your Chinese Celestial Radishes three feet long and it weighed five pounds.

Nov. 6, 1906. JOS. SIPPEL, Fullerton, Md.

Bolgiano's Superior Stock of Scarlet Turnip White Tipped Radish.

239. **Scarlet Turnip White Tipped Radish.**—Nature almost exhausted herself in making this beautiful Radish to ornament the private table and embellish the market stall. It has been brought to our market in two weeks after planting, and always is a very early crop for frames and open ground culture. Some gardeners use it in 100-pound lots. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 30c. 5 Lbs. \$1.25.

Bolgiano's Mammoth Prizetaker Onion

Gentlemen:—The basket of Bolgiano's Mammoth Prizetaker Onions which I sent to you, is from the field which we grew from seed this season, it produced 800 bushels of these fine Onions to the acre. We planted them in rows 12 in. apart and the onions three in. from each other in the row; we worked it entirely by hand, using no horse cultivator during the season. We placed 40 loads of horse manure and one ton of fertilizer to the acre Bolgiano's Seeds certainly are the best seeds that can be secured by the most Critical Market Gardeners and Shippers.

Your appreciative customers,
Sept. 18, 1906. Hancock Bros., Solley, Anne Arundel Co., Md.

Its Mildness of Flavor and Tenderness are unequalled Even by the Bermuda Varieties. In Size it is Not Excelled by the Enormous Varieties From Spain.

205. Eight hundred to one thousand bushels to the acre, and a single specimen weighing as much as 6 lbs. 2 ozs., are some of the things this handsome Globe Onion will produce. It has a bright, clear, straw color, and grows a perfect globe shape. Is by far the handsomest, most productive, most profitable, and best of all Yellow Globe Onions. Large Onions can always be raised in a single season directly from seed. It has always brought much better prices than any other Onion; in market it never fails to attract attention on account of its beauty; on the city fruit stalls it has completely taken the place of the large Spanish Onions. The Prizetaker Onion is gifted with strong drought-resisting ability, and we consider this one of its great merits. People who wish to make money should plant the Prizetaker Onion; it is admitted by the most critical Onion growers to be the largest, finest flavored, and most superior Yellow Globe Onion under cultivation.

Packets 10c. Oz. 15c. 1/4 lb. 50c. 1/2 lb. 75c. Lb. \$1.50.

WHITE SILVER SKIN ONION.

There is a Very Short Crop of All Onions Both in Europe and America. Order Early.

214. This superior stock is almost exclusively used for growing sets, which is the strongest proof that it is the best from which to grow the large white Onions. Its delicate, mild flavor, its stately form and large handsome size, its pure white color, make it a most desirable variety for the table, the most profitable for market and shipping. Plants are of an extremely thin neck and type, and sure to ripen early. Bulbs are perfect in form and quite thick through. They are fine-grained, crisp and mild. Bulbs should be harvested as soon as ripened and dried in the shade to preserve their silvery white skin, the attractiveness of which makes them command the highest market prices, and removes the necessity for peeling them.

Pkt. 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 50c. 1/2 Lb. 75c. Lb. \$1.50.

—BOLGIANO'S FAMOUS— MAMMOTH KING LEEK

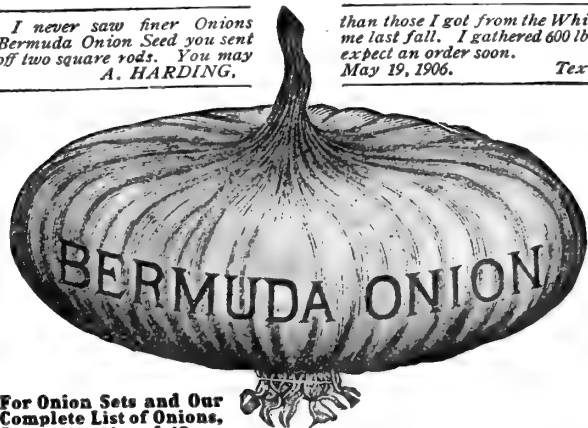

114. This stock we have by years of selection built up until it has become to those who have used it a pleasure to grow and a profit too. It has handsome form, is very mild, agreeable in flavor, grows to double the size of ordinary varieties, is pure white, has attractive dark-colored leaves, is stout in habit and hardy. The edible part is 8 to 10 inches long and 3 to 5 inches in diameter. It is without exception the largest and best Leek ever placed in the hands of the grower. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. 1/4 lb. 50c. Lb. \$1.50.

115. Winter Leek.—Long Mezieres.—Pkts. 5c @ 10c. Oz. 15c. 2 Ozs. 25c. 1/4 lb. 50c. Lb. \$1.40.

217. Tenerife White Bermuda Onion.—A selection of the old Red Bermuda, but possesses much finer qualities and is far more productive. It is of a mild and delicate flavor. It produces full-grown Onions from seed the same season. In the South, seed sown in the fall will produce fine large Onions for market in early Spring. Pkts. 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 75c. Lb. \$1.50.

MAMMOTH PRIZETAKER ONION.

We Can Prove

THAT OUR GENUINE TENERIFFE GROWN

BERMUDA ONION SEEDS

ARE BETTER than the Bermuda Onion Seeds that some dealers are blowing so much about and making the Onion Growers of Texas and Florida pay extortionate prices for. Read Mr. Otto Locke's letter, Business courtesy prevents us from publishing the name of the dealer referred to.

Messrs. J. Bolgiano & Son, Baltimore, Md.,
Dear Sirs:—

New Braunfels, Tex.
Apr. 29, 1906.

In reply to your valued favor of recent date, beg to say that the seed you sent us last fall was planted in October, all came up fine, and the Onions are the best we ever had from any seed, we are growing onions for 7 years, and received seed from different houses. We planted seed from the famous —'s White Bermuda Onions on same land we planted your seed side by side, received even cultivation and water, and I must say that the Onions your seeds matured 6 days earlier than —'s seed; the onions are more regular, large and ripened all at the same time, showing that the seed was pure and not mixed with any poor seed. I am glad to see Texas growers send their orders to you, as you certainly deserve it. You will receive many orders from here soon.

Yours truly,
OTTO LOCKE, Prop., Comal Springs Nursery.

148. Crystal Wax-Onion.—The newest and best Pure Crystal White Wax-Bermuda Onion that has ever been developed by expert Tenerife Onion Seed Growers. Pkts. 10c. Oz. 25c. 2 Ozs. 50c. 1/4 lb. 90c. 1/2 lb. \$1.75. Lb. \$3.50.

218. Tenerife Red Bermuda Onion.—Shape and size similar to white differing only in color; a most desirable sort. Pkts. 10c. Oz. 15c. 1/4 lb. 40c. 1/2 lb. 75c. Lb. \$1.50.

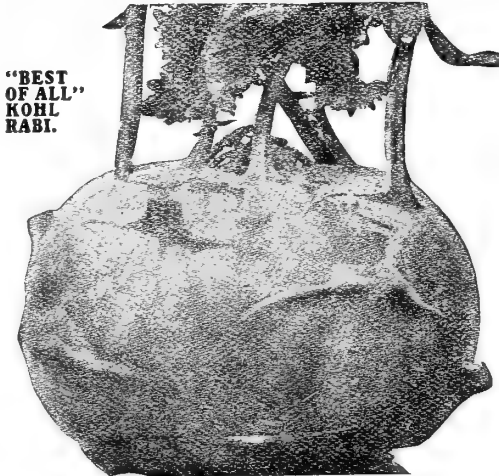

For Onion Sets and Our

Chinese Giant Pepper.

CHINESE GIANT PEPPER.

226. Double the size of Ruby King Pepper and equally as mild. By careful and numerous experiments we have found this enormous mild red Pepper to be a money maker of great value to the trucker. The monstrous fruits are of a thick, blocky form and of the most brilliant glossy scarlet. They grow four to five inches broad at the top, and about four to five inches in length and are divided into four or more large ridges and when ripe they are indented at the blossom end. It is early, productive, and quickly sells on account of its enormous size. The plants are vigorous, stocky, and grow about two feet in height. They are well branched and thickly set with the largest Peppers, frequently half a dozen fruits will touch each other as if in a single bunch; the strong growth of the plants and abundant foliage enable them to mature the large number of fruits almost as early as the Famous Ruby King. **Pkt. 10c. Oz. 25c. 1/4 Lb. \$1.00. Lb. \$3.50.**

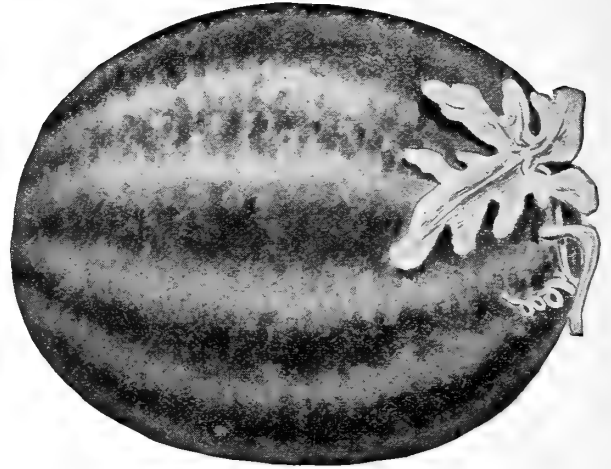

"BEST OF ALL" KOHL RABI.

BOLGIANO'S "BEST OF ALL" KOHL RABI.

152. This exceptionally valuable New Kohl Rabi will please every one who tries it. As a matter of fact it has already won many friends among those to whom we sent samples for trial last season. It combines the qualities of the finest varieties known. It is round like an apple with fine smooth skin. The leaves which are very few, stand erect enabling the grower to plant closer and helps him in bunching. The flesh is unsurpassed in tenderness, purity and delicious flavor. "Best of all" Kohl Rabi will not run to seed in frosty weather and remains unchanged in delicacy of flavor. It is equally valuable for forcing or for open ground culture. **Pkt. 10c. Oz. 25c. 2 Ozs. 40c. 1/4 Lb. 65c. 1/2 Lb. \$1.25. Lb. \$2.50.**

BOLGIANO'S BLACK STRIPED KOLB GEM WATERMELON. ANNE ARUNDEL COUNTY STOCK.

174. **Ten Points of Merit.**—1. A fine shipper. 2. Melons uniformly large. 3. Thick, oval form. 4. Color is a rich, dark green with fine stripes of lighter shade. 5. Much darker and richer in color than the Kolb's Gem. 6. Flesh rich, deep pink, crisp and melting. 7. Ripen to within 1/2 inch of the rind. 8. Rind is exceptionally strong, making it an excellent shipper. 9. Flavor remarkably sweet and sugary. 10. Our seed has been very carefully saved from the choicest melons. **Pkt. 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

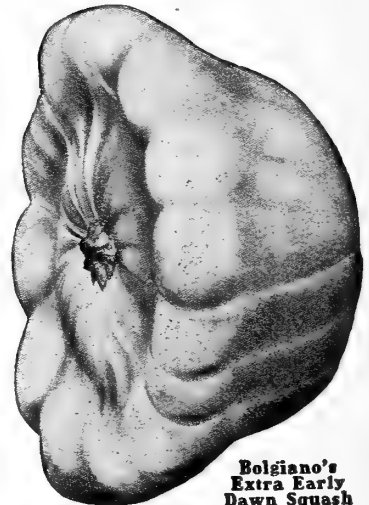

BOLGIANO'S 264 EXTRA EARLY DAWN SQUASH

1. TEN DAYS TO TWO WEEKS earlier than any other stock of White Bush Squash.
2. Always brings the first FANCY Prices of the earliest market.
3. Enormously Productive.
4. Beautiful white color, entirely free from any green cast.

5. Solid and heavy, with small seed cavity, making an excellent shipper.
6. Delicious flavor and an excellent cooker.
7. Growth is bushy, with absolutely no runners.
8. A great improvement over all other stocks.
Prices: **Pkt. 10c. Oz. 15c. 1/4 Lb. 25c. 1/2 Lb. 50c. Lb. \$1.00.**

DELICIOUS PUMPKIN PIE SQUASH

268. The name tells how good it is. This New Winter Squash is exceptionally fine. It is oval in form, thickest at the blossom end; skin dark grayish green, deepening to bronzy green when ripened. Large size, weighing from 5 to 10 pounds. In thickness of flesh it surpasses nearly every variety, the color of the flesh being a deep orange. For table use no Squash compares with it in its remarkable combination of fineness and compactness of grain, dryness, sweetness and exceeding richness of flavor. **Pkt. 10c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 40c. Lb. 75c.**

Boligiano's Extra Early Dawn Squash

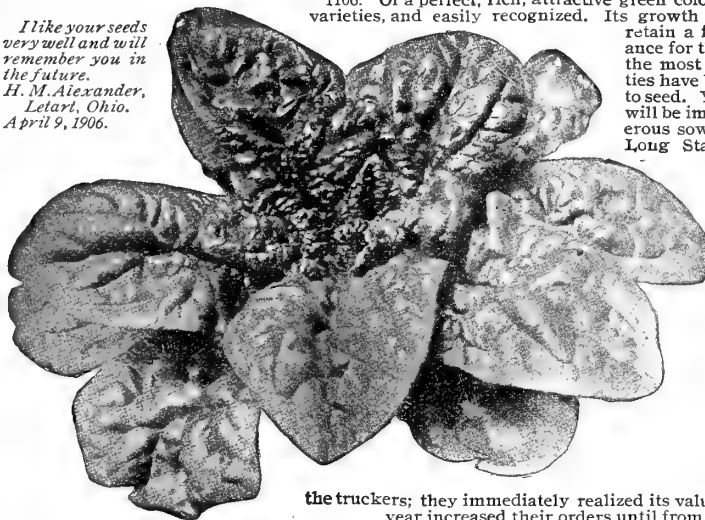

272. New Early Prolific Orange Marrow Squash.

A comparatively new Fall or Winter variety. It is shaped somewhat like Boston Marrow, but it is a decided improvement, being earlier and more productive, which commends this variety to market gardeners; its brilliant orange-red color and fine keeping and cooking qualities make it popular with the consumer; rind is hard but thin; flesh deep, fine-grained and of delicious quality. **Pkt. 10c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 50c.**

Gentlemen:—Your Chinese Giant Pepper Seed is the sure brick; beat good many other varieties planted here, they bear well, stand drought and wet better than any other variety planted here this season.
July 12, 1906. G. L. BECK, Rocky Point, Fla.

IMPROVED CURLED LONG-STANDING SPRING SPINACH.

I like your seeds very well and will remember you in the future.
H. M. Alexander,
Letart, Ohio.
April 9, 1906.

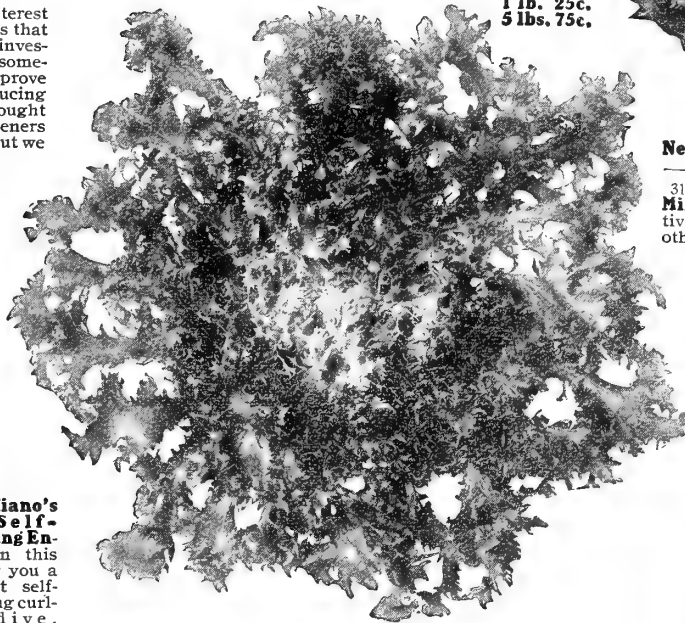

1106. Of a perfect, rich, attractive green color, distinct from all other varieties, and easily recognized. Its growth is abundant, and it will retain a fresh, luxuriant appearance for three or four weeks after the most stubborn seeding varieties have become yellow and gone to seed. Your early Spring garden will be incomplete without a generous sowing of Improved Curled Long Standing Spinach. This

Spinach combines the extremely curled leaf of our Bloomsdale Curled Savoy Spinach and its own unequalled long-standing qualities, with a beautiful green which will invariably draw customers your way and bring you the top prices. Our oldest and most experienced customers pronounce this Spinach the best they have ever grown for Spring, Summer, Fall, or the coldest Winter. From our careful tests we learned its merits, before we put it in the hands of

the truckers; they immediately realized its value and have from year to year increased their orders until from 100 pounds five years ago our annual sales now amount to tons, **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. 1 Lb. 25c. 5 Lbs. 75c.**

Giant French Celeriac

139. There is not a single item of interest in the growing and developing of seeds that we pass by, without most thoroughly investigating and testing to see if there is something of value to our customers. To prove our watchfulness, we are here introducing the Giant French Celeriac. Many thought the Celeriac which the Market Gardeners have had for years was good enough, but we are always on the alert for something better and are rewarded for our pains by being able to offer this splendid Celeriac. **Pkts. 10c. Oz. 25c. 2 Ozs. 40c. 1/4 Lb. 75c. 1/2 Lb. \$1.25. Lb. \$2.50.**

106. **Bolignano's New Self-Blanching Endive.**—In this we offer you a perfect self-blanching curled Endive, beautiful and

graceful in shape, most attractive, perfect in color, shading from a large, rich golden heart to the outer leaf of emerald green. In flavor, it is mild, nutty and sweet. A market stall without this most beautiful of vegetables can never expect to merit those customers who strive to make their home table most attractive and complete.

Price: Pkts. 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 75c. Lb. \$1.50.

BOLGIANO'S "GREAT GIANT" SALSIFY.

275. By far the largest, smoothest, most tender Salsify ever sold to the trucker. Its delicious flavor and attractive appearance brings the buyers and holds their trade. It easily outsells every other Salsify, for "It is the Best." It outyields all other varieties. Truckers who have tried the "Great Giant" say it is ideal, it is the Salsify they will always grow in preference to all others, for they readily sell all they bring to market at better prices and much quicker than their neighbors. Grow the best. It pays.

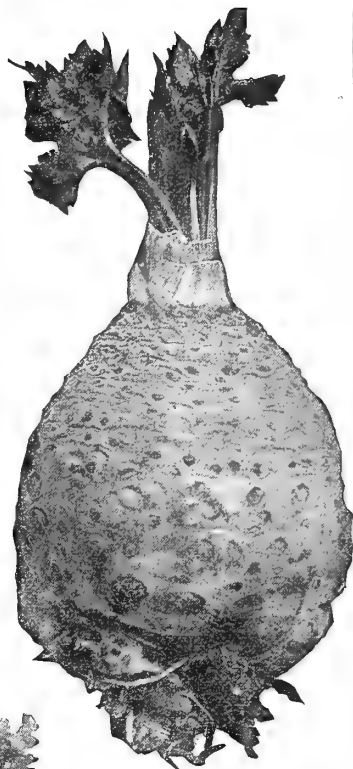

Price: Pkt. 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 75c. Lb. \$1.50.

BOLGIANO'S HOLLOW HUB PARSNIP.

219. As we predicted several years ago, when we first introduced the Hollow Hub Parsnip it has taken the leading place among Parsnips. Its merits alone have brought it so prominently to the front. No Parsnip seed ever offered is grown as carefully as Hollow Hub. Each individual root is carefully selected by hand and critically examined, if it does not come up to the highest standard it is discarded. "Hollow Hub" Parsnip is hollow crowned to a remarkable degree, it has firm, tender flesh, a delicious delicate flavor, almost entirely without core. In growth it is small and uniform. In fact Hollow Hub Parsnip is as perfect as it is possible to produce by the most careful selection and breeding. Grow the best, it costs but little more, and it pays so much better.

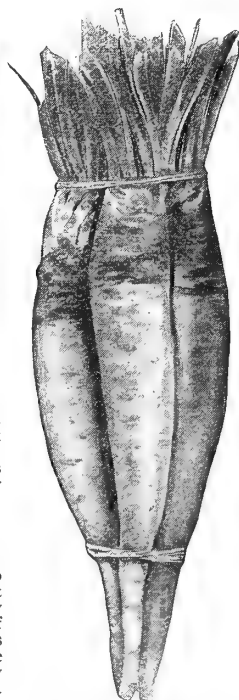

Price: Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 40c. Lb. 75c.

BOLGIANO'S HOLLOW HUB PARSNIP

New Giant French Celeriac.

315. **Extra Early Purple Top Milan.**—Earliest Turnip in cultivation; a week sooner than any other. Flat, smooth, of medium size, with bright purple top and few leaves. Flesh white and choice. Adapted to Spring or Fall. A good keeper. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 35c.**

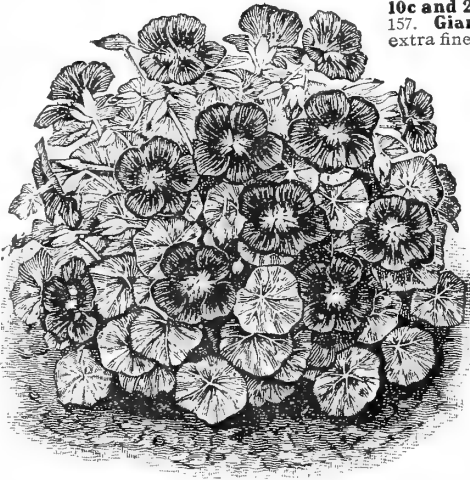

Bolignano's Great Giant Salsify.

COUNTLESS SPENCER SWEET PEA.

Our Lawn Grass Seed Is Better Than Any Other Lawn Grass Seed In The World

IT IS A FACT—WHY SHOULD WE HESITATE TO TELL ABOUT IT.

CAUTION.—Don't Buy Any Lawn Grass Seed by the Quart Because Chaffy Seed Measures Best. But When You Buy 1 Lb. (16 Ozs.) of Our Solid Seed You Know For What You Are Paying.

Old Orchard, Me.
Oct. 22, 1906.
Bolgiano & Son,
Baltimore, Md.
Gentlemen:—

There is no Lawn Grass like Bolgiano's Druid Hill Park Velvet Green Lawn Grass, and my neighbors' round about here agree with me. I ran short of lawn seed last year, and sent to Boston for some, but it was nothing like as fine as Bolgiano's; in fact, I am going to sow some of yours in place of that next Spring. Yours very respectfully,
Mrs. C. Green.

It is used exclusively by the Principal Clubs, Private Estates and Cemeteries in and around Baltimore.

Bolgiano & Son,
Baltimore, Md.
The Druid Hill Park Velvet Green Lawn Grass Seed which I got of you last Spring did splendid. Yours

very truly,
H. W. Bell,
Harrisburg, Va.

I have found your Lawn Grass Seed to be the purest, cleanest and best in the market. It withstands severe droughts and retains its verdure throughout the entire season. I have used it for thirty-five years, and our large and beautiful lawns here at "Ingle side" have always been greatly admired.

Henry Fauth,
Catonsville, Md.

Sown in the Spring it will quickly make a Beautiful Velvet Green Lawn.

DRUID HILL PARK VELVET GREEN

Lawn Grass Seed

IS THE STANDARD FOR PURITY.

THERE IS NO LAWN GRASS SEED EQUAL TO IT

Celebrated from Florida to Maine for its Quick Growth, Deep Velvet Green Color and Wonderful Endurance through hot dry spells. Having made the selection of Fine Lawn Grasses our pride for many years, we are able to offer Lawn Seed

Superior in every respect, and acknowledged by all who have used it to be the best.

This choice mixture is the best for making beautiful and permanent lawns. It is composed of grasses which are especially adapted for the purpose of producing lawns which retain their rich color and soft, velvet green appearance throughout the entire Spring, Summer and Fall. It is valuable for the formation of lawns in places exposed to the Sun, also to partially shaded places where it is difficult to produce good sod. See that shaded places and bare spots are thoroughly worked and enriched before sowing seed. In making up this mixture we are extremely careful to use only the very best quality seed, which has been re-cleaned, the light seed and chaff having been blown out, thus securing the highest grade mixture it is possible to obtain, and seed that will quickly grow. Price: 1/4 Lb. 5c. 1/2 Lb. 10c. 1 Lb (16 ozs.) 20c. 5 Lbs. 90c. 25 Lbs. and over at 18c per Lb. It requires 2 Lbs. to sow 800 square feet. 50 to 60 Lbs. to the acre. **UNIVERSAL COUPON IN EVERY PACKAGE.**

SHADY NOOK LONG GRASS MIXTURE.

A popular mixture of grasses best adapted for sowing in shady places where ordinary grasses will not thrive. In nearly all lawns where there are trees there will be found bare spots, which can be made green and bright by using this mixture, if the shaded places and bare spots are thoroughly worked and enriched before sowing seed. Price: 25c per grass. Lb. 5 Lbs. \$1.00. Add 8c per Lb. if to go by mail.

WHITE DUTCH CLOVER.

This is the best clover for lawns, as it furnishes a close herbage and remains green throughout the season. It is also a valuable mixture with grass seed for pasture. Sown in the Spring at the rate of six pounds per acre when sown alone; one-half the quantity when sown with other Lb. 25c. 5 Lbs. for \$1.00. Add 8c per Lb. if to go by mail.

BOLGIANO'S LAWN FERTILIZER.

Stable manure should never be used as the top dressing on lawn, for it always contains large quantities of weeds. We have therefore had prepared for us a special lawn fertilizer which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass, and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet, 50 to 1500 pounds per acre. Pkgs. 10c; by mail 20c. 5 Lbs. 25c. 10 Lbs. 45c. 25 Lbs. \$1.00. 100 Lbs. \$2.50. 500 Lbs. \$11.00. Sweet Vernal Grass, 50c Lb.

PULVERIZED SHEEP MANURE.

This is purely a natural and most nutritious plant food, clean to handle, and its effect is immediate and lasting. There is nothing better to mix with soil for potting plants. Florists who use it extensively advise mixing about one-seventh manure and six-sevenths soil. As a top dressing for lawns it is unequalled. Pkt. 15c. 5 Lbs. 25c. 10 Lbs. 40c. 30 Lbs. \$1. 50 Lbs. \$1.25. 100 Lbs. \$2.00. Per ton \$30.00.

CUBAN-PLANT-FOOD.

UNIVERSAL COUPON IN EACH PACKAGE.

Wonderful New Discovery. It Fills A Long Felt Want. 15c A BOX. IF TO GO BY MAIL ADD 10c FOR POSTAGE.

Will make your choice plants and vegetables come up quicker, grow stronger and make new life, have many and more brilliant flowers. No aid so good offered anywhere else. No bother to use but insures Strong, Vigorous Plants, Rich, Abundant Foliage, Extra Choice, Rich Flavored Fruit and Vegetables at practically no extra cost. For lawns there is nothing to equal it; makes the grass grow far better than manure, phosphate or any other ingredients. It is good for all green plants that grow; improvement on first application; will not injure the most delicate plant. **MONEY REFUNDED IF NOT SATISFACTORY. WITHERED, DROOPING PLANTS AND GRASS QUICKLY MADE STURDY.**

15c A BOX.

Special Garden Packages of Nitro Culture.

THE VEST POCKET FERTILIZER.

When ordering state what particular crop you desire to inoculate.

PERMANENT PASTURE MIXTURES FOR EVERY VARIETY OF SOILS—SEE PAGE 50.

1818 BOLGIANO'S COMPLETE LIST OF 1907 Standard Vegetable Seeds.

FOR EIGHTY-NINE YEARS WE HAVE WON CONFIDENCE—Not by chance, not by luck, but by honest, untiring efforts. Our undivided time and attention is given to growing the choicest and most reliable Seeds. We carefully select all the highest grade stocks, and eliminate those which our test gardens prove would be unprofitable for the trucker or gardener to grow. We never recommend any article unless we are certain, by actual test, it possesses merits superior to anything the trucker already has. We watch for improvement in character, shape, form, color, attractiveness and best selling qualities. These improvements we quickly note and encourage. Remember as you read through this catalogue what we say about each article has been gathered from our actual experience together with the experience of the most up-to-date and successful practical market gardeners and truckers in every part of the world.

ARTICHOKE. ARTICHAUT *Alcachofa* Artichoke

Jerusalem.—The tubers roasted, or boiled, served with butter, salt and pepper, makes a dish some think superior to Potatoes. They are most excellent feed for cows and will cause an increase in quantity and quality of milk. **Peck 75c. Bushel \$2.00.**

ASPARAGUS. ASPERGE *Esparrago* Spargel

1. **New Palmetto.**—Is very early, large yielder, and very regular and even in growth. Average bunches contain 15 shoots, measuring $13\frac{1}{2}$ inches in circumference; weighs 2 pounds. It is equally well adapted for all sections. Its quality is unequalled. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

2. **Conover's Colossal.**—A well-known standard variety. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

ASPARAGUS ROOTS.

No effort put forth in the garden will bring more pleasure and satisfaction than an established Asparagus bed, if this is thoroughly prepared according to the following directions. A bed 20 by 50 feet, set with 1000 two-year old roots, will last for years and furnish an abundance.

DIRECTIONS.—Select a good sandy loam, plow the ground as deep as possible, dig out 12 inches deep, put in a layer of 4 inches of good, strong stable manure, and press down; then fill in with good, rich, black loam to the top of the bed. Sow on top of bed 100 pounds kainit to 1000 square feet of bed; incorporate this thoroughly to depth of 3 inches. After leveling bed off even, stretch a line the length of bed 9 inches from the edge, and with a spade cut a furrow 8 inches deep, set a row of plants along the trench 9 inches apart, with the crowns of the roots 2 inches below the surface; then cover up, make even and plant other rows 9 inches apart.

Palmetto 2-Year Old Roots.—100 60c. 1000, \$5.00. By mail 100, 85c.

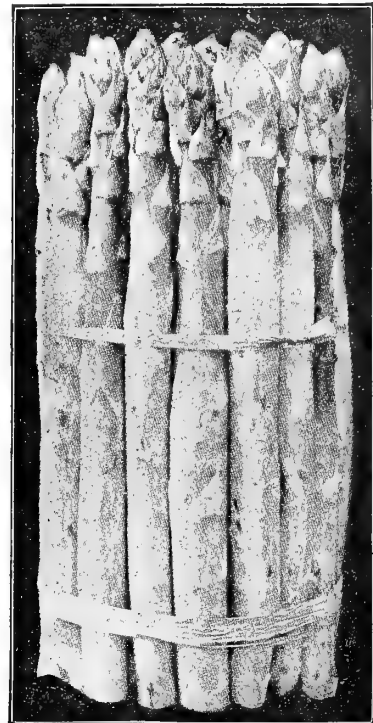

Conover's Colossal 2-Year old Roots.—100, 45c. 1000, \$4.00. By mail 100, 75c.

BEANS.

To afford a regular succession of crops, plant every two weeks, from the middle of Spring to the end of Summer, but not until the soil becomes warm, as they are very sensitive to both heat and cold. Plant in rows 18 inches apart, 2 inches deep; cultivate frequently, but only when dry, as the scattering of earth on the foliage or pods when moist, will cause them to become damaged with rust. This crop will flourish between the ridges of celery, rows of corn or cabbage, when they are first planted, as the Beans would be ready for the table before the other crops attain any size.

HOPKINS' EARLIEST RED ROUND GREEN POD VALENTINE BEANS.

Green-Podded Dwarf or Bush Snap Beans.

1033. **Bolgio's New 1907 Early Green Pod Bean No. 18.**—A very important introduction, (Specialty, see page 10.) **Pt. 20c. Qt. 35c. Gal. \$1.25. Peck \$2.25. Bushel \$8.00.**

1001. **Bolgio's New Early May Queen Beans.**—(Specialty, see page 10.) Exceptionally profitable. **Pt. 15c. Qt. 25c. Gal. 75c. Pk. \$1.25. Bus. \$5.**

1002. **New Emerald Beauty Bean.**—(Specialty, see page 10.) **IT IS EARLY. A PRODIGIOUS CROP GROWER, ABSOLUTEY STRINGLESS, uniform in shape, deliciously tender, and remains so for a long period. It is also hardy, resisting frosts to a remarkable degree. Pint 15c. Quart 25c. Gallon 75c. Peck \$1.35. Bushel \$5.00.**

1008. **New Giant Stringless Valentine.**—(Specialty, see page 10.) One of the earliest round podded green Bean in cultivation. Pods are very large, meaty, tender. Absolutely stringless, unusually crisp, round, full and fleshy. **Pt. 15c. Qt. 20c. Gal. 60c. Pk. \$1.10. Bushel \$4.00.**

1003. **Extra Early Refugee Round Green Pod.**—Has pods of a beautiful, attractive light green color, round, tender and of a luscious flavor. **Pint 10c. Qt. 20c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

1004. **Late Refugee, of 1000 to 1.**—Exceedingly productive; for medium and late use. The young pods are tender and of fine flavor; the color is a silver green. Pods are round and slim. **Pt. 15c. Qt. 20c. Gal. 45c. Pk. 85c. Bus. \$3.**

1005. **Best of All Early Market.**—A very delicious and profitable Bean to grow. **Pt. 15c. Qt. 20c. Gal. 60c. Pk. \$1.10. Bus. \$3.50.**

1006. **Hopkins' Earliest Red Valentine Bean.**—Are one of the earliest and most prolific round green podded Beans. Comes into bearing earlier than the old stock of Valentines, is a wonderful producer and a perfect shipper. It will remain in a perfect condition for nearly two weeks after picking. **Pint 15c. Qt. 20c. Gal. 55c. Pk. \$1.00. Bus. \$3.50.**

1007. **Bolgio's Earliest Red Valentine Bean.**—This superior Bean has been carefully built up to satisfy a most critical market gardener's trade. Under favorable conditions it is ready for picking in 35 days from planting. Cannors use them because they are always tender and have beautiful round green pods. **Pt. 15c. Qt. 20c. Gal. 45c. Pk. 85c. Bus. \$3.00.**

1009. **Burpee's New Stringless Green Pod Beans.**—Crisp, tender, luscious flavor. Handsome light green pods, are ready to market TWO WEEKS EARLIER than the Red Valentine. Pods are full, fleshy and produced in great abundance, remaining long in an edible condition. **Pt. 10c. Qt. 20. Gallon 55c. Peck \$1.00. Bushel \$3.50.**

1014. **Black Valentine, Henderson's, or King of the Earlies.**—Early, extra large, round, straight pods; tender and an enormous yielder and also suitable for late planting. **Pt. 15c. Qt. 20c. Gal. 55c. Pk. \$1.00. Bus. \$3.50.**

1010. **Dwarf Horticultural or Cherry Bean.**—A crop of these Beans has never failed to pay.—This is a broad, long, flat, meaty Bean, very productive, delicious flavor. It also makes a good dried Bean for Winter. **Pt. 15c. Qt. 20c. Gal. 60c. Pk. \$1.10. Bus. \$4.00.**

1011. **Henderson's Bountiful Beans.**—A prolific and continuous bearer. The first in Spring the last in Fall. Absolutely stringless—very tender and of delicious flavor. **Pt. 15c. Qt. 20c. Gal. 55c. Peck \$1.00. Bushel \$3.50.**

Gentlemen:—I set with "Greater Baltimore" Tomato about 8½ acres, and shipped on contract to Numson & Sons, 72 tons. The "Greater Baltimore" is a vigorous grower and prolific bearer, and I find it a little earlier than the Queen or the "B. B."

W. C. WILLIS, Md.

Nov. 11, 1906.

BUSH LIMA BEANS

We Supply Packets of Lima Beans at 5c and 10c Each, Postpaid.

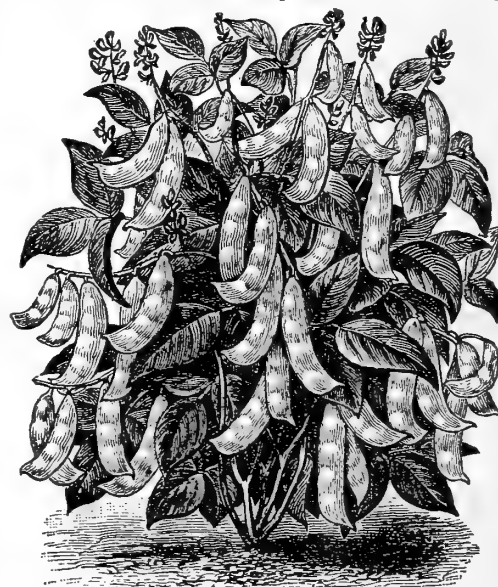

Add 8c per Pt. and 15c per Qt. on Lima Beans, if to go by mail. One Qt. to 150 Hills, 10 to 12 Qts. to the Acre.

1034. **WOOD'S PROLIFIC BUSH LIMA.**—An "Improved Henderson Bush Lima."—Earlier than the Burpee's Bush Lima, but somewhat smaller in size of bean. Making a larger growth than others; stems are loaded down with beans in great clusters. Pt. 15c. Qt. 25c. Gal. 75c. Pk. \$1.50. Bus. \$6.00.

1035. **NEW "WILLOW LEAF" BUSH LIMA.**—The plants are true bush type.

uniform in growth, distinct and ornamental foliage. The pods, closely resembling those of the Wood's Bush Lima, are well-filled with tender beans, which mature ten days or two weeks in advance of the large Burpee's Bush Lima. Pt. 20c. Qt. 30c. Gal. \$1.10. Pk. \$2.00. Bus. \$8.00.

1036. **DREER'S NEW WONDER BUSH LIMA.**—Is a fine strain of neat dwarf growth, producing pods a week earlier than the regular stock of Burpee's Bush Lima. The plants

BURPEE'S BUSH LIMA BEANS.

NEW DAVIS WAX BEAN, Exact Natural Size.

are very productive and both the pods and beans are large. Pt. 15c. Qt. 25c. Gal. 80c. Pk. \$1.50. Bus. \$6.00.

1039. **BURPEE'S LARGE BUSH LIMA BEANS.**—Is an immense yielder, each bush bearing from 50 to 200 of the handsome large pods, well filled with very large beans, which are identical in size and luscious flavor to the well known large Pole Limas, the largest and best Lima Beans can now be raised in quality at small cost without the expense and labor attached to the use of poles. Pt. 15c. Qt. 25c. Gal. 75c. Pk. \$1.35. Bus. \$5.00.

1037. **DREER'S BUSH LIMA BEAN.**—This Bush Bean produces pods in great abundance, 185 having been counted on a single plant. It requires no poles or stakes. The beans grow close together, 3, 4, and sometimes 5 in a pod, and very thick, sweet and succulent. Pt. 15c. Qt. 25c. Gal. 80c. Pk. \$1.50. Bus. \$6.00.

1038. **HENDERSON'S DWARF BUSH LIMA BEAN.**—Produces Beans of smaller size, is very productive and decidedly delicious. Pt. 15c. Qt. 25c. Gal. 80c. Pk. \$1.50. Bus. \$6.00.

I have grown your "Greater Baltimore" three successive years in the past. I also recommended them to several of my neighbors, and they were pleased with them. I think I can say that they grew me 2 tons more to the acre than any other Tomato I ever grew. Yours respectfully,
Nov. 15th, 1906. WM. J. GEAVERTON, R. R. No. 1, Md.

Garden
Lima
Beans.

Pole Lima Beans.

CULTURE of Pole Beans and Pole Lima Beans.—These are usually planted in hills and trained to poles, which should be 8 to 10 feet long, and firmly set in the ground from 3½ to 4 feet apart each way. Draw around them a hill of earth and plant 4 to 5 Beans to each hill, 1 inch deep, always observing to plant the eye of the Bean down. The Lima Bean is very delicate, and often fails to sprout from slight causes; they should not be planted until the ground is warm. Do not allow more than three to climb a pole, but remove extra plants to hills where less than three have sprouted.

	Pt.	Qt.	4 Qts.	Pk.	Bus.
1040. Early Leviathan Pole Lima Bean. —Every grower, either private or for market should try this wonderfully early and enormously productive large Lima Bean. (Specialty, see page 10.)	20c	35c	\$1.00	\$2.00	\$7.00
1183. New Willow Leaf. —Both pods and Beans of the same size as the Carolina and of equally as fine quality. The leaves, however, are slender and deeply cut, closely resembling those of the Weeping Willow.	15c	25c	85c	1.60	6.00
1041. Dreer's Improved Pole Lima. —Outyield any Lima Bean ever offered. Each pod contains from 2 to 6 delicious Beans, so compactly placed that they make indentations in each other. Pods are produced on the vines in great clusters. The yield is continuous and abundant.	15c	25c	85c	1.60	6.00
1042. Siebert's Early Lima. —Pods long, thin, and easily opened. The green Beans are very large, handsome and most delicious quality.	15c	25c	85c	1.60	5.50
1043. Jersey Extra Early Lima. —Is 10 days to 2 weeks earlier than any other Pole Lima. The beans are exceptionally tender and delicious.	15c	20c	80c	1.50	5.50
1044. Carolina or Sieva Beans. —Very early and productive.	15c	25c	80c	1.50	5.50
1045. Large Lima. —Large white Bean; very tender; equally good in Winter if soaked 10 hours before cooking.	15c	20c	75c	1.35	5.00
1046. Fords Mammoth Extra Large Lima Bean. —Its pods are large in size, containing from 3 to 8 Beans. They are unsurpassed in quality and productiveness.	15c	25c	85c	1.60	6.00
1047. King of Garden Lima Beans. —Outyields all other Pole Limas. Its vine has a luxurious growth, which abounds with enormous pods, often from 5 to 8 inches long, and filled frequently with 5 or 6 perfect Beans to a pod. These Beans in their green state are large and luscious, but when dry shrink to the ordinary size. It is large, early and prolific and unequalled in quality. Pt. 15c. Qt. 25c. Gal. 80c. Pk. \$1.50. Bus. \$5.50.					

Climbing or Pole Beans.

- 1 Quart to 150 Hills. 10 to 12 Quarts to the Acre. We Supply Packets of Beans at 5c and 10c each postpaid; Add 15c per Quart if to go by Mail.**
1025. **Point Market Prolific Pole Beans.**—Pkt. 10c. Pt. 15c. Qt. 20c. Gal. 75c. Pk. \$1.35. Bus. \$5.00.
1027. **Lazy Wife Pole, or White Cherry Bean.**—The pods, of medium dark green color, are produced in great abundance and measure from 4½ to 6 inches in length; are broad, thick, very fleshy and entirely stringless. They retain their rich, tender and stringless qualities until nearly ripe. Each pod contains 6 to 8 round, white Beans which make excellent Winter shell Beans. Pt. 15c. Qt. 20c. Gal. 75c. Pk. \$1.35. Bus. \$5.00.
1028. **White Creaseback, or Best of All.**—The Best Early Green-Podded Pole Bean.—It is exceedingly productive. The handsome green pods grow from 5 to 6 inches long, in clusters from 4 to 12, are entirely stringless, and of superb quality. It matures extremely early. Pt. 15c. Qt. 20c. Gal. 75c. Pk. \$1.35. Bus. \$5.00.
1029. **Red Speckled Cut Short or Cornhill.**—Popular for planting among corn; pod short, cylindrical and tender; Beans nearly oblong. Pt. 15c. Qt. 25c. Gal. 75c. Pkt. \$1.25. Bus. \$4.50.
1030. **Old Homestead (Improved Kentucky Wonder.)**—It is enormously productive, the pods hanging in great clusters from top to bottom of pole; are of silvery green color and entirely stringless; they cook deliciously, tender and melting. Pt. 15c. Qt. 25c. Gal. 75c. Pk. \$1.35. Bus. \$5.00.
1184. **Southern Prolific.**—Produces in clusters, excellent snap-short Beans in 80 days. Pt. 15c. Qt. 25c. Gal. 75c. Pk. \$1.25. Bus. \$4.50.
1032. **Pole Cherry, London Horticultural or Wren's Egg.**—Is a very hardy and productive variety, and popular in sections of the country where the Lima cannot be cultivated. It grows from 6 to 8 feet high, producing purple blossoms, and pods about 6 inches in length; can be used either for snapping or shelling; it is also an excellent winter variety; as a baking Bean has no equal. Pt. 15c. Qt. 25c. Gal. 75c. Pk. \$1.25. Bus. \$5.00.
1182. **Scarlet Runner Pole Bean.**—Pt. 15c. Qt. 25c. Gal. 85c. Pk. \$1.60. Bus. \$6.00.

TABLE BEETS.

BETTERAVE. *Remolacha.* Galatroube.
1 Ounce to 50 Feet Drill.
5 to 6 Lbs. to Acre.
Pkts., Ozs. and 1/4 Lbs. Delivered
Free, but Add 8c to Lbs.

- Culture.**—Sow as early in the Spring as the ground can be worked (5 to 6 lbs. to the acre), and every two weeks after for a succession, up to the first week of July. For general crop, sow about the middle of May. Soil should be light, sandy loam, well enriched with stable manure and plowed and harrowed until very fine. Sow in drills 1 foot to 15 inches apart, and when well up thin from 4 to 6 inches. The young Beets, with their tops, pulled out of the row, are excellent used as Spinach.
12. **American Beauty Beet.**—We recommend this Beet to every one of our friends as we have given it a thorough and careful trial for the last three years. (Specialty, see page 16.) Pkt. 10. Oz. 15. 1/4 Lb. 40c. Lb. 1.25.
18. **Deep Blood Beauty.** (Specialty, see page 20.) Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.
19. **New Royal Red.** (Specialty, see page 20.) Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.
3. **Early Dark Ox-Blood.** (Specialty, see page 20.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
4. **Extra Early Eclipse.**—It is remarkable for its very rapid growth, the perfection of its form—which is globular—of its beautiful crimson flesh, and for its dwarf foliage. The roots are of a bright glossy red, very fine grain. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.
5. **Crosby's Improved Extra Early Egyptian Beet.**—Almost globular in shape, perfectly smooth with a single tap root and but a few short tops. In color, stock is uniformly dark. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.
6. **New "Crimson Globe" Beet.** This is one of the best Bunching Beets yet introduced.—The root is of medium size, of very handsome globe shape, and has a remarkably smooth surface. Both the skin and flesh are deep rich red, fine grained, sweet and tender in all stages of growth. There is a very small tap root. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 45c.
7. **Detroit Dark Red Beet.**—A very superior early Blood Turnip Beet of uniform type, deep color, medium size, fine grained and formed. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

8. **Early Market Beet.**—It is very shapely in form, good size for market purposes, and retains all its tenderness. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

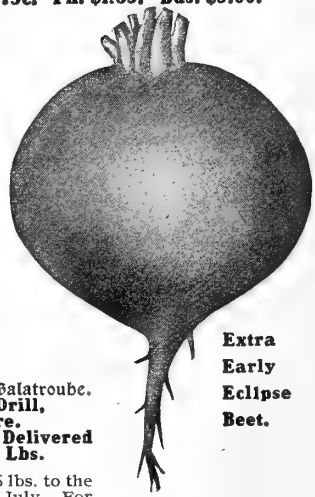

9. **Dirigo Beet.**—An excellent variety. A few days later than Eclipse, but more tender and has a smaller top. Particularly recommended for frame growing. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

10. **Early Large Egyptian.**—Handsome shape, does not crack open. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

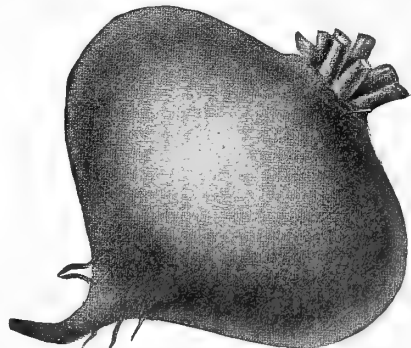

11. **Extra Early Flat Egyptian Beet.**—(Improved.)—Does not crack open at the tops, is a deep blood red; uniform in type, has few tap roots and presents a handsome appearance when presented for sale. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

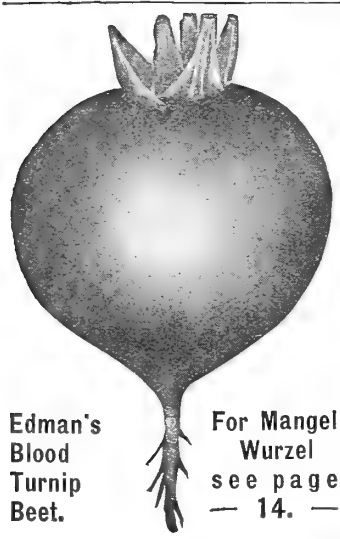

341. **Swiss Chard or Silver Beet.**—Used for greens only. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

Brussels Sprouts.

CHOU DE BRUXELLES
Berza de Brussels
Kofentobl

Culture.—Sow in May, in the same manner as Cauliflower, and transplant in July, 1 foot apart in rows 1½ feet apart. In gardens, large and small. Brussel Sprout is the very best winter vegetable that can be grown. It is as hardy as the common Curled Greens. The real Sprout is not much larger than a marble, and almost as firm and hard as the stalk itself. These, cooks prefer. They strip off the outer covering, cook them whole, and serve them up artistically. When cooked through and no more, such Sprouts melt in the mouth, like the tenderest Cauliflower, and are equally as good. If more widely known, Brussels Sprouts would be as popular as it is valuable.

Early Jersey Wakefield Cabbage

Cabbage

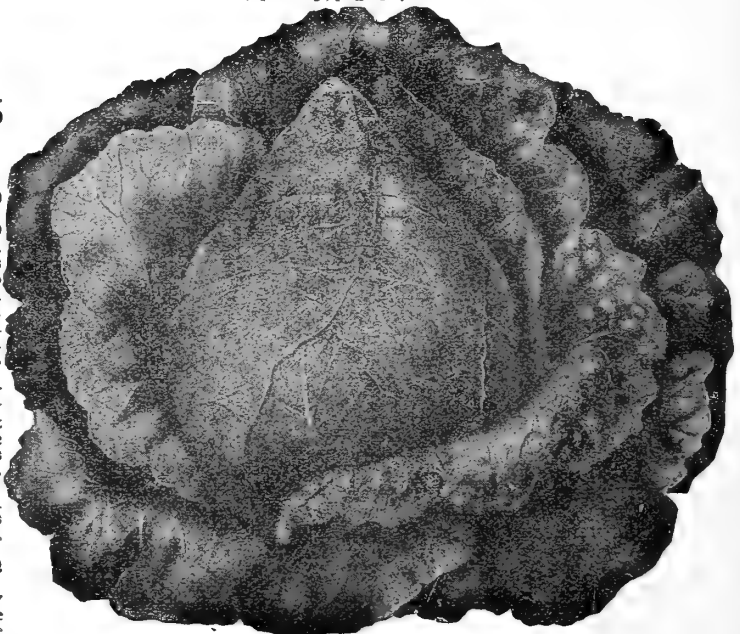

Choicest American Grown,

Pkts., Ozs., 1/4 Lbs. Delivered Free, but Add 8c to Lbs.
Culture.—One Ounce will produce about 2500 Plants: 1/4 pound to transplant for one acre. For very early use sow in January or February in hot-beds; put out when plants are strong enough to other hot-beds; or sow in cold frames in March; transplant when danger from killing frosts is past to the open ground, in rows 2 feet apart and 18 inches in the row. For a succession, sow in the open ground the last of March or early in April. Autumn or Winter varieties sow in April or early in May, in shallow drills, 3 or 4 inches apart; transplant early in July, in rows 2½ feet apart and 2 feet in the row.

EXTRA EARLY VARIETIES.

25. Big Winner Wakefield. (Specialty, page 14.).....	Pkt. 10c	Oz. 35c	1/4 Lb. \$1.00	Lb. \$3.50
27. Extra Early Express. (Specialty, page 14.).....	Pkt. 10c	Oz. 20c	1/4 Lb. 50c	Lb. 1.50

- 26. **New Leader.** (Specialty, page 14.)..... Pkt. 10c Oz. 25c 1/4 Lb. \$1.00 Lb. \$3.50
- 28. **Extra Early Jersey Wakefield.**—An excellently early sort. Heads form like a Wakefield, but ten days earlier; habit vigorous, short stem, and most profitable to grow..... 5c @ 10c 15c 40c 1.50
- 29. **Extra Early Pilot Cabbage.**—3 weeks earlier than Jersey Wakefield 5c @ 10c 15c 40c 1.50
- 30. **Early Jersey Wakefield Cabbage.**—Bolgiano's Selected Stock. While this sort is not so early as Bolgiano's Extra Early Express Cabbage, it will be found to be the very best conical headed sort to come in immediately after it. It heads up remarkably hard and solid, with but few outside leaves, which are unusually thick and heavy enabling it to stand cold weather without injury when carried through the winter, either in the open ground in the South or in cold frames in the North. Pkts. 5c @ 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.
- 32. **The Charleston, or Large Wakefield.**—The Best Large Early Cabbage.—This is the largest Early Cabbage, bred from the Early "Jersey" Wakefield, to meet a demand for a larger heading sort. It possesses all of the valuable characteristics of the parent, with the advantage of the heads being 50 per cent. larger, though a few days later. Our strain of the seed is very superior. Pkts. 5c @ 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.
- 33. **Bolgiano's Early Large York.**—Follows Jersey Wakefield in heading. The heads are round, heart-shaped and very firm. Its dwarf growth will permit them being planted closely together. Pkts. 5c @ 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.
- 34. **Early Winnigstadt.**—The Prussian Prize Stock. Pkts. 5c @ 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.
- 31. **New Queen Victoria Cabbage.**—A splendid type of the very large Early Cabbage. Owing to its large frame it is often cut before maturity and outsells the smaller sorts, and is marketed at the same time. If left to fully mature, its heads become perfectly solid. Pkts. 5c @ 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.

THE CHARLESTON, OR LARGE WAKEFIELD CABBAGE.

Choicest Cabbage American Grown

Pkts., Ozs. and 1/4 Lbs. delivered free But add 8c to Lbs.

SECOND EARLY OR SUMMER VARIETIES

154. **Square-Deal.**—(Specialty, see page 14.) Pkt. 10c. Oz. 35c.
1/4 Lb. \$1.00. Lb. \$3.50.

35. **Bolgiano's "New Early" Cabbage.**—It forms solid, compact, round, flat heads, the leaves growing close to the head, thus allowing more cabbage to be grown to the acre than any other sort. Its earliness (a week before other early flat varieties) is one of its best marketable features. It heads so hard and so quick it becomes waterproof. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

36. **Florida Header Cabbage.**—In color, shape and size the heads are most uniform. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

37. **All Head Early Cabbage.**—For uniformity, reliability of heading, size, earliness and quality it is very superior. Its heads grow compact and free from spreading leaves. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

38. **Henderson's Early Summer Cabbage Seed.**—In size, form, solidity and earliness, this is truly a model Cabbage. It heads just after our Jersey Wakefield. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

39. **Long Island Early Flat Dutch Cabbage.**—The heads are large and solid, and matures very early—just after the Select Jersey Wakefield, and may be marketed at the same time with the Wakefield. In every respect it is a Cabbage worthy of cultivation. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

40. **Early Drumhead Cabbage Seed.**—It is ready for marketing two or three weeks earlier than the Late Drumheads, forms large, solid, rounded heads, weighing from 15 to 25 pounds. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

41. **Henderson's Early Succession Cabbage.**—A wonderful Cabbage for solidity, productiveness, and fine, large heads. Matures early, has handsome color and fine quality. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

42. **Sure Head Cabbage, (Pedigree Stock).** True American Grown.—Produces large, round, flattened heads that are all head, with fewer outer leaves, very uniform, firm, and weighs from 10 to 15 pounds each. Splendid shipper and of an excellent quality. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

LATE OR WINTER VARIETIES

BOLGIANO'S EXTRA FLAT DUTCH

43. **Market Gardener's Choicest.**—Can be planted later than the old time varieties and matures more quickly into a handsome EXTRA LARGE, solid, uniform Cabbage of perfect keeping qualities. It has of its own superior merits become a great favorite everywhere. If you want the best Flat Dutch that grows, try Bolgiano's Extra Flat Dutch. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 40c. Lb. \$1.50.

50. **Louisville Drumhead.** (Best of all Drumhead Cabbages.)—There is no Cabbage of the Drumhead type which can be compared with this beautiful representative, in shape, color, firmness and excellent table qualities. While not as large as some of the coarse, inferior kinds, it is of fine size, very solid and uniform. Heat and moderate drought have little effect upon it on account of the peculiarly short stem and low habit of growth, so we recommend it for sections where late Cabbage is apt to be exposed to such conditions. Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.50.

BOLGIANO'S EXTRA FLAT DUTCH CABBAGE.

45. **The Lupton Cabbage.**—Is a splendid late sort, heading after the second early sorts and sooner than the late Flat Dutch. It is particularly uniform in size and shape, holds its dark green color better than the late sorts. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

51. **BOLGIANO'S NEW WHITE WONDER.**—The Greatest 20th Century Flat Dutch Cabbage.—Every plant makes a head, large, solid and attractive. Every seed is a storehouse; it means one thrifty plant, one compact, worm-proof, heavy head of deliciously flavored Cabbage. Experienced farmers say you are sure of your crop when you plant New White Wonder Cabbage Seed. Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 75c. Lb. \$2.50.

44. **Boss Flat Dutch Cabbage.**—The heads are large, hard, thick and flat, the leaves lapping across the centre. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

46. **Premium Flat Dutch.**—It has long been the favorite sort for cold slaw and sauer-kraut. It matures just before severe frost, and keeps perfectly over winter. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.00.

47. **Large Late Drumhead Cabbage.**—This splendid Cabbage produces enormous heads. Its good keeping quality make it a first-class sort to carry over winter or for long distance shipping. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.00.

52. **HENDERSON'S AUTUMN KING CABBAGE.**—(True American Grown).—If you want an enormous Cabbage, the Autumn King will fill the bill. It is often from 3 to 3½ feet in circumference, and weighs from 25 to 30 lbs. each. Interior crisp, close, finely grained, tender and white. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

48. **Armager, or Danish Bald-head Cabbage.**—This is the most excellent Cabbage is very solid and out-weighs any other Cabbage of equal size. The head is round with flattened top, a good keeper, first-class shipper, and sells everywhere. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

49. **Mammoth Rock Red Dutch.**—Is the largest red Cabbage, and heads very solid, and is deep red color to the very centre. No Cabbage is better for boiling or slaw, and its beautiful red color specially fits it for pickling. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.

Bolgiano's Perfection Improved Drumhead SAVOY CABBAGE

53. There are many varieties of Savoy Cabbage, but "Bolgiano's Perfection," surpasses them all for uniformity of heads, beauty of curl, and superior keeping qualities. When truckers have failed with other stocks from severe drought and worms, Bolgiano's Perfection has pulled through all right and come out supreme, making the grower happy by bringing him good returns when Cabbages were scarce. If you try it you will say more than we have. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

"Your radish seed and all other seeds have always given satisfaction."

COLLARDS

CHOU CABU

Cabu

Blatterkohl

23. **Georgia Southern, or Creole.**—Forms a large, loose, open head, or a mass of leaves on a tall stem. Freezing does not injure, but rather improves their quality. Sow thick in drills in rich ground, transplanting when 4 inches high, or sow in drills where the plants are to remain, and thin to 2 or 3 feet apart in the row, when of proper size. In the South sow from January to May, and August to October. Pkt. 5c. Oz. 10c. 2 Oz. 15c. 1/4 Lb. 20c. Lb. 60c.

SLUG-SHOT KILLS BUGS on rose bushes, currants, cabbage, potatoes, etc. 1 Lb. 10c. 5 Lbs. 25c. 10 Lbs. 50c. 100 Lbs. \$4.25.

From 4 acres of Bolgiano's Succession Cabbage I cleared \$1,400.
T. C. CONNELL, Oakland, Fla.

Bolgiano's Perfection Improved Drumhead Savoy Cabbage.

CAULIFLOWER. Blumen- Kohl.

An ounce will produce about fifteen hundred plants, and sow about forty square feet. One-half ounce furnished at ounce rates and one-half pound furnished at pound rates.

Culture of Cauliflower.—For Spring or Early Summer crops sow in March or early in April in hotbeds and transplant to cold frame when sufficiently large, and to open ground as soon as danger of hard freezing is over. The plants will endure a light frost. The soil should be made richer than is ordinarily used. Give the plants thorough culture and keep free from worms with Slug Shot Insect Powder. For late crops sow at same time as for late Cabbage; treat in the same manner. It should be borne in mind that Cauliflower WILL NOT head up well in hot, dry weather, and hence sowing should be so regulated as to bring it to maturity before the hot Summer sets in or not until cooler Fall. Water liberally; the size and quality of the head will be greatly improved. After the heads begin to form, draw leaves over and pin or tie them together to protect the head from the sun.

54. **NEW CENTURY CAULIFLOWER.**—There is no Cauliflower that can touch it. (Specially, see page 17.) **Packet 10c. 25c. 50c. 1/4 Oz. \$1.00. 1/2 Oz. \$2.00. 1 Oz. \$4.00. 1/4 Lb. \$15.00. 1 Lb. \$60.00.**

55. **Earliest Snow Ball Cauliflower.**—Our Snow Ball Cauliflower is the earliest, most hardy, and, in fact, the Cauliflower that you can plant, and expect a crop, of true, firm, snow-white heads. You cannot get better Snow Ball Cauliflower Seed, no matter what price you pay. There is but one stock of Cauliflower that is better and that is Bolgiano's New Century Cauliflower. Many of the beautiful, shapely heads measure from 10 to 12 inches in diameter. Our Cauliflower Seed is saved only from absolutely perfect plants and is grown by the most experienced and critical growers in localities best suited for its perfect development. Best for forcing; best for wintering over early crop. Every plant will produce a fine head. **Pkt. 5c, 10c and 25c. 1/2 Oz. 65c. Oz. \$1.50. 1/4 Lb. \$5.00. Lb. \$18.00.**

	Pkts.	1/2 Oz.	Oz.	1/4 Lb.	Lb.

Will say your Cauliflower was fine. I raised Egg Plants from your seeds that weighed 7 lbs. 6 ozs.
January 11, 1906.
OTHA J. ASPLEN,
Cambridge, Md.

BOLGIANO'S RELIABLE SNOW BALL CAULIFLOWER.

CARROTS.

CARROTTE.
Zanahoria.
Wobren.

1 Oz. Will Sow a Row 100 Feet Long, 4 Lbs. to the Acre. Pkts., Ozs. and 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

Culture.—Carrots to grow to perfection require a deep, rich, sandy loam, well pulverized and deeply cultivated. For an early crop sow in May and June in drills about 1 foot apart thinning out to 4 inches in the row; sow for Winter crop in June and July. It is important to tread the rows firmly after sowing seed.

60. **New Scarlet Beauty Carrot.**—(Specially, see page 20.) **Pkt. 5c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.**

64. **Pride of the Market Carrot.**—(Specially, see page 20.) **Pkt. 5c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.**

63. **Ox-Heart Carrot.**—So very early; so shapely; so tender, and of such a fine, bright scarlet color. Not only is extreme earliness a characteristic of our Ox-Heart Carrot, but its exceptionally fine quality, being almost entirely without core. **Packet 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.**

61. **Half Long Orange Carrot.**—The skin is clear, bright in color and the flesh is close in texture, of very fine grain, with very small core. For bunching, the handsome appearance is a market advantage. **Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.**

62. **Improved Long Orange Carrot.**—Uniformly a deep orange color, growing a long, smooth, symmetrical Carrot. Remarkable for the absence of detractive side roots and divisions at the point. Tremendous yielder and of a rich, sweet flavor; will retain its delicious flavor all winter. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.**

65. **St. Vallery, or New Intermediate**, one of the best on earth.

66. **Early Scarlet Horn**, beautiful form and delicate flavor.

67. **Danvers**, rich color.

68. **Early Scarlet Chantenay, or Model**, attractive color.

69. **Early Half Long Nantes**.

70. **Early Rubicon**, deep red color, few leaves, extra productive.

**J. BOLGIANO & SON'S CYCLONE
UP-TO-DATE
BUG EXTERMINATOR.**
50c EACH. FIVE FOR \$2.00.
Add 33c if to go by mail.
IN A STRONG PASTEBOARD BOX.

CYCLONE UP-TO-DATE BUG EXTERMINATORS.

Who does not hate the job of killing the bugs by any of the old methods? And just think of the loads of water required! Contrast these old methods with the new. These **Bug Exterminators** weigh only one pound, and one pound more when ready for use. You put your Paris Green up in papers, as doctors do their powders, one-half teaspoonful in each, and take a dozen powders and a bucket of water to the field, and you have ammunition enough to kill the bugs on a couple of acres of potatoes. You do the work at a moderate walk. Only one shot at each hill and the whole plant, stalk, stems, and the upper and lower sides of the leaves are treated in such a perfect manner as to kill every bug, **while it is impossible to injure the foliage.** The people who have used these Exterminators in the past saved their crops, because the work was so light and done so quickly that there was no excuse for neglecting the job. Killing the bugs is not one of the easiest jobs on the farm. Don't put off getting a machine until your crop is half ruined. Begin early. With these **Bug Exterminators** you can kill the hard-shell potato bugs as readily as the soft ones. By beginning early you save the trouble of killing millions later, and all the vitality of your crop is saved. These machines combine some features not possessed by other similar machines that have been put upon the market, and which makes them superior to all others.

CELERY

CELERI
Apios
Sellerie

Culture.—One ounce will produce about twenty-five hundred plants and sow about two hundred feet of row. Sow the last of March or early in April, in an open border, in rich mellow ground in shallow drills, watering freely in dry weather. By rolling or pressing in the seed, the result will be more satisfactory than when only covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are 5 or 6 inches high, transplant the dwarf varieties 3 feet and the taller sort 4 feet between the rows; plant 6 inches apart in the rows. Cultivate well and when large enough, blanch by earthing up. The first operation is that of "handling," generally done by the beginning of September. After the soil has been drawn up with the hoe, it is drawn around each plant by the hand to keep the leaves firm in an upright position and prevent spreading. When the plants have become "set" in an upright position and the Celery is wanted for early use, they should be "banked." This is done by throwing the soil up as close to the plants as possible with a plover and finishing it with a spade, bringing the earth up nearly to the tops of the plants. The method, employed now for protecting is by covering the tops of the banks with water-proof felt paper.

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.
71. **French Golden Self-Blanching Bolgiano's Famous Stock.**—Grown by the Originator in France. (Specialty, see page 15.)
Pkts. 5c and 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.

76. **Sweet Nut Celery.**—The most delicious Celery ever grown. We recommend it for near-by markets and home use. (Specialty, see page 15.)
Pkt. 10c. Oz. 50c.

81. **New Victory, Solid French Grown.**—(Specialty, see page 15.)
Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. \$1.00. Lb. \$3.50.

72. **Perfected White Plume Celery.**—It is most extensively used on account of its extreme earliness. Its stalks and portions of its inner leaves and heart are white naturally. By simply tying the plant together, or by drawing the soil firm against the plant with the hand and repeating the operation to hold the soil already against the plant in position, the work of blanching is completed. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.75.**

Messrs. J. Bolgiano & Son, Baltimore, Md. Dec. 29, 1905.
Gentlemen.—I have used your seed for 15 years, and am entirely satisfied.
Yours respectfully, L. B. BELK, Fla.

73. **Giant Pascal Celery.**—This is a large, solid, excellent sort. It blanches very quickly to a beautiful yellowish-white color, is very solid and crisp, and of a fine nutty flavor. Stalks grow broad and thick, a single plant making a large bunch. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

79. **The Pearle Le Grand Celery.**—Keeps in perfect condition over winter and after other sorts are gone. Its large full golden heart has a rich nutty flavor. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

77. **Boston Market Celery.**—Is solid, crisp and desirable. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

80. **Evan's New Triumph.**—This variety has a very strong vigorous plant; is crisp, brittle, tender and fine flavor. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 40c. Lb. \$1.30.**

74. **Golden Heart Celery.**—Is crisp, solid, handsome and most excellent flavor, with a beautiful golden heart. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

75. **New Winter Queen Celery (Pedigree Stock).**—Is beautiful in appearance. Ribbs perfectly solid, crisp and of a delicious nutty flavor. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

78. **Giant Golden Heart Celery.**—A gardener found in his Dwarf Golden Heart a few plants of larger growth. A careful selection made for several years, resulting in the Giant Golden Heart, which excels for large size, solidity and keeping quality. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

335. **Perfection Hartwell.**—Large, golden yellow heart; superior quality. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

515. **Kalamazo.**—Very popular, hardy winter variety. **Pkts. 5c @ 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

Celeriac

OR TURNIP
ROOTED CELERY

Culture for Root Celery.—Sow the Seed at the same season and give the same treatment as Celery. Transplant the young plants to moist, rich soil, in rows 2 feet apart and 6 inches apart in row.

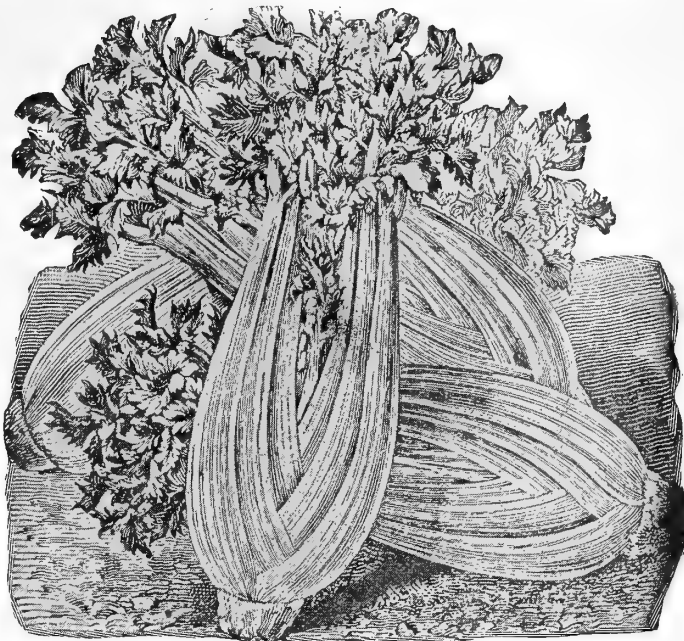

139. **Bolgiano's New Giant French.**—(Specialty, see page 25.)

**Pkts. 5c and 10c.
Oz. 25c. 1/4 Lb. 75c.
Lb. \$2.50.**

83. **Large, Smooth Prague Celeriac.**—A large Celery flavored root used extensively for flavoring soups, pickles, etc., also relished sliced as a salad with pepper and vinegar. It is also used to flavor chicken and potato salad. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

LARGE GERMAN CORN SALAD.

FRENCH GROWN SOLID NEW VICTORY CELERY.

Gentlemen:—I have planted your Seeds for the last ten years and they give better satisfaction than from any other house. F. M. TOWNSEND, Sept. 12, 1906. Martin, Fla.

I have been planting your different kinds of Garden Seeds for sometime, and find them to give the best results of any seeds that I have ever planted, and will continue to plant them. Your seeds always come up, and do well, and we recommend them to any Gardener or for private use. John R. Lloyd, Petersburg, Md.

CRESS

CRESSON.
Berro o Mastuerzo.
Kresse.

Culture.—Sow curled or pepper grass thickly, in shallow drills, every two or three weeks. It should be cut often, and it will continue to grow. It is useful not only for salad, but for the breakfast table and for garnishing.

520. **True Water Cress.**—Should be sown in damp soil; or if a stream of water can be utilized, they would be much finer. They will also thrive well in damp hot-beds. Rightly managed, their culture is very profitable. To obtain early salad it is a good plan to sow with Water Cress Seed a strip 4 inches wide on the upper margin of the hot-bed, inside the frame, where it is always cool. **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

521. **Curled or Pepper Grass.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.

CORN SALAD OR FETTICUS

MACHE Macha o Valerianillia Stechsalat

1 Ounce will sow 20 square feet, 6 Pounds will sow an acre.

Culture.—Sow during August, or early in September, in drills 1/4 inch deep and 6 inches apart. If the weather is dry when the seed is sown, tread it lightly to insure germination. Keep down weeds with hoe. Just before the winter, cover thinly with straw or leaves.

24. **Large German Corn Salad.**—Used to a considerable extent as a salad. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 40c.**

Market Gardeners, Farmers' Clubs and Institutions

wanting to purchase seeds in unusually large quantities should write for special prices. Although we have made prices very low in this catalogue, yet where a number of pounds or bushels are wanted, we can frequently supply at a lower price than by the single pound or bushel. In writing, give us a list of quantities and varieties required, and we will return list promptly with our LOWEST COST PRICE FOR THE LOT. Address inquiries,

J. BOLGIANO & SON
BALTIMORE, MD.

☞ We supply Packets of Sweet Corn at 5c & 10c each, postpaid. On Pints and Quarts, add 12c Quart postage.

Culture of Corn.—The Sweet or Sugar varieties, being liable to rot in cold or wet ground should not be planted before May, or until the ground has become warm. For a succession, continued planting every two weeks until the middle of July, in rich, well-manured ground, in hills 3 feet apart each way, covering about half an inch, and thin out to three plants to a hill. Hoe often and draw soil up to the stem; break off side shoots. The extra early varieties can be planted 18 inches in the row and 2½ feet between the rows.

1051. **Double XX Extra Early Adams' Sweet Corn.**—Two weeks earlier than Extra Early Adams', large ears completely filled with 10 to 14 straight, even rows of snowy white deep grains. **Per ear 5c. Doz. 25c. Pt. 10c. Qt. 15c. Gal. 35c. Pk. 60c. Bus. \$2.00.**

1052. **Adams' Extra Early.**—A splendid early variety, largely grown for early market. **Per ear 5c. Doz. 25c. Pt. 10c. Qt. 15c. Gal. 35c. Pk. 60c. Bus. \$2.00.**

1053. **Second Early Adams' Corn.**—Ears are larger and later than Adams' Extra Early. **Per ear 5c. Doz. 25c. Pt. 10c. Qt. 15c. Gal. 35c. Pk. 60c. Bus. \$2.00.**

1050. **Gillespie's First Early Neck Corn.**—The VERY FIRST GOOD SIZE CORN that can be brought to market. It is so hardy that it can readily be planted as soon as the ground is in good working order, and will, from the day of its germination, hurry forward to meet the early demand for fresh Corn, which is always very keen and causes this delicious, attractive and superior Corn to bring profitable prices. **Per ear 5c. Doz. 25c. Pt. 10c. Qt. 15c. Gal. 35c. Pk. 60c. Bus. \$2.00.**

1049. **White Cob 65-Day Corn.**—(Specialty, see page 19.) **Per ear 5c. Doz. 40c. 100 ears \$2.50. Pkt. 5c. Pt. 10c. Qt. 20c. Gal. 40c. Pk. 75c. Bus. \$2.50.**

1115. **Premo 60-Day Corn.**—(Specialty, see page 19.) Experts pronounce this Corn to be from 5 to 7 days earlier than any other Sugar Corn in existence. It is superior to many leading early varieties in quality, size and yield. Can be planted as early as the Adams' for the young plants withstands slight frosts. **Pt. 10c. Qt. 20c. Gal. 55c. Pk. \$1. Bus. \$3.50.**

1054. **Red Cob 90-Days Corn.**—This Corn meets a long-felt want, because it suits the retail market sales; makes a first-class Crop Corn for feeding stock. The ear is large, handsome, suits for early or late crop, because it matures in 90 days. This makes it always a safe and profitable crop. **Per ear 5c. Doz. 35c. Pt. 10c. Qt. 15c. Gal. 35c. Pk. 60c. Bus. \$2.00.**

1055. **Early Minnesota.**—Ears larger than the CORN and matures between that variety and the CROSBY. Eight rows of quite large, sweet grains. **Per ear 5c. Dozen 50c. Pt. 10c. Qt. 15c. Gal. 40c. Pk. 75c. Bus. \$2.50.**

1058½. **Metropolitan.**—Large, handsome ears of fine quality; very early. **Per ear 5c. Dozen 50c. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 80c. Bus. \$3.00.**

1057. **Mammoth White Cory Sweet Corn.**—Produces ears 7 to 8 inches long; 12 rowed; white-cobbed and covered with very large white grains of extra quality. **Per ear 5c. Dozen 50c. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 80c. Bus. \$3.00.**

1068. **Peep-o-Day**.—(Specialty, see page 19.) Pkts. 5c and 10c. Pt. 10c. Qt. 20c. Gal. 55c. Pk. \$1.00.

1058. **Early Champion**.—Very large ears considering its earliness. Per ear 5c. Doz. 50c. Pt. 10c. Qt. 15c. Gal. 40c. Pk. 75c. Bus. \$2 50.

1056. **Crosby**.—Matures after Minnesota; fair-sized ears of good quality. Per ear 5c. Dozen 50c. Pt. 10c. Qt. 15c. Gal. 40c. Pk. 75c. Bus. \$2.50.

1059. **Earliest Sheffield Sugar Corn**.—Planted early as Adams'. It will stand slight frosts, makes a strong, vigorous growth, with abundant foliage, growing about 5 feet, bearing usually 2 ears of handsome appearance, entirely free from smoot; exceptionally fine flavored and juicy. Per ear 5c. Doz. 50c. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 80c. Bus. \$3.00.

1060. **Extra Early Evergreen**.—Ears are like evergreen—very large, with about 18 irregular rows and a very long grain of the best quality; remains in condition for use longer than other sorts, exceeding the Stowell's in this respect. Per ear 5c. Dozen 50c. Pt. 10c. Qt. 15c. Gal. 40c. Pk. 75c. Bu2 \$2.40.

1061. **Early Mammoth Sugar**.—Market Gardener's favorite. Two weeks earlier than the late Mammoth. Per ear 5c. Doz. 50c. Pt. 10c. Qt. 15c. Gal. 40c. Pk. 75c. Bus. \$2.50.

GENERAL CROP.

1066. **Snow White Evergreen.**—(Specialty, see page 19). **Per ear 5c. Dozen 50c.**
100 ears \$2.50. Pt. 10c. Qt. 15c. Gal. 40c. PK. 75c. Bus. \$2.50.
 1067. **Stowell Evergreen.**—The truest strain of this leader of all Corns is in our possession.
 It remains longer in a first-class marketable condition than any other variety. **Per ear 5c.**
Dozen 50c. Pt. 10c. Qt. 15c. Gal. 40c. PK. 75c. Bus. \$2.40.
 522. **Hickox Improved.**—Handsome ears, very white and of rich flavor. **Per ear 5c.**
Dozen 50c. Pt. 10c. Qt. 15c. Gal. 40c. PK. 75c. Bus. \$2.50.

1062. **Large Late Mammoth Sugar.**—Largest of all sugar varieties. Producing perfect ears of immense size, having from 12 to 16 rows. A fine market variety. Sweet and delicious. **Per ear 5c. Dozen 50c. Pt. 10c. Qt. 15c. Gal. 40c. Pk. 75c. Bus. \$2.50.**

1063. **Black Mexican.**—Very sweet and of superior flavor; seeds black. **Per ear 5c. Dozen 50c. Pt. 15c. Qt. 25c. Gal. 50c. Pk. 75c.**

e Plus Ultra, or Shoe Peg.—Small, but one of the sweetest sort. **Per ear 5c. Dozen 50c. Qt. 20c. Gal. 40c. Pk. 75c. Bus. \$2.50.**

Country Gentleman Sugar Corn.—(Specialty, see page 19.) **Per ear 5c. Dozen 50c. s \$2.50. Pt. 10c. Qt. 10c. Gal. 50c. Pk. 75c. Bus. \$2.50.**

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.

Bolgiano's Famous New Early Fortune Cucumber—The Earliest and the Best White Spine Cucumber Ever Offered.

84. **New Early Fortune Cucumber.**—(Specialty, see page 6.) Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.
 85. **Arlington White Spine.**—Beautiful in shape, color, and of the finest quality. The fruit is long, cylindrical, dark green, with very white, crisp and tender flesh of excellent flavor. In the United States the Arlington is used more, perhaps, than any other variety; and in excellence is surpassed only by the New Early Fortune Cucumber, Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
 86. **Improved Extra Early White Spine.**—Produces Cucumbers of finest form and most salable size for shipping purposes; dark green color; a favorite with large truckers and gardeners. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
 89. **Cool and Crisp White Spine Cucumber.**—The skin is very dark green, almost black, and covered with knobs, upon which the spines set, which gives the pickles a very attractive appearance. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
 90. **New Extra Early Evergreen White Spine Cucumber.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
 87. **Thomas Perfection Early White Spine.**—A selection from the famous Arlington White Spine. It is regarded as far superior to that variety; Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.
 340. **Fordhook Pickling.**—One of the best Cucumbers for pickling. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

93. **Bolgiano's New Prolific Pickling.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.
 97. **Thorburn's Everbearing.**—The famous pickling Cucumber. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 45c.
 92. **New Excelsior Long Green Cucumber.**—It is a model for size, form, and beauty. Deep green color, and an abundant cropper. For table use and pickles it is most suitable. This sort runs so uniform that the Cucumbers look as if they had all been selected. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
 96. **The Cumberland.**—One of the best pickling Cucumbers known. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
 88. **New Extra Long White Spine Cucumber, or Fordhook Famous.**—Skin very deep green; flesh greenish white, firm and unusually crisp. The plant is a strong grower; leaf large and of a deep green color. The fruit is long (12 to 17 inches), smooth, slim and uniform. Owing to its large, thick, heavy leaf, it withstands attack of insects. Its northern origin insures hardiness and vigor. Pkt. 5c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.
 81. **Coy's Early Cyclone Cucumber.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 70c.
 95. **Improved Jersey Pickle.**—It is medium in length, very shapely, prolific and holds its color. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 45c.
 517. **Japanese Climbing Cucumbers.**—Pkts. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.
 94. **Early Frame, or Early Short Green.**—Desirable for producing pickles of medium size and of fine quality. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 45c.
 98. **Improved Long Green.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 45c.
 518. **West India Gerkin.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.
 519. **Telegraph, or English Hot-House Cucumber.**—Pkts. containing 15 Seeds, 25c.

Eggplant. Aubergine Berengena Eierpflanze

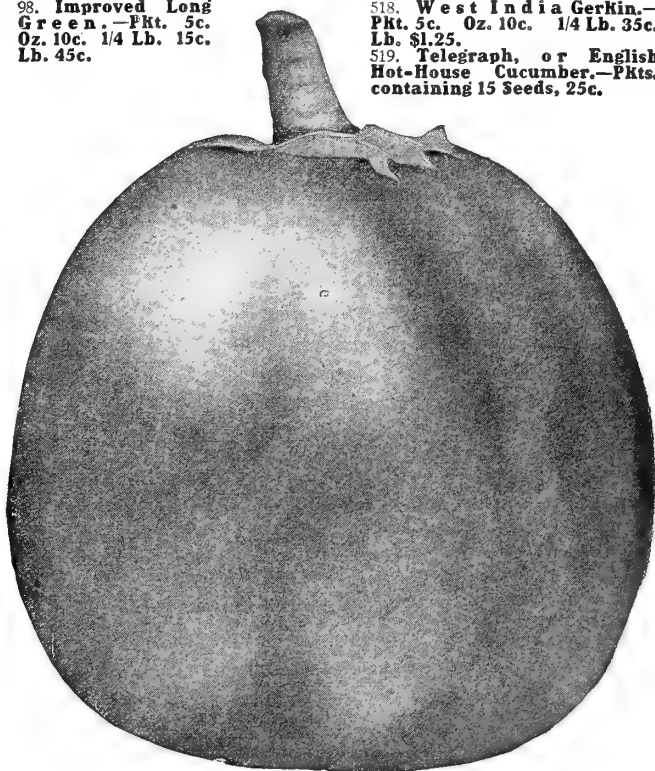

1 Oz. will produce 500 plants.

- Pkts. Oz. and 1/4 Lbs. delivered free by mail, add 8c to Lbs.
CULTURE.—Sow in hot-beds very early in Spring and transplant when 2 in. high into second bed or into small pots. If this is not done, thin to 4 in. apart. Do not plant out until weather has become perfectly settled and warm. Cool nights or wet weather will check them. Keep some back in frames for a second planting, in case of weather changing unexpectedly. Set out plants 3 ft. by 2 ft.
 100. **Bolgiano's Black Beauty Eggplant.**—(Specialty, see page 16.) Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 90c. Lb. \$3.50.
 99. **The Florida High Bush Eggplant.**—(Specialty, see page 16.) Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 90c. Lb. \$3.50.
 103. **Bolgiano's Improved Large Purple Eggplant.**—Perfect stock of Improved Large Purple Eggplant—purer, truer and better than has ever been offered before. It has a handsome shape, a fine dark purple color, beautiful form, large size and is uniform, making it most attractive for shipping and market use. Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 70c. Lb. \$2.50.
 101. **New York Improved Eggplant (Spineless).**—A vigorous grower; fruit large, fine, free from thorns, and produce until frost; skin of a rich purple; flesh white and of rich flavor. We can highly recommend our carefully selected strain of this Eggplant to market gardeners and amateurs. Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.
 104. **New Orleans Eggplant.**—Large, dark purple or New Orleans market. During droughts it fruits abundantly, and its strong, erect plants lift the fruit too high for injury during a rainy spell. In form, handsome; size, large; color, dark purple; and it out yields many other sorts surprisingly. They are good shippers, carry well and remain firm. Pkts. 5c and 10c. Oz. 30c. 1/4 Lb. \$1.00. Lb. \$3.50.
 102. **New Jersey Improved Large Smooth Eggplant.**—Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 70c. Lb. \$2.50.
 329. **Black Pekin Eggplant.**—Produces handsome, nearly round, solid fruit of good quality, and maturing early. Very productive. Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 70c. Lb. \$2.50.

ENDIVE.

CHICOREE Escarola o Endivia Endive
 1 Oz. to 150 feet of Row.

- Culture.**—Sow in June, July and August; cover lightly; when up, thin out to 8 inches apart and water well afterward, if dry. When the leaves are 6 to 8 inches long, blanch by gathering in the hand and tying together near the top with yarn or bast. This must be done when quite dry, or they will rot. At the approach of Winter, take up carefully, with a ball of earth to each plant, and place close together in frame or cellar for use. They must be kept dry and have plenty of air or they will rot.
 106. **Bolgiano's New Self-Blanching Endive.**—(Specialty, see page 25.) Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.
 107. **Green Curled Winter.**—Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00

Bolgiano's IMPROVED LARGE PURPLE EGGPLANT

KALE.

CHOU VERT FRISE Col Krauskohl
Pkts., Ozs. and 1/4 Lbs. delivered free, but add
8c to Lbs.

Culture.—Kales are more hardy than Cabbage and make excellent greens for Winter and Spring use, being improved by frost. Sow from May to June; cultivate same as Cabbage.

BORE COLE, OR KALE. Spargel Kobl

113. The most salable, delicious and tender of all Winter Kales. About Baltimore, it is sown in May, and transplanted like cabbage to stand over Winter. It is taller than the extra dwarf varieties and when the leaves are stripped, or fall off, new tender leaves quickly grow out. Then they are again stripped off and used for marketing. It will stand the coldest Winter. Besides being a delicious vegetable, it has always been an exceptionally profitable crop, bringing in money during the Winter months when mostly all vegetables are scarce. **Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c.**

1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.

112. **Extra Dwarf Green Curled Scotch, or Norfolk Kale.**—One of the best Kales for Spring sowing in the North; the principal sort grown South for Northern markets; hardy, and will remain over Winter where temperature does not go below zero. Very dwarf and spreading, rarely exceeding 18 inches in height. Leaves are a bright green color, beautifully curled and produced in great abundance. **Pkt. 5c. Oz. 10c.**

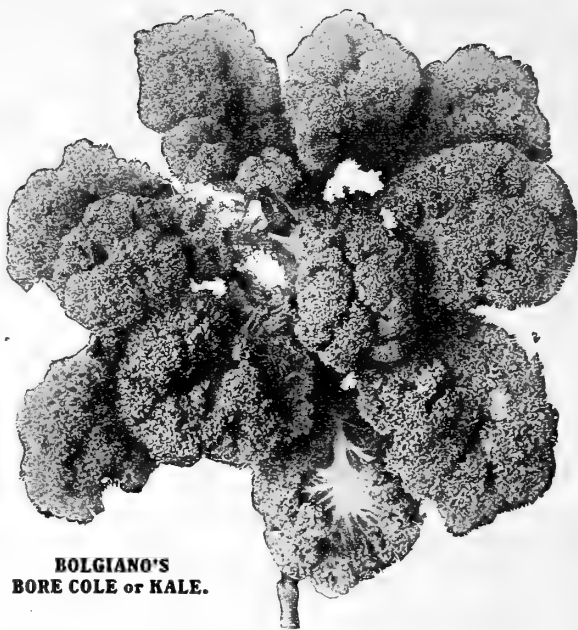

1/4 Lb. 15c. Lb. 40c.

108. **New Imperial, Very Curly, Long Standing Kale.**—Beautifully curled and crimped sort; strong, vigorous habit, perfectly hardy, bright green color; very attractive in appearance; superior to all late sorts; will stand longer without shooting to seed than any other variety. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

109. **Curled German Kale.**—Hardy; stands the frost of our severest Winters; grows rapidly, dwarf habit; beautifully curled. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

110. **Siberian Curled.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

112. **New American, Extra Curled Long Standing Kale.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

SAGE.

LETTUCE.

LAITUE Lechuga
Salat

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.

One Ounce to 1000 Plants: Two Pounds to the Acre.

Culture of Lettuce.—Sow the seeds in hot-beds in February or March, and transplant into a sheltering border with a Southern exposure. For successive crops, sowing may be made in the open ground as early as the Spring opens and continuing until July. Always thin out well or plants will not be strong. When wanted as a cut salad, sow the seed thickly in rows or broadcast.

150. **"Millionaire" Lettuce.**—A new delicious head Lettuce fit for a King, it is also a very profitable Lettuce for Market Gardeners to grow. (Specialty. See page 12.) **Pkt. 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.**

118. **Bolgiano's "Gold Prize."**—(Specialty. See page 12.) **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

156. **Big Boston Lettuce, Bolgiano's Famous Stock.**—Big Boston Lettuce is the most valuable Lettuce in cultivation, its excellent qualities have made it the most popular and most extensive used Lettuce in the world. It can be grown in the open ground for Summer or Fall, in frames for Spring or forced cool in greenhouses for Winter use, producing under each condition, grand, large, buttery, yellow heads, filled with sweet, crisp, tender, beautifully blanched leaves. Stands long without going to seed; has few outer leaves and makes a large, attractive plant. **Big Boston Lettuce is specially adapted to cool open-ground culture.** Our stock of this famous Lettuce is the finest in the world. **Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. 1/2 Lb. 60c. Lb. \$1.00.**

126. **Bolgiano's New Early Spring Lettuce.**—In the early Spring this splendid Lettuce does its best, producing large Cabbage-like heads, uniform in size, tender, crisp, and sells for highest prices. **Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.**

122. **Improved White Loaf Lettuce.**—This is a Lettuce the Agricultural Department at Washington says should be more largely used. After the most careful cultivation and roguing, we have established the truest and most uniform strain of Improved White Loaf Lettuce. In the earliest Spring it quickly forms most delicious, large, light-colored Lettuce Heads and can be brought to market long before other Lettuce. As a frame Lettuce it has no equal; often 18 head shaves brought \$2.50 wholesale. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.00.**

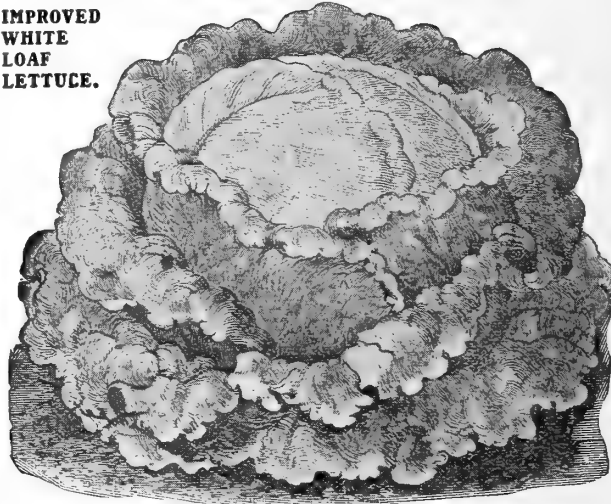

119. **Bolgiano's Farmer's Pride Lettuce.**—MASSIVE, yet graceful as a rose and solid as a rock. Farmer's Pride Lettuce is an absolute necessity to any wide-awake up-to-date grower of Vegetables. Sow the seed any time in the year you wish; your crop will be the finest you ever grew. Order at once. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

KOHL RABI. Kobl Rabi.

152. **Bolgiano's "Best of All" Kohl Rabi.**—(Specialty. See page 24.) **Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 40c. 1/4 Lb. 65c. 1/2 Lb. \$1.25. Lb. \$2.50.**

IMPROVED
WHITE
LOAF
LETTUCE.

127. **Bolgiano's New Golden Heart Lettuce.**—Early, large, handsome, most attractive, light color. It matures at any season. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

Lettuce Continued.

Pkts., Ozs. & 1/4 Lbs. delivered free, but add 8c to Lbs.

124. **Bolgiano's Celebrated Big Head Lettuce.**—Its beautiful form and color attract the attention of expert growers. It forms a compact head, has no core, but a tender, golden heart. As a shipper it is unexcelled, commands the very best prices, demand always exceeds the supply. It resists the cold, withstands the summer heat, always crisp, has a mild flavor; when open it becomes a table ornament; in fact, in this sort the trucker has found a perfect Lettuce. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

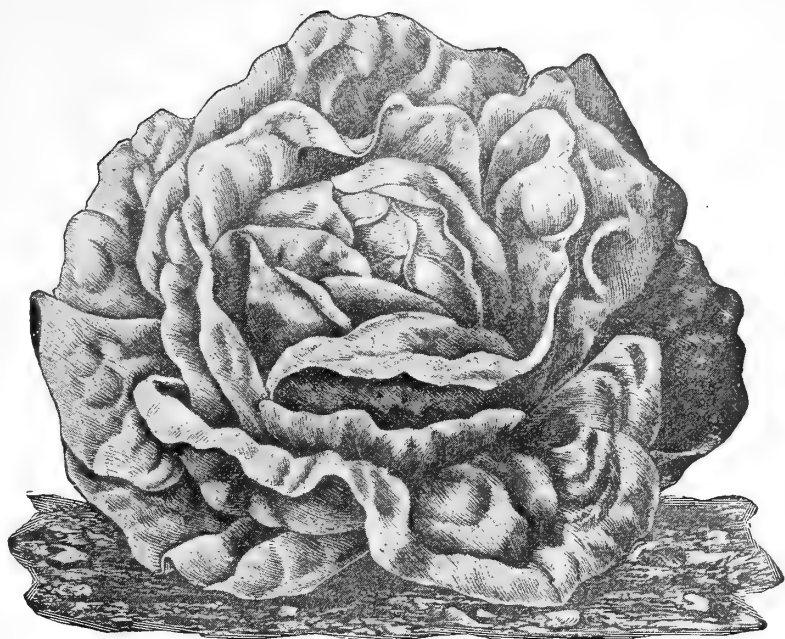

128. **Defiance Summer.**—Remains in prime condition a long time before going to seed. As a summer variety it has already become a standard sort. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.00.**

121. **Bolgiano's Baltimore Oak Leaf.**—This Lettuce will resist the heat of summer and stand longer before running to seed than any variety. It makes a large head, and is very popular with those who know it. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 50c. Lb. \$1.50.**

133. **California Cream Butter Lettuce.**—Outside leaves are a medium green color, inside is folded a solid head of rich, creamy, yellow color. The largest growers consider it one of the best in cultivation. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 80c.**

132. **Grand Rapids.**—Finely curled or fringed edges. Its delicious quality and handsome appearance make it most popular. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.**

Bolgiano's Celebrated Big Head Lettuce

155. **New Lettuce "Unrivalled."**—An improvement on the famous Big Boston Lettuce; possessing all the good qualities of this kind, viz: Earliness, large size, attractive color, etc. It can be sown almost the whole year around; it resists the summer heat remarkably well, is crisp and solid. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 90c.**

125. **Golden Queen.**—One of the best first early head Lettuces for either open ground or frame culture, and a good forcer; medium-sized, solid; golden yellow heads, crisp and tender. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.25.**

131. **Immensity Lettuce.**—The largest Head Lettuce in the world; often from 4 to 5 feet in circumference, and as good as it is large. **Pkts. 5c & 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 90c.**

129. **Vaughan's "All Seasons."**—A handsome, very large, solid head; leaves a beautiful light green and the inner ones are very tender, crisp, and a beautiful golden color. It goes to seed very slowly. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.**

130. **Philadelphia Early White Summer Cabbage.**—A large heading variety. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.**

120. **Tait's Imperial Cabbage Lettuce.**—Some of the most successful growers in the vicinity of Norfolk prefer it to any other sort. The leaves are thick, crisp and stiff, and carry well in shipment. Color bright green and holds well after cutting. As an open air Lettuce, it is unexcelled for endurance of extreme cold, and yield per acre. **Pkts 5c & 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

123. **Paris White Cos.**—Self Folding.—Grows to very large size, producing long-pointed compact bunches. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 85c.**

Gentlemen:—Please express prepaid:— 2 1/2 lbs. Grand Rapid Lettuce. 2 1/2 lbs. Big Boston Lettuce. I want to say right now that I have no trouble with your seeds. I will get the bulk of the seed orders for 1906, from your house.

J. J. BAILEY, Miss.

Melon.==Cantaloupe.

Pkts., Ozs. and 1/4 Lbs. Delivered Free, but add 8c to Lbs.

Culture.—Select a light, sandy, rich soil, and after all danger of frosts is over, and the ground has become warm and dry, plant in hills 4 to 6 feet apart each way, 6 to 12 seeds to a hill. When up and all danger of insects has passed, pull out all but 3 plants. Cultivate until the vines cover the ground, and pinch the ends of the growing shoots to induce early fruiting. Ashes, lime, or even dry road dust, is excellent to sift over young plants when the dew is on, to prevent the attacks of insects. A few hills for early use may be had by sowing in hotbeds, on pieces of sod or in pots. The seed may also be started out of doors under hand frames or in glasses. It is quite important that the proper soil be selected for growing Cantaloupes.

16. **"Junior" Rocky Ford.**—A little larger, two weeks earlier, twice as prolific as Rocky Ford. (Specialty, see page 13.) **Pkt. 10c. Oz. 25c. 1/4 Lb. 65c. Lb. \$2.50.**

167. **Eden Gem Cantaloupe.**—New melon most carefully developed at Rocky Ford, Colorado. Green fleshed and a fine shipper. (Specialty, see page 13.) **Pkt. 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.**

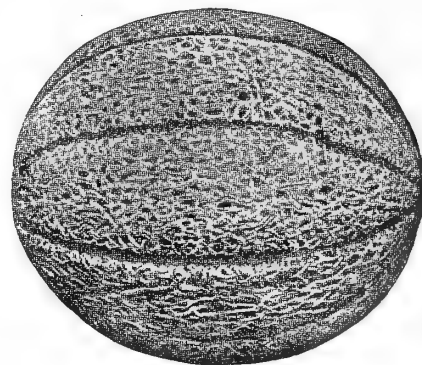

33. **Black Cantaloupe.**—Recommended highly by Colorado experimental station, it is developed to resist blight. (Specialty, see page 13.) **Pkt. 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

157. **Rocky Ford Cantaloupe** (Colorado Grown.) (Specialty, see page 13.) **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.**

158. **Free Lunch Cantaloupe.**—Large, yellow-fleshed, thick, firm and juicy. Melon dark green and gold in color. Should be in every home garden. Shippers should try it. **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

159. **Sweet Home Cantaloupe.**—This most remarkable, large, oblong, beautifully ribbed and netted melon possesses the Quality of Rapid Growth, maturing its large handsome fruit almost as early as the Jenny Lind. Flesh very thick, light green, and flavor sweet and luscious beyond description. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 25c. Lb. \$1.00.**

111. **Norfolk Button.**—Having obtained seed from the originators of this valued, popular melon, we are prepared to offer you an article that is true to the name and of superior quality. It resembles the Jenny Lind, but is much earlier, with very thick flesh of exceptionally delicious quality. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.**

Bolgiano's Baltimore Nutmeg Cantaloupe.

170 Is delicious in flavor, attractive in form and color; and unexcelled as a shipper. Our seed of Baltimore Nutmeg Cantaloupe is produced under a bracing, clear and invigorating climate and upon irrigated land. This insures a parent stock of the finest flavor. We recommend this Melon, and firmly believe the cash balance of every trucker will be materially increased if he grows our superior stock of Nutmeg Cantaloupe. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 lb. 25c. 1/2 lb. 40c. 1 lb. 75c.

Gentlemen:—I was very much pleased with the Rocky Ford Cantaloupe that you sold Mr. J. B. Huske of this place. They were short and thick, packed in crates better than any other variety, and brought from 50c to \$1 more on the markets. Can you book my order for 25 lbs. of this same type for the coming season? C. D. AVERETTE, N. C. July 20, 1906

180. Improved Kolb Gem.—A week earlier than Kolb's Gem; grows larger and a heavier yielder	5c	10c	15c	40c
185. Triumph Watermelon (Girardeau's Monster).—The largest melons that have ever been grown. An excellent shipper. Has a deep green color	5c	10c	15c	40c
516. CITRON.—Fruit round and handsome; used in making preserves only	5c	10c	15c	35c

175. Luscious Favorite Watermelon.—It is vigorous and productive. The outer color is very bright, being a beautiful mottled light green. The rind is thin and tough, and stands shipping perfectly; it is an excellent keeper, and improves in quality after ripening. It has an attractive shape; flesh is a light, vivid red in color, and very solid, crisp, tender, melting and sweet. The flavor is exquisite, possessing not only the ordinary sweetness, but a luscious flavor not to be found in other sorts. Every grower who gives this Melon a trial will be thoroughly convinced of its superior merits. Pkt. 5c. Oz. 10c. 1/4 lb. 25c. 1 lb. 75c.

172. Cannon Bell Watermelon.—It is enormously productive, with rich, dark green skin, remarkably uniform in size, and its shipping qualities are phenomenal. Pkt. 5c. Oz. 10c. 1/4 lb. 30c. 1 lb. 75c.
173. Cole's Early Watermelon.—Succeeding in Northern States where Melons were never matured before. The flesh is a beautiful bright red color, crisp and extremely delicate in texture. Flavor is luscious sweet and refreshing; no pethiness or stringiness. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 50c.

176. Improved Florida Favorite Watermelon.—The flesh is a beautiful clear crimson, extending to the rind. The rind is tough, making it an excellent shipper. It is beautifully striped light and dark green, and a very large yielder. The shape is oblong, the flavor is sweet and melting, making it one of the best in cultivation, both for home garden and large growers. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 45c. 5 Lbs. \$2.00.

177. Jumbo Watermelon.—Round, of large size, dark green skin, extra good quality. Pkt. 5c. Oz. 10c. 1/4 lb. 20c. 1 lb. 50c.

178. Georgia Rattlesnake.—Has gained great popularity for its large size and fine shipping qualities; shape oblong, of light green color and beautifully mottled and striped with a light shade; flesh scarlet, rind thin, very solid, and both sweet and delicious. Pkt. 5c. Oz. 10c. 1/4 lb. 20c. 1 lb. 50c.

181. Alabama Sweet.—Good size, very uniform, long dark green skin, red flesh, absolutely stringless and luscious in quality. Pkt. 5c. Oz. 10c. 1/4 lb. 25c. 1 lb. 70c.

182. Black Boulder.—Uniformly oblong in shape, very dark green skin, red flesh. Pkt. 5c. Oz. 10c. 1/4 lb. 20c. 1 lb. 65c.

217 1/2. Gloussier.—A popular Melon with Florida shippers. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 50c.

183. Black Diamond.—Large, round, dark green skin. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 45c.

184. Gray Monarch, or Long White Icing.—Skin is mottled gray color; shape, long; flesh, bright crimson; sweet, delicious flavor. A fine shipper, carrying well long distances. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 50c.

179. Blue Gem or Iceberg.—A Blue Kolb's Gem, much better in quality and a first-class shipper. One of the most popular with the Southern growers. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 45c.

186. Eden.—It is a successful cross of the Kolb's Gem and Rattlesnake, combining the good shipping qualities of the Kolb's Gem with the splendid table qualities of the Rattlesnake. Similar to the Kolb's Gem excepting it has a brighter stripe and is a little more attractive. Is becoming popular wherever grown. Pkt. 5c. Oz. 10c. 1/4 lb. 15c. 1 lb. 50c.

but add 8c to Lbs.

MUSHROOMS.

Blanch de Champignon
Seta
Champignonbrut

CULTURE.—Sow thickly during early Spring, in shallow drills, and press the earth well down. For Fall salad, sow in September, or in frames or boxes during winter.

203. **Southern Giant Curled.**—An improved variety, sweet flavor, pungent and succulent. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

204. **OSTRICH PLUME MUSTARD.** The most desirable and most ornamental Mustard.—It is distinct from any other variety now in cultivation. The plants are of vigorous growth, and the beautiful dark green leaves curve outwardly like a fine ostrich plume. The edges are as thoroughly curled and lacinated as the best double curled parsley making the leaves equally as desirable for garnishing. So attractive is the habit of growth and the feathery effect of the finely fringed leaves that this plant is quite worthy of a place in the garden as an ornamental border plant, aside from its utility as a salad or boiling green. It is more productive than any other variety from early Spring sowings, and also more stubborn in running to seed. It stands well, even during the hot summer months, while the young leaves can be cut quite as early as those of other sorts. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Mushroom Spawn

CULTURE.—Mushrooms may be grown in cellars, under benches of greenhouses, or in sheds, wherever the temperature of 50 degrees can be kept up through the Winter. The beds should be made from November to February, according to the time the Mushrooms are wanted, and it requires about two months for them to begin bearing. secure fresh horse-dung, free from straw and litter, and mix an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep and any length desired, are the proper proportions for a bed; but these may be varied. Prepare the mixture of loam and manure, making the bed in layers and pounding down each with the back of the spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way, into which put pieces of the spawn 2 or 3 inches in diameter; fill up the holes with compost, and at the expiration of a week or 10 days the spawn will have thoroughly diffused itself through the bed. Spread layer of soil over the heap to a depth of 2 inches, and cover with 3 or 4 inches hay, straw or litter. Examine bed often to see that it does not get dry. Take special care, however, when water is given that it be at a temperature of about 100 degrees.

Pure Culture Mushroom Spawn.—The superiority of Pure Culture Spawn results from the improved methods and expert judgment used in making our stock cultures, giving the following advantages: (1) All the advantages of a "Virgin Spawn." (2) Superior varieties, that is, varieties giving greater yields and better Mushrooms. (3) Complete elimination of any "chance" of having spent spawn or spawn from poor sorts.

Bolgiano's English Mill Track Spawn.—Frequent importations by us insure its being fresh and the "mycelium" alive. It comes in bricks weighing about 1 1/2 pounds, enough to plant a bed 6 square feet.

Okra, or Gumbo

Gombaud Quimbombo Safran
Pkts., Ozs. & 1/4 lbs. delivered free. Add 8c to lbs.

Culture.—Sow late in the Spring, after the ground has become warm, in drills 3 feet apart, where the plants are to remain, Thin out from 9 to 12 inches. They should be well manured. They may also be raised in pots or a hotbed, and transplanted. 1 oz. to 40 feet of drill; 10 lbs. to the acre.

198. **Perkin's Mammoth Long-Podded Okra.**—Pods shoot out from the stalk within 3 inches of the ground and the whole plant is covered with them to its extreme height. Pods are an intense green color, 9 to 10 inches long, very slim, and do not get hard. It is much sought by canners.

201. **Bolgiano's Imperial Dwarf Short Podded Okra.**—It has a dwarf, shapely, dense pod of an attractive pea-green color. The flavor is exceptionally rich. Our home canners willingly pay 20 to 25 cents per box more than any other sorts would bring.

202. **Lady Finger Okra.**—The plants are uniform in growth, and with their Hibiscus-like flowers make a pretty sight. The plants produce long, tender pods of fine round form, white and smooth.

199. **Dwarf Green Prolific Density Okra or Gumbo.**—Its green pods impart fine flavor and consistency to soups and stews, besides being palatable when stewed and served as a dish of Asparagus.

200. **White Velvet Okra.**—The pods of this distinct and beautiful new Okra are much longer; perfectly smooth, never prickly.

Onion Sets,

If to go by mail, add 10c per quart.
Plant in drills about 12 inches apart and 4 inches in the rows. They must have high culture.

These are the prices ruling in January; later on they will be higher.

Prices of Sets subject to market changes. Write us for special prices in quantity.

We annually grow thousands of bushels of the Choicest Onion Sets. The enormous increased demand which we have had from year to year has permitted us to greatly increase our facilities for growing and handling **Re-cleaned Onion Sets**. This demand is sufficient proof that our choice Re-cleaned Onion Sets are pleasing our customers and attracting the attention of their neighbors and other growers. We grow and sell more choice re-cleaned Onion Sets than any other house in the Southern States, and each year for five consecutive years we have doubled our acreage. We prefer to sell by weight because we have found by long experience that it is by far the most satisfactory, and the customer knows just exactly what he buys. Whereas if he buys by measure he will find every person has a different idea of what a bushel really is. Therefore, to always have a satisfactory understanding with our customer, we give a weighed bushel of 32 pounds.

Bolgiano's Imperial Dwarf Short Podded Okra

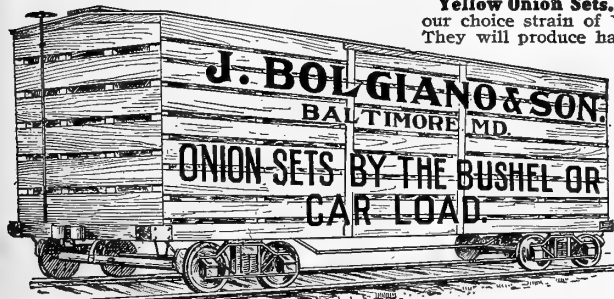

White Silver Skin Onion Sets. Choice Re-cleaned.—Grown from our choice strain of White Silver Skin or Portugal Seed. Pt. 15c. Qt. 25c. 1/2 Pk. 50c. Pk. \$1.00. Bus. \$3.50.

Yellow Onion Sets. Choice Re-cleaned.—Grown from our choice strain of Yellow Strasburg, or dutch Onion. They will produce handsome, well ripened bulbs of large size quite early in the Summer.

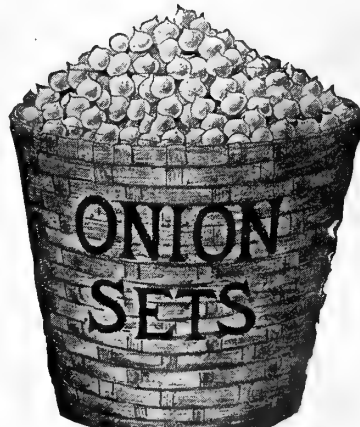

Pt. 10c. Qt. 15c. 1/2 Pk. 40c. Pk. 75c. Bus. \$2.50.

Large Red Weathersfield. Choicest Re-cleaned.—Grown from seed of our celebrated strain of Red Weathersfield Onion. One of the best red onions. Pt. 10c. Qt. 15c. 1/2 Pk. 40c. Pk. 75c. Bus. \$2.50.

MARKET GARDENERS, FARMERS, CLUBS and INSTITUTES wanting to purchase seeds in large quantities should write for special prices. Where a number of pounds or bushels are wanted, we can frequently supply at a lower price.

OIGNON - Cebolla - Zwiebel

Pkts., Ozs. & 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

CULTURE OF ONION SEED.—Ounce to 100 feet of Drill; 6 Lbs. to the Acre.—Use any good soil, preferably a rich sandy loam, previously cultivated. Fertilize liberally with rotted manure or with artificial manures. Drill in seed to depth of 1/2 inch, at the rate of 4 or 5 pounds to the acre for large Onions; 60 to 80 pounds per acre for Sets, or use Sets at the rate of 6 to 10 bushels to the acre, or start Onion Seeds in frame, under glass, and transplant to open ground 3 inches apart in the row. This excellent plan is often referred to as the "new Onion culture." Onions are quite hardy and may be planted early. The soil may be used year after year, without rotation of crops, if well fertilized annually. Winter storage demands dryness, coolness, good ventilation and freedom from sudden changes. Spread 18 inches of straw on barn or garret floor, then 6 to 10 inches of Onions; then 2 feet of straw; or keep on shelves in a dry, cool cellar. Set large Onions in open ground in September; protect with litter during Winter.

105. **Bolignano's Wonderful New 1907 Onion.**—The largest and quickest growing Onion that will make large Onions from seed in one season. Be sure to give it a trial. (Specialty, see page 17.) **Oz. \$1.00.**

214. **White Silver Skin Onion.**—(Specialty. See page 23.) *** Pkts. 5c & 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 50c. Lb. \$1.50.**

205. **Mammoth Prize-Taker Onion.**—(Specialty. See page 23) **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. 1/2 Lb. 75c. Lb. \$1.50.**

206. **Bolignano's Superior Yellow Globe Danvers Onion.**—Has handsome form, with very thick bulb and small neck; very early; enormous cropper; keeps perfectly, and is a market favorite of large size; remarkably solid and heavy; is one of the safest, surest keepers. **Pkt. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

207. **Southport Large Red Globe Onion.**—Produce large, handsome, globe-shaped bulbs from the seed the first season; are excellent keepers; have glossy purplish-skin; mature a little later than Red Wethersfields. Fine grained, mild and tender. **Packet 5c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**

208. **Southport Large White Globe Onion.**—Produced from seed the first year. Flesh firm, fine grained, of mild flavor; an excellent keeper; has beautiful form and clear, white skin. **Packets 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**

209. **Southport Large Yellow Globe.**—Produces bulbs more perfectly globe-shaped and larger than Globe Danvers, but later in ripening; excellent keeper; easily grown from seed the first year, has a beautiful, pale, straw colored skin; is a heavy cropper, handsome in appearance, large size. **Pkt. 5c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**

511. **Large White Portugal.**—The standard large flat variety. **Pkt. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

213. **Mammoth Silver King.**—The large bulbs are of attractive form, flattened but quite thick through; the average diameter is from 5 to 7 inches; single bulbs often attaining a weight of from 2 to 3 pounds each. The thin skin is a clear, silvery white; flesh snow white, sweet and tender. They grow quickly and mature quite early. **Pkt. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

210. **Extra Early Pearl Onion, or White Queen.**—Finest American Seed.—Enormous size; grows full-sized roots from seed the first season; skin pure white waxy color, flesh snowy white, delicate and tender. Often grow 6 inches in diameter and weigh 3 pounds; valued as a very early sort. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.40.**

211. **Extra Early Long-Keeping Australian Brown Onion.**—Solid and most attractive.

Produces good-sized Onions weeks earlier than the Red Wethersfield. Skin is a clear amber brown. **Pkts. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

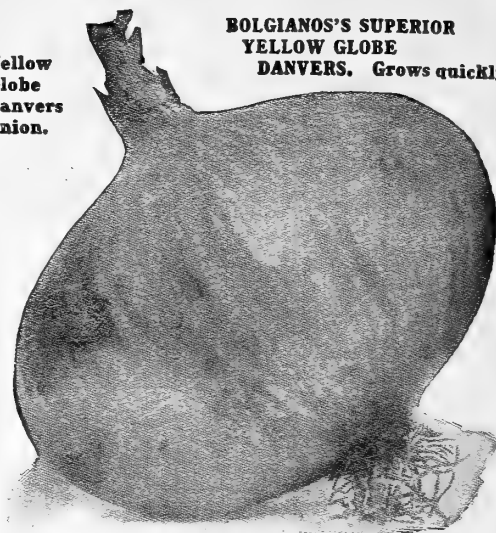

212. **Red Wethersfield Onion.**—This is the most beautiful, large, handsome, globe-shaped red Onion. Earliness, productiveness and keeping qualities. It has perfect form, skin deep purplish-red; flesh purplish-white; fine-grained; produces enormous crops of enormous Onions. **Pkt. 5c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.40.**

215. **Bolignano's Yellow Dutch or Strasburg.**—Grows round, plump sets. Skin a bright attractive straw color. Full-sized Onions are somewhat flattened; mild flavor, excellent keepers and shippers. It is very productive. **Pkt. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

216. **Round Yellow Danvers.**—Is the same shape as the White Silver Skin. Brownish-yellow color; bulbs quite flat and of good size; largely grown for sets. They are harder than the white, and keep better through the winter. In the Southern States they can be planted in Autumn and will continue growing during the entire Winter. **Packet 5c. Ounce 15c. 1/4 Lb. 50c. Lb. \$1.50.**

Pteridille.

To preserve in winter, transplant to a light cellar or cold frame. 1 oz. will sow 200 ft. of drill; 6 lbs. to the acre.

221. **Bolignano's New Green Mountain Triple Parsley.**—(The best on earth.) (Specialty, see page 6.) **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.**

222. **Market Gardeners' Best Triple Curled Parsley.**—Plants of a robust and free growth, and is improved by severe cutting; leaves large, beautifully curled; very dark green; stands the heat, drought and cold better and will yield double that of any other sort. Appearance of the plant is very handsome. **Pkts. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

223. **Extra Dark Moss Curled Parsley.**—The large moss curled leaves are set so closely that the form of the plant is almost semi-globular, of a rich dark green color and very productive. **Packet 5c. Ounce 10c. 1/4 Lb. 15c. Lb. 45c.**

224. **Plain or Single Parsley.**—Hardest variety; foliage very dark green, plain leaves, having a very strong Parsley flavor, and much preferred in French cooking. **Pkts. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.**

CULTURE.—Sow as early in the spring as the ground can be worked, in rich soil, in drills 18 inches apart. The ground should be well and deeply dug. Thin to 6 or 8 inches in the

CULTURE.—Soak the seeds a few hours in luke-warm water, and sow early in Spring, and until the middle of July, in drills 1 foot apart. Thin out the plants to 4 inches.

Peas.

Pois

Chicharos o Guisantes

Erbfen

CULTURE.—A week may be gained by sowing a quantity in moist sand placed in a box in the cellar, and planting outside when well sprouted. Light, dry soil, not over rich, suits the Pea. Sow as early as the ground can be worked, and again every ten days for succession. Peas may be sown as late as the 20th of August. Medium and late Peas must be planted early; Extra-Earlies may be planted again in August. Sow in single or double rows, from 4 to 6 ft. apart, according to the different heights, about an inch apart in the row, and 4 inches deep. Hoe often, and keep the ground clean and fine. The tall sorts can be made to bear more freely by pinching in. The dwarf variety may be grown in beds like bush beans, with rows about the same distance apart.

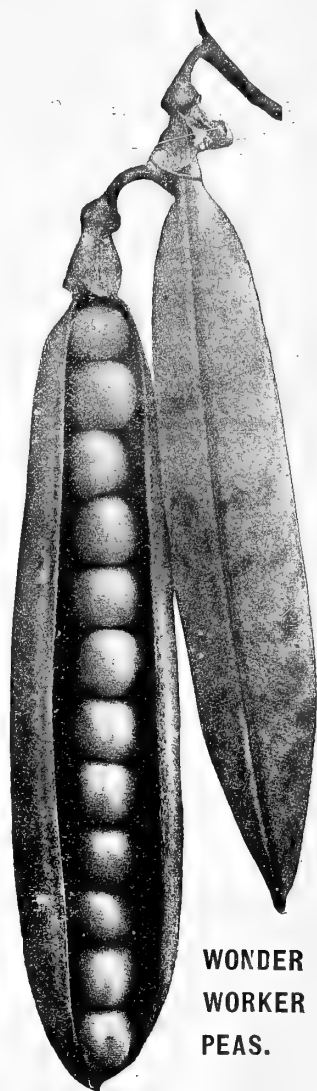

Those marked with a star(*) are wrinkled marrows, and unless otherwise stated should be shown thicker than the round Peas, and not until the ground has become warm as they are more liable to rot. They are the finest flavored of all peas.

We supply Packets of peas at 5c & 10 cts. postpaid

Add 3c to Pts. and 15c. to Qts.

1076. French Canner Peas. —A little later than the Extra Earlies, prolific	3½ ft.	10c	15c	40c	75c	2.50
1077. Improved Sugar Marrowfat Pea. —Its luxurious growth and abundant, large and handsome pods reward cultivation. It is grown extensively by the largest Truckers. Fine variety for home garden, as it is early and easily grown.	3 ft.	10c	15c	40c	75c	2.50
1083. Bolgiano's Wonder Worker Pea. Earliest Extra Early Wrinkled Pea. —Most profitable for Growers and Shippers. Unequalled for Home Garden. (Specialty, See Page 8.)	3 ft.	25c	40c	1.25	2.50	10.00
1072. Gradus, or Prosperity Peas. —Gradus is in condition to pick about 4 days after our Extra-Early Triumph. The pods are very large and well-filled with large wrinkled deep green peas of finest quality.	3 ft.	20c	30c	90c	1.75	6.00
1078. Thomas Laxton. —A cross between Gradus and one of the extra-early sorts. It ripens within a day or two of the earliest round varieties.	1 ft.	15c	25c	80c	1.50	6.00
1080. Nott's Excelsior Pea. —The very best short vine, wrinkled extra early Pea. Vines are more vigorous and taller than the American Wonder, and the pods are ½ larger, containing often 6 to 8 large Peas, closely compact together, and for sweetness and quality has no equal	1 ft.	15c	30c	75c	1.35	5.00
1081. American Wonder. —It is of dwarf and robust habit, growing from 10 to 15 inches high, and produces a profusion of good-sized and well-filled pods of the finest flavor	1 ft.	15c	25c	75c	1.35	5.00
1084. Premium Gem. —Early; straight pods, well-filled	1 ft.	15c	25c	75c	1.35	4.00
1082. Bolgiano's Extra Early Nonpareil Pea. —It is used by many of our Southern customers. The entire crop can be had in a single picking, and its beautiful green pod retains its color in freshness longer than other sorts. It is an abundant cropper and the pods good-sized. It suits long-distance shipment.	2½ ft.	10c	20c	50c	90c	3.50
1181. Large White Marrowfat Peas.	3 ft.	10c	15c	40c	65c	2.50
510. Blackeye Marrowfat.	5 ft.	10c	15c	40c	65c	2.50

WONDER
WORKER
PEAS.

EARLY AND MEDIUM PEAS.

	Height	pt.	qt.	4 Qts.	pk.	bus.
1089. *Bolgiano's "CRACKER JACK" Pea. —It's what the name expresses. (Specialty, See Page 8.)	2½ ft.	15c	25c	75c	\$1.50	\$6.00
1090. *Dwarf Giant Podded Prolific Green Marrow Pea. —Bears enormous, handsome pods 7 to 8 inches in length, filled with large, deliciously flavored deep green Peas, top to bottom; they require no support owing to their fine dwarf, stocky habit.	2 ft.	15c	25c	65c	1.00	4.00
1091. *American Champion Pea. —It is one of the largest of Peas, enormously productive, and its flavor and quality closely approach that of the well known Champion of England; pods produced in pairs are well-filled, containing from 9 to 12 large Peas; of branching habit, should be sown thinly.	4½ ft.	15c	25c	75c	1.40	5.00
1092. *Shropshire Hero. —Very productive; fine flavor; long, handsome pods.	2½ ft.	10c	15c	50c	90c	3.50
1093. *Champion of England. —A well known, standard variety; sow thickly.	5 ft.	10c	15c	45c	80c	3.00
1085. *Telephone Improved. —Robust Habit. A single vine produces from 18 to 20 unusually long well-filled pods of largest size, containing 10 to 12 Peas, often forming a double row; of fine flavor.	5 ft.	10c	20c	60c	1.00	3.50
1086. *Daisy or Dwarf Telephone. —Plants stout, self-supporting, heavy cropper of large, bright green filled pods containing 7 to 9 Peas, tender and luscious flavor.	1 ½ ft.	15c	20c	75c	1.40	5.00
1094. Dwarf Champion. —A dwarf-growing Champion of England. In warm soils and locations, will give better results than the old strain. Vines are strong, short-jointed and stocky in growth, setting large pods very freely. The pods are three inches in length, round and well-filled to the end. The foliage is not so large and dense, hence less liable to mildew during hot weather.	2 ft.	15c	25c	65c	1.10	4.00
1096. *Horsford Market Gardener Peas.	Pt.	Qt.	4 qts.	Pk.	Bus.

BOLGIANO'S FAMOUS PROSPERITY POTATOES

RADISH.

RADIS ET RAVE
Rabanosy Rabanitos
Radiesund Rettig.

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.
6 Ozs. of Seed will plant 100-yard Row.

Culture.—Sow as soon as the ground is dry in the spring, in rows 8 to 12 inches apart, every week or ten days for a succession, up to the middle of June, after which they are but little used, unless a cool northern spot can be had, where the ground is shaded during part of the day. They should be sown in light, rich soil, as a crisp Radish cannot be produced in heavy soils. Sow also in early fall for late crops and winter use. Sow 8 to 12 pounds to the acre. Radishes should be eaten when quite small; it is a mistake to let them grow too long and too large. This applies particularly to Ruby King and small turnip-shaped sorts.

EARLY ROUND AND OLIVE SHAPED VARIETIES.

230. **Bolgio's Extra Early Ruby King Radish.**—The best of all. (Specialty, see page 22.) Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

231. **Scarlet Turnip White Tip Radish.**—Round, bright scarlet, with attractive white tip; matures in 25 days. (Specialty, see page 22.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.

232. **Bolgio's Scarlet Globe Radish.**—It has a rich scarlet color, faultless shape, and matures in twenty days. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

233. **Lexington Market Money Maker.**—The best early round white Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

234. **Pick's Scarlet Globe Radish.**—A leader among bright round Red Radishes. Quick maturing, extremely attractive, short tops, solid and fine flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

235. **Felton's Model or Philadelphia White Box Radish.**—Handsome and early with fewer short leaves, hence can be sown thickly in the row. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

236. **BOLGIANO'S CRIMSON KING.**—Double the size of the ordinary early turnip-shaped Radishes, this one often measuring 6 to 7 inches in circumference, remaining solid, firm, tender; white and of mild flavor; the shape varies between round and oval; adapted for either open ground or forcing. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 75c.

237. **Prussian Globe Radish.**—It is a GLOBE shape, of a crimson color, short top, and will stand forcing without becoming pethy. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

238. **Crimson Giant Forcing Radish.**—Originators Stock Seed.—This is an entirely new variety, suitable for forcing or early out door planting. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

239. **Bolgio's New White Olive Radish.**—It has short tops, rapid growth, perfect olive shape, extra fine quality. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

240. **French Breakfast Radish.**—Quick growth; mild; tender; good for forcing. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

241. **Snowball.**—Earliest round, white, solid; attractive when bunched with red Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

242. **Hait's Favorite Forcing Extra Early Radish.**—The great value of this famous Radish lies in its availability for forcing under glass. It is also largely used for field culture. It is perfect in both shape and color, the skin being a bright, transparent red, and owing to an unusually small top many bunches may be put in a single package. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

243. **Improved Early Long Scarlet Short Top.**—For earliness, brilliancy of color and shortness of top it cannot be surpassed. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.

244. **Bolgio's New Glass Radish.**—(Specialty, see page 22.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

245. **Cincinnati Market.**—This is a fine strain of the Long Scarlet Short Top Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

246. **Bolgio's Extra Early Long White Pearl Forcing Radish.**—(Specialty see page 22.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

247. **NEW WHITE ICICLE RADISH.**—This distinct new Radish, introduced from Germany, is one of the finest and longest of the very early pure white varieties. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

248. **Lady Finger or White Vienna.**—Long, white, very early, attractive, excellent seller. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

249. **Bolgio's New White Delicacy.**—This charming Radish has a beautiful form, an exceptionally clear, bright, waxy appearance, exceedingly smooth, delicate, crisp and tender, makes it the most salable, half-long white Radish. It has short tops, does not become woody. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

SUMMER AND AUTUMN VARIETIES.

250. **New White Strasburg Radish.**—The most popular Summer Radish; of oblong shape, tapering to a point. Skin and flesh are pure white, almost transparent; very tender; of a delightful pungent taste. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

251. **New White Chartier Radish.**—A white form of the well-known Chartier or Shepherd Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

252. **Large White Summer.**—Deliciously mild and sweet. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.

253. **Giant White Stuttgart.**—An immense white summer Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

254. **Chinese Rose Summer Radish.**—It stands the hot, dry weather without becoming pethy or shooting to seed. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

255. **Golden Globe Summer Radish.**—Grows quickly to a fair size, and withstands heat and drought remarkably well. Of excellent flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

256. **Chartier, or Shepherd.**—Long red Radish with a white tip. Beautiful for bunching. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.

WINTER VARIETIES.

257. **New Short White Chinese Celestial Radish.**—The best of all winter Radishes. (Specialty, see page 22.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

258. **Chinese Rose Winter.**—The best Red Winter Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

259. **Round Black Spanish Winter.**—Extremely fine stock. Packet 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

260. **New Winter Radish Osaka.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

261. **Long White Spanish Winter.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

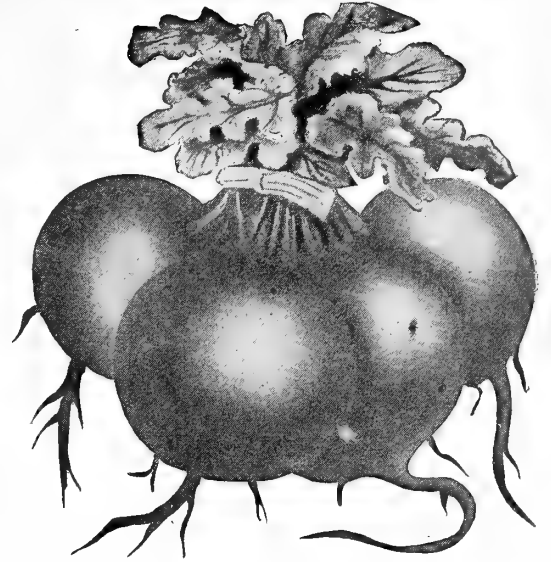

262. **Round White Spanish.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

263. **Long Black Spanish.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

Horse Radish Roots. The best variety is produced from small pieces of roots 4 or 6 inches in length. These small roots will produce good radish fit for use in one season's growth. Plant the set small end down, where the slanting cut is, so that the top will be 2 inches under the soil, and in rows or furrows 2 to 8 feet apart and 15 to 18 inches apart in the rows. The soil should be very rich and well cultivated. It is hardy and may be left in the ground until Spring before digging. A part of the crop may be pitted late in the Fall if desired. A dozen roots will give all that will be needed for family use; as it constantly increases, it is best to plant it in some out-of-the-way corner of the garden. By mail (postpaid), Each 5c. Doz. 25c. 50 for 60c. 100 for 90c. By express (not paid), 100 for 50c. 300 for \$1.50. 500 for \$2.40. 1000 for \$4.50.

RHUBARB ROOTS. VERY FAMILIARLY KNOWN AS THE PIE PLANT.

Victoria.—A good market sort. Stalks red. Pkts. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00. Roots 15c each. 4 for 50c, postpaid. By express, Dozen \$1.50. \$5.00 per 100. **Linnaeus.**—An early variety. Stalks green, large and tender. Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.

230. BOLGIANO'S SCARLET GLOBE RADISH. EARLY LONG VARIETIES.

Gentlemen:—You can look for a large order from me for Spring planting; I do not plant much Fall truck. I have been using your seeds now for several years and can say I have always found them good and your prices lower than any of other houses I have dealt with. July 28, 1906. L. A. ANGER, Fla.

Gentlemen:—Your seeds have always given satisfaction, and will order from your house as long as I plant. J. M. CANTY, Fla. July 24, 1906.

Gentlemen:—I had good success from all seeds I have ordered from you. B. Y. LLOYD, Texas. May 10, 1906.

250. BOLGIANO'S NEW GLASS RADISH

SQUASH

Pkts., Ozs. and 1/4 Lb. delivered free, but add 8c to pounds.

1 Oz. Bush Variety for 40 Hills; Large Seeded Varieties, 15 Hills;
2 to 3 Lbs. Bush, 3 to 4 Lbs. Large-Seeded per Acre.

Culture.—Sow in hills in the same manner and at the same time as Cucumbers and Melons, the bush varieties 3 to 4 feet apart, and the running kinds from 6 to 9 feet apart.

BUSH VARIETIES. 264. **Bolgiano's Extra Early Dawn** bush squash. (Specialty, see page 24.) Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 25c. Lb. \$1.00.

COURGE.
Calabaza.
Specfe
Kurbis.

273.—Bolgiano's
Superior Stock
Boston Marrow
Squash.

Gentlemen:—We have just received the seed, and are well pleased with them, as they are the fullest papers ever bought from any of the seed growers, and we will send you another order with this. Yours very truly,
March 7, 1906. C. CAMP, Malakoff, Texas.

RUNNING VARIETIES.

268. **Delicious.**—Green skin, orange flesh; very fine-grained, sweet and dry; excellent for pies. (Specialty, see page 24.) Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 75c.

272. **Early Prolific Orange Marrow.**—(Specialty, see page 24.) Quite distinct; very early, and most delicate flavor; for fall or suitable winter. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

270. **The New Red, or Golden Hubbard.**—Red, exceedingly showy and attractive. Flesh much richer in color than Hubbard, fine-grained, cooks very dry, of excellent flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 60c.

273. **Boston Marrow.**—Oval, bright orange; flesh yellow and fine. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

274. **Improved Winter Crookneck, or Cushaw Squash.**—Mottled green and white; flesh is yellow, solid, finely-grained, sweet; excellent for pies. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

PUMPKIN.

POTIRON. Calabaza. Grose Kurbis.

Culture.—May be planted middle of spring, among the Indian corn or in the field or garden, in hills 8 or 10 feet apart each way, four seeds in a hill. In other respects are cultivated in same manner as melons and cucumbers. Early planting them near other vines. 2 pounds to the acre.

225. **Sweet Potato Pumpkin.**—Finest variety for table use. Pkts. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 50c.

1069. **Connecticut Field, or Large Yellow Pumpkin.**—Excellent for stock feeding. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 25c. 5 Lbs. 75c.

SALSIFY, OR OYSTER PLANT.

SALSIFIS.

Ostion Vegetal.

Wasserwurzels.

Culture.—Sow as early as the ground can be worked in the spring, in drills 12 inches apart, 1 inch deep, and thin out to 6 inches in the row. Keep them free from weeds. Cultivate the same as for carrots and parsnips. A part of the crop may be left in the ground till spring, when it will be found fresh and plump. The roots are cut into pieces 1/4 inch long, boiled until tender, and then served with drawn butter, in which way it is a delicious vegetable. They are also mashed and baked like parsnips, and have a sweet, agreeable flavor. Mashed and fried, the flavor is much like that of the oyster. Sow 8 to 10 pounds to the acre.

275. **Bolgiano's New "GREAT GIANT" Salsify.**—The best Salsify to grow. (Specialty, see page 25.) Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

276. **Sandwich Mammoth White Salsify.**—Superior in quality, pure white color, very meaty and fine flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.

504. **LARGE WHITE.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.

Mr. T. S. Slack gave me your address, and told me you were a good firm to deal with.
Jan. 10, '06. T. L. Berry, Va.

276.—SANDWICH MAMMOTH WHITE SALSIFY.

SPINACH.

1106. **New Improved Curled Long Standing.**—The very best for spring planting. (Specialty, see page 25.) Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 25c. 5 Lbs. 75c.

1107. **New Victoria Spinach.**—The foliage is heavy, the broad, dark green leaves are of the finest quality. Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 25c. 5 Lbs. 75c.

1105. **Curled-leaved Savoy, or Bloomsdale, American Grown.**—Large curled and wrinkled leaves; tender and of the finest flavor. Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 20c. 5 Lbs. 75c. 25 Lbs. \$2.50/ 100 Lbs. \$10.00.

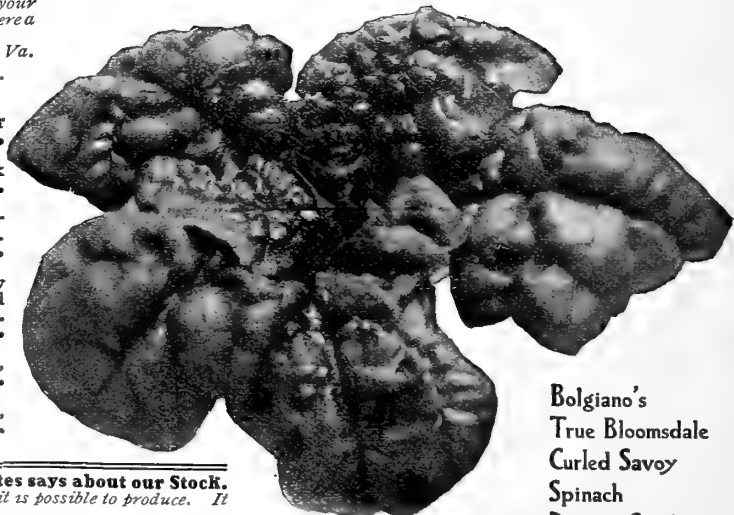

1104. **Curled-leaved Savoy or Bloomsdale, Imported.**—We grow many thousands of pounds of both the American and Imported seed each year. Our private stock is the choicest it is possible to produce. We take no chance; why should you? Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 20c. 5 Lbs. 60c. 10 Lbs. \$1.00. 25 Lbs. \$2.00.

1108. **Long-Standing Thick-Leaved Spinach.**—The leaves are large, thick, fleshy and crumpled, fully equal to the Savoy-leaved. Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 12c. Lb. 20c. 5 Lbs. 60c.

1109. **Monstrous or Viroflay.**—A valuable variety; has large, round, thick leaves. Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 20c. 5 Lbs. 60c. 10 Lbs. \$1.00.

What One of the Largest Spinach Growers in the United States says about our Stock.
"Your Bloomsdale Curled Savoy Spinach is as Pure and True as it is possible to produce. It is so good, I will plant my entire crop in it next season."

TOMATO SEED

TOMATO
TOMATES
Liebesapfel

FROM BOLGIANO OF BALTIMORE PRODUCE THE BEST TOMATOES THAT GROW

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to pounds.

CULTURE.—Sow in a hot bed in early spring, or the seed may be sown in shallow boxes and placed in a window, when one does not wish to have the trouble of making a hot bed. Transplant to the open ground when all danger of frost is past, setting the plants 3 or 4 feet apart each way. Fruit may be had several weeks earlier by sowing seed quite earlier and transplanting to small pots.

J. Bolgiano & Son.

I planted your Wealthy Tomato last year, and grew 1 crate from every 2 plants, I do not want any better.

MARK ZILL, Fla.

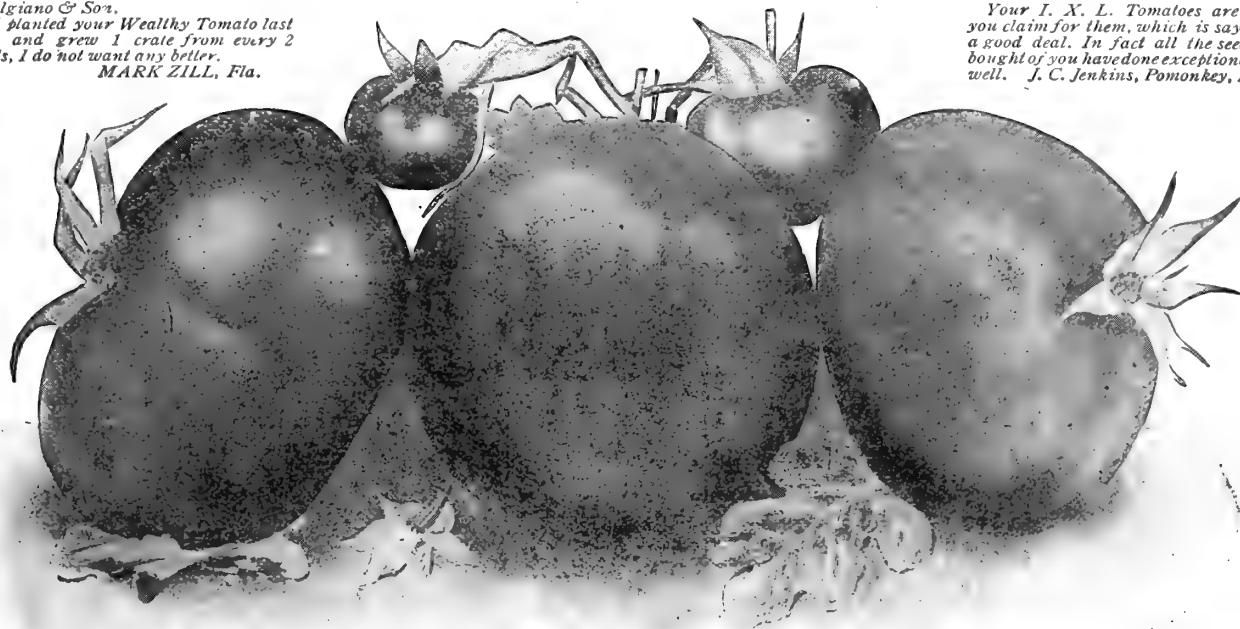

Messrs. J. Bolgiano & Son.

Gentlemen:—The "Wealthy Tomato" you sent me came all right, and I was greatly pleased with them. This year I bought my seed from a local dealer, and the Tomatoes were rough and knotty, and not satisfactory, and I had to throw away about half.

Yours very truly,

W. E. TATE, Ala.

Your I. X. L. Tomatoes are all you claim for them, which is saying a good deal. In fact all the seeds I bought of you have done exceptionally well. J. C. Jenkins, Pomomkey, Md.

BOLGIANO'S EXTRA EARLY WEALTHY TOMATO.

277. **Bolgiano's Extremely Early I. X. L. Tomato.**—(Earliest, largest, most prolific.) (Specialty, see page 3.) Pkts. 10c and 25c. Oz. 75c. 1/4 lb. \$2.50. Lb. \$8.00.

279. **Bolgiano's "Greater Baltimore" Tomato.**—Made a fine crop when all others failed. (Specialty, see pages 4 and 5.) Pkts. 10c and 25c. Oz. 50c. 1/4 lb. \$1.50. Lb. \$5.00.

278. **Bolgiano's Extra Early Wealthy Tomato.**—(Specialty, see page 9.) One of the earliest of earlies; smooth, firm, delicious flavor, beautiful red color, and an abundant yielder. Pkts. 10c and 25c. Oz. 50c. 1/4 lb. \$1.25. Lb. \$5.00.

311. **Florida Special Tomato.**—Early, prolific, blight proof. (Specialty see page 7.) Pkts. 10c. 1/2 Oz. 25c. Oz. 40c. 1/4 lb. \$1.35. Lb. \$5.00.

287. **Chaik's Early Jewel.**—(Specialty, see page 7.) Very fine new sort; large, solid, smooth, bright red; similar to the Stone, but early. Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 75c. Lb. \$2.50.

286. **Sparks Earliana Tomato.**—It is remarkable for its earliness, very large size, handsome shape and bright red color. Its solidity and fine qualities are equal to the best medium and late sorts. Pkt. 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.75.

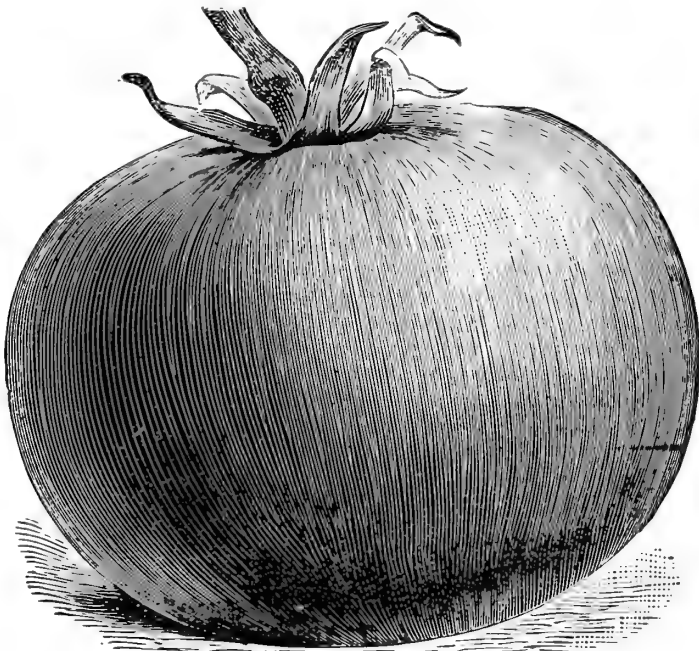

283. **Bolgiano's New Century Tomato.**—Deep Red color; large handsome size from first picking until last Tomato is taken from the vine. (Specialty, see page 7.) Pkts. 5c & 10c. Oz. 25c. 1/4 lb. 75c. Lb. \$2.50.

284. **Bolgiano's Best.—The Great B. B. Tomato.**—(Specialty, see page 9.) It has every good quality pertaining to the Tomato and avoids all faults of other sorts. One of the smoothest, most solid, heaviest and most handsome Tomato grown. The B. B. is as solid as an apple, has no core and the flavor is excellent. It weighs more pounds per bushel than other sorts which proves its solidity; has a beautiful red color, the fruits are quite large. There is no need of a field of poor Tomatoes when fifty cents will buy enough to supply plants for one acre. Used successfully for early and late crops. Pkts. 5c & 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.

280. **Bolgiano's Prize-Taker Tomato.**—If picked while yet green it ripens gradually into a rich, glossy, crimson color, and this makes it one of the best shippers for early market. It is smooth, solid, large and heavy, and holds the size from the first to the last of the crop. Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.

281. **Redfield Beauty.**—It is a vigorous grower, long and heavy yielder; fruit is perfect shape with a skin that is hardy, making it an excellent shipper. Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.

282. **Livingston's Beauty Tomato.**—Large, smooth, dark pinkish red; thick flesh. Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.25.

PKTS., OZS. AND 1/4 LBS' DELIVERED FREE BUT ADD 8c TO LBS.

DUKE OF YORK TOMATO

Of Special Value to Florida Growers. (Specialty, see page 9.)
297. One of the grandest Tomatoes recently introduced, color rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, fine flavor. It ripens its fruit uniformly together, whilst its profusion of tomatoes, averaging 8 and 10 large evenly formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is strong, healthy grower, not subject to rust or blight, is an enormous cropper and produces until the vines are killed by frost, holding its size well until the last picking. Quality the very best, solid and meaty. **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 90c. Lb. \$3.50.**

J. BOLGIANO & SON, Baltimore, Md., Oct. 16, 1905.

Gentlemen:—As far as I am personally concerned, I am showing my faith in you by the purchase of 5 lbs. of your Duke of York Tomato Seed. I assure you that I, personally, have confidence in your seeds. Yours very truly, J. T. WOFFARD, Fla.

207. **New Stone Tomato.**—We have the truest, purest, cleanest stock, free from rust and blight, of this most valuable tomato. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.**

331. **New Globe Tomato.**—(Specialty, see page 9.) **Pkts. 10c Oz. 25c 2 Ozs. 50c. 1/4 lb. 90c. 1/2 lb. \$1.75. Lb. \$3.50.**

285. **New Matchless Tomato.**—Vigorous, healthy vines are crowded with beautiful fruit of largest size and solidity. First-class shipper. **Pkts. 5c & 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.**

308. **Favorite.**—Large, smooth, productive and a good shipper **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.25.**

309. **Perfection.**—Early, regular and productive, reddish, scarlet. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.25.**

310. **Livingston's Magnus.**—A rather late-running Tomato of distinctly fine quality; the plants are of strong running growth with potato-leaf foliage. The rich, purple fruit is smooth and very even in size and set freely in clusters. **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 50c. Lb. \$1.75.**

338. **Honor Bright.**—Rich, bright red; long keeper and fine shipping sort. **Pkts. 5c & 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.50.**

312. **Paragon.**—Bright red, round; very productive. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.25.**

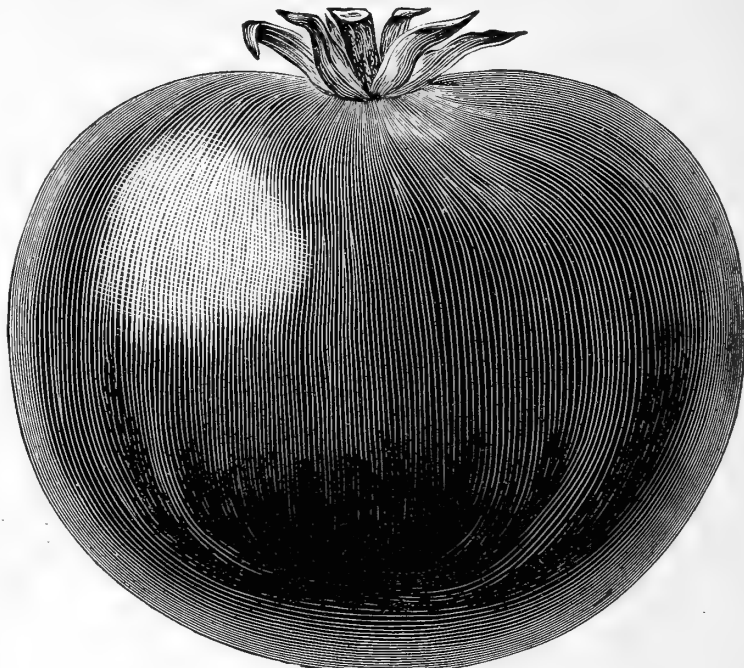

291. **Improved Acme.**—Very early, of medium size, perfectly smooth, very solid and a great bearer. Crimson color, with a pinkish cast. **Pkts. 5c & 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.25.**

302. **Kelly Red or Wade Tomato.**—(Specialty, see page 7.) **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 90c. Lb. \$3.50.**

292. **Extra Early Climax Tomato.**—Early, solid, large size and a good bearer. The vines are robust, healthy, and laden with abundance of choice marketable fruit. Same color as the Acme. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 40c. Lb. \$1.25.**

293. **Henderson's New Freedom Tomato.**—One of the best extra early Tomatoes; a prolific bearer; bright scarlet color; splendid extra early shipper. **Pkts. 5c and 10c. Oz. 20c. 1/4 lb. 65c. Lb. \$2.50.**

502. **Pondorosa.**—Very large, heavy, smooth Tomato; very fine for home garden. **Pkts. 5c and 10c. Oz. 20c. 1/4 lb. 75c. Lb. \$2.50.**

DUKE OF YORK TOMATO

294. **Dwarf Aristocrat.**—A dwarf which resembles the Dwarf Champion. The fruit is a beautiful glossy red. Ambitious growers use it for a very early first crop Tomato. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 45c. Lb. \$1.75.**
304. **Wonderful "New Glory."**—If you want to brag about what tremendous Tomatoes your garden produces, grow "New Glory" Tomatoes. Fine flavored, meaty, very few seed. **Pkts. 5c & 10c. Oz. 35c. 1/4 lb. \$1. Lb. \$3.50.**
305. **Ford Hook Fancy.**—Fine flavored, productive, medium-sized purple Tomato. **Pkts. 5c and 10c. Oz. 20c. 1/4 lb. 60c. Lb. \$1.75.**
295. **Moore's Triumph Tomato.**—An excellent second Early and Late Tomato. It has never failed to please all who have planted it. It succeeds everywhere. **Pkts. 5c and 10c. Oz. 50c. 1/4 lb. \$1.50. Lb. \$5.00**

Gentlemen:—The "Greater Baltimore" Tomato Seed came up good and are fine croppers, and excellent for table use or canning. JOSHUA H. COOPER, Pa.
Sept. 15, 1906.

My neighbor, Mr. John H. Lowe, attorney at law, grew your Great B. B. Tomato and produced 11 tons to the acre. They were the finest Tomatoes ever grown in this section. LLOYD TYDINGS, Talbot Co., Md

288. **King of the Earlies Tomato.**—(Specialty, see page 7.) It is a large extra early Tomato; an enormous yielder. The plant is a perfect mass of large, beautiful red fruit. It is the ideal "stem setter." The fruit ripens early and almost "all at once." Can be planted one-third closer than later sorts. **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 90c. Lb. \$3.50.**

296. **DAWF STONE TOMATO.**—Double size of Dwarf Champion; the Largest Fruited Upright Growing Variety in Existence. Color same as Stone Tomato. **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 75c. Lb. \$2.50.**

289. **Dwarf Champion.**—Dwarf, stiff habit, dark green foliage, scarcely needing any support. It is very early and wonderfully prolific. Color same as Acme. It is perfectly round and smooth, of medium size. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.**

290. **Atlantic Prize Improved.**—A favorite with growers who seek an early market. It bears in clusters and abundantly. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.**

299. **Bolgio's New Early Success Tomato.**—The earliest, smooth, crimson Tomato. Produces from 20 to 30 Tomatoes to a single plant. It is finest flavored on earth. **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 75c. Lb. \$2.50.**

300. **Trophy.**—Extra selected; free from roughness of the old strains. **Pkts. 5c & 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.50.**

301. **Enormous Tomato.**—Largest fruited, smooth, bright red Tomato. **Pkts. 5c & 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.75.**

303. **Crimson Cushion or Beefsteak Tomato.**—Very large, bright scarlet, fine flavor. **Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 75c. Lb. \$2.50.**

524. **Maul's Success Tomato.**—Large, red, main crop. **Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 50c. Lb. \$1.75.**

Tomato Seed From BOLGIANO OF BALTIMORE
Produce The BEST TOMATOES That GROW.

BOLGIANO'S CELEBRATED NEW QUEEN TOMATO.

306. This very beautiful Tomato, introduced by us, is now used all over the country. It is large, smooth and handsome, red color. For canning, market purposes and shipping it leads wherever grown. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.**

298. **Brinton's Best.**—As a second early and late cropper it is a favorite with canners and truckers. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.** 285 1/2. **World's Fair.**—One of the heavier, solid-fruited large Tomatoes of good quality. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.**

Yellow Tomatoes.

G. B. 2. **GOLDEN EAGLE TOMATO.**

Leader of all Yellow Tomatoes. Color a rich transparent amber, fruit smooth; fine form, and deliciously flavored. In size larger than the yellow pear-shaped Tomato, which it readily outsells. It is very attractive. **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 90c.**

G. B. 1. **Yellow Pear-Shaped.**—A pretty little Tomato, which is used largely for pickling and preserving purposes; very prolific and makes attractive appearance when the vine is loaded with ripe fruit. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**

G. B. 4. **Yellow Plum-Shaped.**—Little larger than the pear-shaped; deep yellow color; very popular for preserving. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**

G. B. 0. **Golden Queen Tomato.**—Large and good, a great show Tomato at the County Fairs. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 65c. Lb. \$2.00.**

306. BOLGIANO'S CELEBRATED NEW QUEEN TOMATO.

TURNIP 1 1/2 to 2 Lbs. to acre.

NAVET.NAVO.1kubc.

Pkts., Ozs., and 1/4 Lbs. delivered free, but add 8c to pounds.

Culture.—For early Turnips, sow as soon as ground opens in spring. No. 327 should be sown from any time in July to first of August; but the other kinds, for winter use, may be sown from the middle of July to the end of August. Turnips are generally sown broadcast, but much larger crops are obtained (particularly of the Ruta Bagas) by cultivating in drills 18 inches apart, and thinning to 6 inches in the drill. Sow in drills, one pound to the acre; broadcast, two to three pounds to the acre.

315. **Early Milan Purple Top.**—Earliest of all, white with purple top. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c. 5 Lbs. \$1.50.**

320. **White Egg.**—Oval, handsome and sweet. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.**

314. **Red or Purple Top White Flat Turnip.**—It is white below, with a bright purple top, flesh white, leaves short, narrow and erect. Will mature in 8 or 9 weeks. **Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 25c. 5 Lbs. \$1.00.**

313. **Red Top White Globe.**—The well known standard sort. **Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 25c. 5 Lbs. \$1.00.**

323. **White Flat Dutch.**—Pure white, flat strap leaf Turnip. Early; medium size; excellent quality for early spring sowing. **Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 25c.**

⁵⁰ Bolgiano's "GOLD" Brand of Clover & Grass Seed

IS THE STANDARD OF PURITY

BOLGIANO'S SPECIAL Grass and Clover Seed Mixtures

For Hay and Permanent Pastures

Our Grasses and Clover Seed Mixtures give the very best and most satisfactory results to our customers, and our trade in them is increasing rapidly. The advantage of sowing grasses and clover seed in mixtures has long been recognized and the practice is increasing to a very remarkable extent all through the South. We are the pioneer seedsmen in Baltimore in putting up special mixtures for different soils, and the results to our customers have been exceedingly satisfactory, resulting in largely increased crops both of hay and pasturage. We are always glad to give our customers the benefit of our knowledge and experience in these matters, and will take pleasure in advising them as to suitable grasses for their soils and purposes, if they will correspond with us in regard to the same.

We have in the following Mixtures combined grasses suitable for the various soils and uses for which they are recommended. Those for permanent pastures are composed of grasses which succeed each other in growth, and give a succession from the first of spring until late in winter, while for those desired more for cutting for hay, we have combined grasses which ripen together. The different mixtures are prepared both as to quantity and varieties as best adapted to the soils and situations for which they are recommended. In all of our grass mixtures we use the very best seeds only, the quality and purity of the seeds being our first consideration. The quantity handled enables us to give our customers the benefit of a very low price, even lower than if they purchased the seed separately.

MIXTURES FOR MOWING FOR HAY BUT CAN BE GRAZED.

25 Lbs. or Over of Any of These Mixtures at 100 lb. Rates.

MIXTURE No. 6.—For Light, Dry, Gravelly or Sandy Soils. Sow 30 to 35 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 7.—For Good Loam Soil. Sow 30 to 35 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 8.—For Heavy Loam or Clay Soil. Sow 30 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 9.—For Moist Bottom Land. Sow 20 to 25 lbs. per acre. Lb. 12c. 100 lbs. at 11c per lb.

MIXTURE No. 10.—Shady Nook Meadow Mixture. Like our Shady Nook Lawn Mixture, this mixture is specially prepared for good loamy soil in partial shady situations. A fine permanent pasture mixture, will yield large crops of hay. Sow 30 to 35 lbs. to the acre. Lb. 15c, 100 lbs. at 13c per lb.

MIXTURES FOR PERMANENT PASTURES BUT CAN BE MOWN.

25 lbs. or over at 100 lb. rates.

MIXTURE No. 1.—For Light, Dry, Gravelly or Sandy Soils. Sow 30 to 35 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 2.—For Good Loam Soil. Sow 30 to 35 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 3.—For Heavy Loam or Clay Soils. Sow 30 to 35 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 4.—For Moist Bottom Land. Sow 25 to 30 lbs. to the acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

MIXTURE No. 5.—For Wet Bottom Land. Sow 25 to 30 lbs. per acre. Lb. 14c. 100 lbs. at 12 1/2c per lb.

BOLGIANO'S HIGH GRADE GRASS SEED

GRASS AND CLOVER SEEDS—Are high grade, new crop seeds, carefully selected and tested, so as to be sure of supplying seeds only of first, class germination and of the best qualities that it is possible to obtain. The satisfaction which our seeds have given has caused our business in these seeds to enormously increase. Handling grass and clover seeds in the large quantities we do, enables us to supply them at the lowest prices for best quality seeds.

Prices on Grass and Clover Seed Fluctuate.—The prices named here are those ruling at the time this catalogue is printed. We will quote prices at any time, or will fill all orders entrusted to us at ruling prices at the same time order is received.

The Best Time for Seeding Grass and Clover Seeds—In the spring is from the middle of February to the middle of April. A good firm seed-bed is of prime importance, and, to secure this, the ground should be well and deeply plowed previous to seeding, if possible. It should then be harrowed and re-harrowed several times, so as to put it in first class condition. After the ground is in good tilth the seed should be carefully sown, either by hand or using a good Broadcast Seed Sower—and then cover by rolling; or, if a roller is not available, by a light or brush-drawn harrow. Rolling is, however, preferable, as it firms the soil and does not cover the seed too deep. Care should be taken not to cover the seed more than about an average of half an inch deep. Pure Animal Bone is the best fertilizer you can apply for grass and clover, it is immediate and also lasting in its effects.

1123. **TALL MEADOW OAT GRASS.** Also Called Evergreen Grass.—Our sales on this grass has rapidly increased in the last few years. Yielding twice as much hay as Timothy or Orchard Grass, early as Orchard

Grass with more leaf and affording better grazing, it is not strange that this grass is becoming so popular. It will keep green all winter and all summer; the drought of midsummers or the cold of winters does not injure it. It starts growing very early in the Spring, can be cut twice for hay, will yield good grazing until late in the Fall. It contains more flesh and muscle-forming material than timothy, but is not so fattening. For hay, it should be cut while in bloom. Tall Meadow Oat Grass is best adapted for rather light and dry loamy uplands, but gives excellent results on nearly all soils and better results than any other grass on light, medium or sandy soils. Sown alone use 1 to 3 bus. to the acre, either Spring or Fall. Sown in mixture, use 1 bus. Tall Meadow Oat Grass, 1 bus. Orchard Grass and 6 lbs. Red Clover. It gives the very best results when sown with Clover. By adding 4 lbs. of Red Top or Herd's Grass to the mixture the aftermath and grazing will be materially increased. Price, 15c lb. Choice seed @ \$1.60 bus. "Gold" Brand seed @ \$1.70 bus.

1114. **ORCHARD GRASS.**—One of the best and most reliable grasses for the Middle and Southern States, either for hay or pasturage. It succeeds well on nearly all soils, but does best on uplands, loamy or moderately stiff soils. It starts early in the spring and continues well into winter. It is of quick growth, and is relished by stock, especially when young, and bears close grazing. It makes excellent hay, and gives the very best results mixed and grown with Tall Meadow Oat Grass and Red Clover. It should be cut when in blossom, as the hay is injured if the seed is allowed to ripen. It can be sown in the spring or fall, either with grain or alone. Sow two bushels per acre if sown alone, or with Red Clover, one and a half bushels of Orchard Grass and seven pounds of Clover are the quantities usually sown. Price, "Gold" Brand, 18c lb. Bus. of 14 lbs. \$1.80. Choice seed \$1.70 per bus.

Belgiano's "Gold Brand" Clover and Grass Seed
IS THE STANDARD OF PURITY.

1122. **Meadow Fesque, Randall or English Blue Grass.**—It makes a most excellent hay and pasture grass, and is particularly valuable for fall and winter pasturage, as it remains green throughout the winter. It is a very hardy, cold and summer grass, and usually makes more and thicker leafage than any other grass. It succeeds well in nearly all sections of the South, and should be very largely used in pasturage and hay mixtures, being specially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow Oat for permanent pasturage. Sow either in the spring or fall at the rate of two bushels to the acre, if sown by itself. When sown with Red Top and Timothy, sow one bushel (14 lbs.) Meadow Fesque, 5 lbs. Fancy Clean Red Top and 6 lbs. Timothy per acre. Sown for a grazing mixture with Orchard and Tall Meadow Oat Grass, add half a bushel each of these two grasses. **Price, "Gold" Brand. Lb. 15c. Bus. of 14 Lbs. about \$1.40.**

1118. **Kentucky Blue Grass.**--An excellent pasturage and lawn grass, succeeding best on limestone land, but does well on stiff or clay medium soils. It is rather sensitive to heat, but not so to cold weather, and on this account does its best in the fall, winter and spring. It grows slowly at first, forms a compact turf, making a fine pasturage when once established. It is best, however, to combine other grasses with it for either lawn or pasturage. Sow in the fall or spring at the rate of two to three bushels per acre. **"Gold Brand" Seed, Lb. 15c. Bus. of 14 Lbs. \$1.90.** Special prices in quantity.

1120. **Native or Canada Blue Grass.**—At the Maryland Experiment Station this grass remained a luxuriant green during the hottest summer when other grasses were materially affected by the heat. Being a grass of Canadian growth it will stand the cold weather admirably. Canada Blue Grass should be tried by everyone not familiar with its excellent qualities. It is particularly well suited for mixtures. **"Gold Brand" seed, lb. 15c. Bus. of 14 lbs. \$1.25.**

1171. **Creeping Bent Grass.**—This grass somewhat resembles the Red Top or Herd's Grass in growth and appearance, and is considered by many practical men as fully equal, or even superior, to that grass. It is certainly a splendid grass, and should be largely used in lawn and pasture mixtures. It has creeping or stoloniferous roots, and spreads and holds to the soil in a very tenacious way; at same time, it easily eradicated if desired. **Lb. 25c, 10 lbs. and over 20c per Lb.**

111. **Red Top or Herd Grass**—This grass makes excellent pasturage and good crop of fine quality hay, and succeeds on a greater variety of soils than any other grass in general use, giving very good results on light soils, and the very best results on heavier, moist or low-ground soils. It is rather late in starting in the spring, and matures its crop at the same time as Timothy. Is excellently adapted for seeding with Timothy for hay, and furnishes excellent pasturage afterward. When it gets well established it spreads, and will gradually supplant other grasses. Our **Gold Brand** of the Fancy Clean Red Top is of extra fine quality, and carefully cleaned from impurities. We can also furnish the Choice and Prime Fancy Clean Red Top as usually sold. It requires about 8 to 10 pounds to seed an acre of the Fancy Clean seed. When sowing with Timothy, sow 5 pounds of the Fancy Clean seed and 8 pounds of Timothy per acre. It can be sown either in the spring or fall. **"Gold Brand" Fancy Seed, Lb. 10c. 100 Lbs. \$9.00.** Choice grade, **100 Lbs. \$8.50.** Prices fluctuate; quoted upon application.

1170. **Chaff Red Top.**—Bus. of 10 lbs. 25c. Sacks of 50 lbs. 60c. 10 Sacks, \$5.00.

1121. **English Rye Grass.**—A nutritious, permanent grass for meadows, pastures and mixing with others for lawns. "Gold Brand." **Lb. 15c. 10 lbs. or over at 8c per lb. Write for special prices in quantity.**

1172. **Italian Rye Grass.**—"Gold Brand." Lb. 12c. Bus. of 14 lbs. \$1.00.

1150. **Spring Vetches or Tares.**—Closely associated with Peas in character. Highly valuable for soil or for green manuring. Sometimes grown with oats, for mowing and feeding to stock. Use 2 or 3 bus. to acre broadcast, or 1 to 2 bus. in drills. Sow in Spring, while the ground is cool and moist, or in early Autumn. **"Gold Brand."** Lb. 10c. bu. of 60 lbs. \$3.75. 100 lbs. \$6.00.

1149. **Sand or Winter Vetch.** (*Vicia Villosa*.)—VICIA VILLOSA succeeds and produces good crops on poor sandy soils as on good land; grows to a height of 4 or 5 feet. It is perfectly hardy throughout the United States, remaining green all winter, and should be sown in the spring, mixed with oats, spring rye or barley; or during August and September, with winter rye, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting spring crops. Every dairyman and stock-breeder in the United States should have a field of it, and the more you will use it, the more you will value it. It is an excellent nutritious, palatable relish, and may be fed with safety to all kinds of stock. Sow 50 to 60 lbs. per acre with ½ bush. rye, oats or barley. **Gold Brand, lb. 15c. Bus. of 60 lbs. \$6.00. 100 lbs. \$9.00. If by mail, add 8c per lb.**

1127. **DWARF ESSEX RAPE.**—**Valuable For Cattle Sheep and Hogs.**—Under the favorable conditions Rape is ready for pasturing sheep or cattle within six weeks from the time of sowing, and an average one acre will carry from 12 to 15 sheep six weeks to two months. When on the Rape they should at all times have access to salt; but water is not necessary. As it thrives best in cool weather it should not be sown in the Southern States until September or October for winter pasture. Its fattening properties are probably twice as good as those of Clover, and for sheep the feeding value of Rape excells all other plants we know of. Sow 4 lbs. per acre broadcast, 2 to 3 lbs. per acre in drills. **10c lb. \$2.50 bushel of 50 lbs. 100 lbs. \$5.50. If by mail, add 8c per lb.**

1125. GERMAN MILLET.

German Millet, Choice Southern Grown.—Makes a large yielding and most nutritious hay crop, quick growing and easily cured. It should be seeded thickly, one bushel per acre, and should be harvested while in bloom. If the seed is allowed to form, the stalks get hard and it does not make near so good a hay. Should be sown any time between the middle of May until the end of June. It matures a crop in six to eight weeks after seeding. Our Southern grown Millet makes much better growth than western or northern grown seed **"Gold" Brand Southern Grown Millet. \$1.25 per Bus. of 50 lbs.**

1126. **Hungarian Millet Grass.**—For good low ground or rich soils, this makes even a more valuable crop than German Millet. It is considered equal in nutritive value to Timothy hay. On uplands or light soils, German Millet makes larger yields than Hungarian. Hungarian Millet should be sown from the first of May to the end of July, at the rate of one bushel per acre. **"Gold" Brand, \$1.25 per Bus.**

1173. Teosinte, one of the bushier per acre. enormous yielding, continuous cutting forage crop. Produces a continuous daily supply of most nutritious green food for horses and all kinds of cattle all through the summer. Also makes splendid dry fodder, yielding enormously and is more nutritious and even better for horses than corn fodder. Resembles Indian Corn, but the leaves are much larger and broader and the stalks contain sweeter sap. As many as 45 stalks very thickly covered with leaves have been grown from a single seed. It stalks out enormously after being cut when it is 2 to 8 feet high. Sow in May or June at the rate of 2 to 3 pounds per acre, in drills $3\frac{1}{2}$ to 4 feet apart. **Oz. 10c. 1/4 lb. 20c. Lb. 50c. Special price in Quantity.**

1124. **Red or Creeping Fesque.** (*Festuca Rubra*.)—Forms a close, rich sod and

is valuable in lawns and pastures. **"Gold" Brand, Lb. 15c. Bu. of 14 lbs. \$1.50.**
 1116. **AWNLESS BLOOM GRASS OR BROMUS INERMIS.**—Both for grazing and
 for hay it is of especial value in mixtures with other grasses. Cattle graze on it
 with relish. Sow seed in the Spring or Fall 25 to 30 lbs. per acre. **Price, "Gold"
 Brand" 15c lb. Bus. (14 lbs.) \$1.50.**

DWARF ESSEX RAPE.

Bolignano's "GOLD" Brand of Clover & Grass Seed

IS THE STANDARD OF PURITY

Grow Alfalfa WHERE IT NEVER GREW BEFORE, BY MEANS OF INOCULATION WITH Nitro-Culture

1128 ALFALFA OR LUCERNE

Alfalfa Yields Splendidly Throughout the South, Yielding 3 or 4 Cuttings Per Year, Increasing in Yield Each Successive Year.

Alfalfa ranks higher than timothy hay in feeding value. In fact, it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfalfa hay at \$20 per ton, as against timothy hay at \$12 per ton. This, with the fact that Alfalfa will, under favorable circumstances, after a good stand is secured, give 3 or 4 cuttings per year, and will easily yield, on good land, from 6 to 16 tons of splendid hay per year, shows what a valuable crop it is. Lands in the western states that are well set in Alfalfa sell readily at from \$100 to \$200 per acre; so that a crop of this kind pays for the little extra care and preparation given to secure good stands and good crops. It is better to have five acres well set in Alfalfa, by thorough preparation, than to attempt to put in ten acres without first-class preparation.

The acreage of Alfalfa is increasing very largely all over the Middle and Southern States, our farmers are fast beginning to realize what a valuable crop it is for this section. Alfalfa will succeed and do well on any good loamy, well-drained soil, but the land must be well and thoroughly prepared for the best results. The plant is rather slender when it first starts, and it must be grown under favorable conditions, in order to get ahead of the weeds and other grasses which would, under ordinary circumstances, spring up naturally and check it or smother it out.

Alfalfa should always be cut when just commencing to bloom, whether the plants be large or small. If the seed is allowed to form, the growth of the plant ceases. It should never be used for pasture, it is too valuable as a hay producer to risk injury from stock.

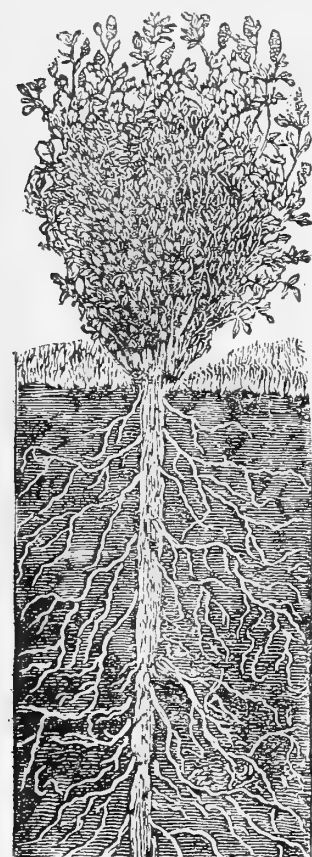

Alfalfa can be sown either in the spring or fall. The principle requirement in order to obtain good stands and good crops of Alfalfa is to sow in good, rich soil, and give thorough preparation. Alfalfa is usually sown broadcast, at the rate of 15 to 20 lbs. per acre, although some of our customers claim that thicker seedings give better crop results. March and April are the best months for seeding in the spring, and the latter part of August and during September the best time in the fall.

Our Alfalfa seed is the highest grade, strong-germinating seed, of the best and cleanest quality it is possible to procure. The quantity and germination of the seed is a prime requisite for success with this crop. Land well set in Alfalfa is better than a bank account, producing continuously increasing crops for years to come, so that it is worth a little trouble and expense to secure a first-class stand. Price of choice Alfalfa seed, **1b. 13c. Bus. of 60 lbs. \$7.80.** Price of our "Gold" Brand seed, **1b. 15c. Bus. of 60 lbs. \$8.10.** Price fluctuates. Will quote market prices at any time on request.

1129. Crimson Clover Seed, New Crop Extra Choice, The Great Nitrogen Gatherer.—The best crop for hay, foliage and green manuring, Fall, Winter and Spring pasturing. Crimson Clover furnishes an abundance of nutritive forage at seasons when pastures are dead. It is of an unfailing supply of manure. It solves the problem of cheap manuring. It is the great nitrogen gatherer and economizer in the use of fertilizers. Valuable for planting in orchards, berry patches, and for sowing among cultivated crops, such as Cabbage, Corn, Tomatoes, Tobacco. Improves poor land and restores to fertility those that have been worn down by excessive cropping. May be planted in the Spring, Summer or Fall. Splendid for re-seeding Red Clover that has been Winter killed. Sow 12 to 15 lbs. per acre. "Gold" Brand, **\$4.20 bu.** Write for prices.

1131 MAMMOTH OR SAPLING CLOVER.

Is similar to Red Clover in appearance of seed and habits of growth; the difference being larger growth and later maturing. It is often used for hog pastures as a soil improver to plow under. It is considered superior on account of its extra growth. It is a good variety for thin soils, or to seed with Timothy, Meadow Fescue or Herd's Grass or Red Top, as it matures about the same time as these grasses. Sow 10 to 12 lbs. to the acre when sown alone. When sown with Timothy, use 6 lbs. clover and 8 lbs. Timothy to the acre. "Gold" Brand, **\$8.10 bu. Choice seed \$7.95.**

ALFALFA or LUCERNE

1130 RED CLOVER. One of the most valuable farm crops, and is largely used for pasturage and hay, and is an improver of the soil. Red Clover is perennial, and will yield crops several years from one seeding, and on good land will yield two or three cuttings per year. The first crop makes rich feed, and is the most valuable for hay. The second crop does not make so good a quality feed. Red Clover should be cut for hay when in full bloom. For hay, it is particularly well adapted for sowing with Orchard and Tall Meadow Oat Grass, as it ripens at the same time, and sowing these three grasses together will give larger yields and of better quality hay than sowing either alone. It is also largely sown with other grasses, both for hay and pasturage. Information as to quantities required per acre, when sown in combination with other grasses, will be found under the heading of Orchard Grass, Tall Meadow Oat Grass and Timothy. When sown by itself, sow 10 to 12 lbs. per acre, either in the fall or spring, or at the last working of corn. Price of our "Gold" Brand Red Clover seed, the choicest and cleanest quality, **about \$8.10 per bus.** Choice quality seed, **about \$7.95 per bus.** Price fluctuates very much. We will quote prices at any time, or will fill any orders entrusted to us at as low prices as possible for first-class seed.

1133 WHITE CLOVER. This is very largely used in lawn and permanent pasture mixtures, and is indigenous to the soils throughout the Middle and Southern States. It makes a small, close, compact growth, covering the ground like a carpet. It affords excellent food for bees. Sow either in the spring or fall. When sown by itself, sow at the rate of 5 to 6 lbs. per acre. It is better, however, sown in mixture with other grasses. "Gold" Brand, **1/4 lb. 10c. 1b. 25c. 5 lb \$1.**

1113 JAPAN CLOVER. Experience with this forage plant confirms its value for the poorer soils of this and other southern states. In places where it was sown several years ago it is found spreading all over the neighborhood, along the roadsides, ditch banks, and over neglected fields; at the same time it is easily subdued by cultivation, and does not in any way prove a pest to cultivated crops. It is chiefly recommended for grazing purposes, although in the far South it yields good crops. It will succeed if sown broadcast on old pastures, broom-sedges, etc., without any preparation, and will soon spread and grow thickly all over the fields where put in, even taking the place of and driving out broom-sedge and wire grass. For sowing in woods that are used for grazing, or any where under the shade of trees where other grasses do not succeed well, Japan Clover is to be strongly recommended, as it succeeds and does better under dense shade than any other grass or Clover. All throughout the summer it makes a dense green carpet which is very attractive and desirable. It is best not to graze it too early the first season, so as to give the seed time to mature and fall, which it is constantly doing all summer from the axil of the leaves. After the first season it can be grazed at any time. We do not recommend this Clover for land that can be successfully grown in other grasses or Clover, but on waste land or poor, worn-out soils it will furnish excellent, nutritious pasturage. Sow at the rate of 10 lbs. per acre, in March or April. It does not make much showing the first year seed is sown. **Lb. 25c. Bus. of 25 lbs. \$4.25.**

The Vest Pocket Fertilizer

Remember if you want the Culture made under the direct supervision of Dr. Moore, the discoverer, it must bear this trade mark. Don't be misled and disappointment by using cheap substitutes.

1132 ALSIKE CLOVER. This is somewhat similar in growth and appearance to Red Clover, but it is hardier and stands cold weather better than Red Clover; and where conditions of soil and lateness of seeding make any possibility of winter-killing, it is advisable to sow Alsike Clover, or at least to sow it in mixture with other Clovers. It is more suited for mountainous sections than to the coast regions, and it succeeds better on stiff or clay soils than on lighter lands. It is well adapted for sowing with Timothy or Herd's Grass, as it matures with these crops, flowering a little later than the Red Clover. The blooms are not quite so large as the Red Clover, and are of light pink or flesh color. Price of our "Gold" Brand seed, **Lb. 15c. Bus. of 60 lbs. about \$8.10.**

Alfalfa.—By means of inoculation with NITRO-CULTURE, Alfalfa is now being successfully grown from the Atlantic to the Pacific and from Canada to the Gulf.

NITRO-CULTURE

BOLIGNANO OF BALTIMORE—Sells the Original Put Up Under The Supervision of Dr. Moore.

PRICE LIST.—Delivered to You.—Trial Pkge. 25c and 50c. 1-Acre, Pkge. \$1.50. 5-Acre Pkge. \$5.00. 20-Acre Pkge. \$18.00. 50-Acre Pkge. \$40.00

When ordering state what particular crop you desire to inoculate. Crops mentioned on the same line require the same Bacteria.

WHAT NITRO-CULTURE IS.—NITRO-CULTURE consists of nitrogen collecting Bacteria which work in the soil and on the roots of leguminous plants, having the power to collect free nitrogen from the air and supply it to the plants. All plants need nitrogen, which is very costly when obtained by chemical process. The remarkable increase of crop frequently reported and caused by inoculation is due wholly to the large amount of nitrogen collected from the air by the Bacteria.

Method of Using.—The Bacteria are furnished dried on absorbent cotton and can be readily forwarded by mail to any section of the country. Full directions accompany each package, which no farmer can have any difficulty in following.

BOLGIANO'S WONDERFUL NEW PROSPERITY YELLOW DENT CORN

1141. If you really want to grow a bumper crop of beautiful yellow dent corn this year, just take our advice and plant Bolgiano's New "Prosperity" Corn. Send today for a sample, it will tell you more than we can write here and tell it better. But be quick, good things don't last long, when the supply is as limited as is our supply of "Prosperity" Corn. The fine, large, stately ears are 12 to 14 inches long, 8 to 11 inches in circumference and have from 20 to 24 uniform rows of long, large kernels, well developed over tip and butt. It is a luxuriant grower, growing from 12 to 15 feet high and if planted during the first half of May will mature before the 20th of September. For more than a score of years "Prosperity" Corn has been under the most watchful and careful breeding and selection; the magnificent results more than pay for every effort put forth. The yield has been miraculous, 160 bus. or more of shelled corn per acre and it has even averaged on a number of acres planted the same year 133 bushels shelled corn per acre. During a continuous test of ten years on about 100 acres it has averaged 125 bushels shelled corn per acre. Is it any wonder we have called such a wonderful corn "Prosperity"—it don't seem possible to call it by any other name. "Prosperity" is undoubtedly the most attractive, the largest, the finest, and the greatest yielding Yellow Dent Corn ever produced. It will only be necessary for our crop of "Prosperity" Corn to be grown in a locality to insure its popularity. A farmer who grows a crop of this corn will have no difficulty in selling all he raises, as seed at high prices to his neighbors the next season. **Packets 10c. Pound 15c. Quart 25c. Gallon 65c. Peck \$1.00. Bushel \$3.50.**

Bolgiano's New "HEAVY WEIGHT" Corn.

1138. It is remarkably heavy, uniform, selected, and thoroughbred, and if you want one of the prettiest Corns you ever saw, Bolgiano's "Heavy Weight" is what you want. It has a remarkably deep, close grain. Color, deep yellow with a rather light cap. The very deep grains are dented on top. It matures in 100 or 110 days, ears average 9½ to 11 inches long and 8½ to 8¾ inches in circumference. Grains are so very closely packed that the ears are entirely covered and the butts are almost covered. Yields on the average more than 100 bushels to the acre. Ears weigh 16 to 22 ounces each. It is most excellent Corn for feeding, the grain being ¾ inch wide and over ½ inch in depth. The narrow but deep grained Corns are more readily digested by animals. **Pkts. 5c and 10c. Lb. 15c. Qt. 25c. Gal. 65c. Pk. \$1.00. 1/2 Bus. \$1.75. Bus. \$3.50.**

1139. **Mammoth Golden Beauty Corn.**—Has the largest ears of any 100-day Corn. It outyields all other Corn. The increased yield repays the cost of the seeds many times over. Growers should make sure of getting the largest yield and most handsome grain to meet competition and secure the highest prices. Ears usually average from 9 to 12 inches long and from 20 to 30 rows on the cob, some of the stalks bearing 3 to 5 ears. Then why use your poor stock any longer. It has produced 150 bushels shelled corn to the acre. **Pt. 10c. Qt. 15c. Gal. 25c. Peck 40c. Bushel \$1.25.**

1140. **Mastodon Early Dent Corn.**—The largest eared and the largest grained Early Dent Corn. It grows strong, quick and makes the finest appearing shelled Corn of them all, being purely yellow Dent. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 25c. Peck 40c. Bus. \$1.25.**

1143. **Improved Early Leaming Corn.**—Its extreme earliness, productiveness and fine quality has made it very popular with the farmers, and especially with those in the localities where the seasons are short. It produces from 65 to 90 bushels to the acre, in accordance with the quality of the soil. The ears and grains are of medium size. **Pt. 10c. Qt. 15c. Peck 40c. Bus. \$1.25.**

WHITE VARIETIES OF SEED CORN.

1145. **"Hickory King" White Corn.**—This white Field Corn has the largest grains, with the smallest cob, of any white Corn. So large are the grains and so small the cob that on an ear broken in half, a single grain will almost completely cover the cob section. Of strong growth, the stalks take a firm hold in the ground and stand upright, resisting severe storms. It yields splendid crops on light soils, and is undoubtedly the best and most productive White Field Corn for the South. **Pkt. 5c. Pint 10c. Quart 15c. Gallon 30c. Peck 50c. Bushel \$1.25.**

1142. **Maryland White Corn.**—This very handsome Corn is the favorite of old farmers who like a big grain on a small cob. The grain is pure white, with good-sized ear, having ten rows to the cob. Used for general crop. **Packet 5c. Pint 10c. Quart 15c. Gallon 30c. Peck 50c. Bushel \$1.25.**

1146. **Early Amber Sorghum.** Furnishes a large yield of most nutritive forage, which can be fed either green or cured, and will yield two or three cuttings a year, stooling out thicker each time it is cut. It grows 10 to 12 feet high. Sow broadcast for forage at the rate of 1 to 1½ bus. per acre. When sown in drills, sow at the rate of 1 peck per acre in drills 3½ to 4 feet apart. **Pkt. 5c. Lb. 10c. Pk. 35c. Bushel of 50 Lbs. about \$1.10.**

1147. **Kaffir Corn.** Makes most nutritious feed both for feeding to all kinds of stock and to poultry. Kaffir Corn in the last few years has been generally sown with cow peas, broadcast, at the rate of a peck of Kaffir Corn to a bushel of cow peas per acre. The Kaffir Corn helps to hold up the cow peas off the ground, and thus causes a larger growth of cow peas, and both can be cut together, making an enormous yielding crop of most nutritious feed. For a forage crop, when sown by itself, Kaffir Corn should be sown broadcast at the rate of from ¾ to 1 bushel per acre. When sown for a forage crop, either by itself or with cow peas, the crop should be cut before it is headed out. **Pkt. 5c. postpaid. Lb. 10c. Peck 30c. Bushel of 50 pounds \$1.00.**

Special Price in Quantity.

EARLY ORANGE SORGHUM

1158. This variety is rapidly growing in favor wherever it is grown. Similar in growth to the Early Amber, but is claimed that it produces a heavier crop. **Pkt. 5c. Lb. 10c. Pk. 35c. Bus. of 50 Lbs. \$1.10. Price fluctuates.**

1148. **Bolgiano's Cuban Giant Ensilage Corn.**—We have thoroughly tested the Cuban Giant beside all large white grain Ensilage Varieties. Grains are pure white, very large, broad and long. Of stronger vitality than any other variety. It is the best milk producer of all Ensilage Corns, being as sweet as sugar Corn. Outyields the Red Cob Ensilage and is 10 to 12 days earlier. It is the most perfect corn we have found in our years of experience. **Pt. 10c. Qt. 15c. Pk. 40c. Bus. \$1.50.**

1179. **Blount's Prolific.**—One of the largest yielding varieties for the South, produces 3 to 6 ears white, flinty Corn to the stalk. Makes excellent Meal. Quick growth. **Pkt. 10c. Qt. 15c. Pk. 40c. Bus. \$1.25.**

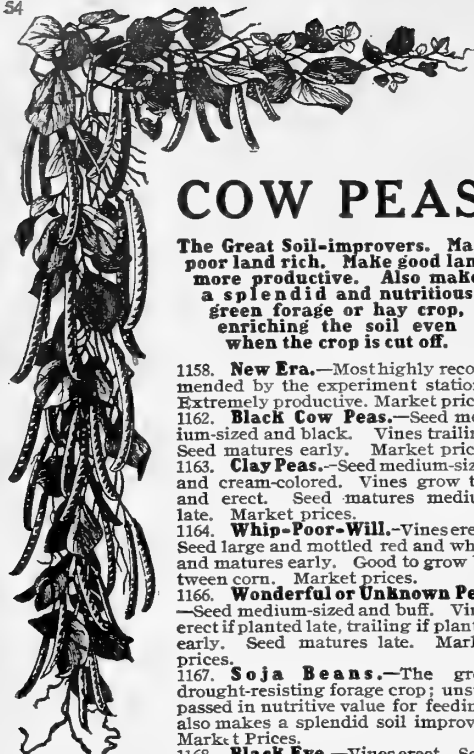

1180. **Improved Southern Snow Flake.**—Matures in 100 days, grows 8 feet in height. Produces 2 ears to the stalk. Makes Meal of the finest quality. **Pkts. 10c. Qt. 20c. Pk. 60c. Bus. \$1.35.**

1144. **Improved Evergreen Broom Corn.**—The best variety for general cultivation on account of color and quality of brush. Ripens very early, grows about 8 or 10 feet high, brush of good length, fine and straight, and always of green appearance when ripe. **Pkt. 5c. 1/4 Lb. 10c. Lb. 15c. by mail 25c. Peck 75c. Bushel \$2.50.**

1069. **Connecticut Field, or Large Yellow Pumpkin.**—Excellent for growing in corn. **Lb. 20c. 10 Lbs. \$1.50.**

BOLGIANO'S CUBAN GIANT ENSILAGE CORN

Cow-pea

COW PEAS.

The Great Soil-improvers. Make poor land rich. Make good land more productive. Also make a splendid and nutritious green forage or hay crop, enriching the soil even when the crop is cut off.

1158. **New Era.**—Most highly recommended by the experiment stations. Extremely productive. Market prices. 1162. **Black Cow Peas.**—Seed medium-sized and black. Vines trailing. Seed matures early. Market prices. 1163. **Clay Peas.**—Seed medium-sized and cream-colored. Vines grow tall and erect. Seed matures medium late. Market prices. 1164. **Whip-Poor-Will.**—Vines erect. Seed large and mottled red and white and matures early. Good to grow between corn. Market prices. 1166. **Wonderful or Unknown Peas**—Seed medium-sized and buff. Vines erect if planted late, trailing if planted early. Seed matures late. Market prices. 1167. **Soja Beans.**—The great drought-resisting forage crop; unsurpassed in nutritive value for feeding; also makes a splendid soil improver. Market Prices. 1168. **Black Eye.**—Vines erect. Seed medium sized and white, and matures medium late. Market prices.

1175. **Mixed Cow Peas.**—We strongly recommend sowing the Mixed Cow Peas as a soil improving crop. The upright growing varieties holding up the vining varieties, they will make much better and give more satisfactory results, yielding better crops of vines and more forage. They are composed of the Blacks, Black Eye, Clays, Whip-poor-wills, Wonderfuls, New Era, and Soja Beans. If once tried you will sow no others where large crops are desired. **Market Prices.**

1176. **Large Blackeye.**—The Large Blackeye Peas are more prolific, better flavored, and bring a higher price than the ordinary Blackeye, and farmers will find it more profitable to plant these than the ordinary Blackeye; they make a more profitable crop to grow for picking the dry peas for sale in our markets during the winter; at the same time make an excellent soil-improver, being similar in growth of vine and action of roots upon the soil to the Black and the Wonderful Cow Peas. While, of course, allowing the peas to fully mature, and harvesting the dried peas detracts somewhat from their value as an improver, still where parties desire to make a money crop and at the same time to improve the soil, these are especially desirable. **Market Prices.**

Mangel-Wurzel

**ROOT CROPS FOR FARM STOCK
and Sugar Beets. 4 POUNDS TO
THE ACRE.**

1151. **New Jumbo Mangel.**—For milch cows and cattle generally, the New Jumbo Mangel has no equal. It is a milk producer of the highest quality and at the same time keeps the cattle over winter in prime condition. It will outyield any other Mangel two to one. It is easy to grow, producing immense roots in great quantities, thus yielding a most profitable crop. **Pkt. 5c. Oz. 10. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.10.**

1152. **Gate Post Mangel.**—The name indicates the immense size of this fine flavored Mangel. Among the Yellow Mangel it stands superior. The milk it produces when fed to cows is of the richest character. As one experienced farmer puts it, "The Gate Post Mangel is a butter and milk producer of the first merit." If you want the best Yellow Mangel you ever grew, send for Bolgiano's Gate Post Mangel. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.10.**

1153. **Giant Red Mangel-Wurzel.**—This mammoth variety grows to immense size, 20 to 30 pounds each, of fine texture and of good quality; is remarkable for broad shoulder and massive shape of the root, by which a great weight is obtained without coarseness. In England it has produced from 60 to 75 tons of roots to the acre. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.00.**

1154. **Golden Tankard Yellow-Fleshed Mangel.**—The rich, deep yellow color of the flesh, nutritious and milk-producing qualities. In England, large dairy farmers are not only able to obtain a higher price per gallon for milk from cows fed on this Mangel but also that the cows are in much better condition. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.10.**

1155. **Improved Sugar Beets for making Sugar.**—Is a very large growing sort; used also for feeding stock. Recommended as hardy and very productive, yielding from 35 to 40 tons to the acre and containing a greater percent of sugar. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.00.**

Burt or Ninety-Day Oats.

The earliest, most prolific and surest cropping of Spring Oats; far superior to ordinary spring or rust-proof oats for spring seeding.

Wherever this Oat is grown, it speedily comes into great favor. For a spring Oat for seeding in March and April it is unquestionably the best and surest yielding of spring Oats; the advantages claimed for it being that it is earlier to mature, free from rust, healthy, clean and vigorous growth of straw, and makes a remarkably good yield of clean, bright, heavy grain. On account of its earliness to mature, it escapes the hot, dry weather which we frequently experience in June, and is, on this account, one of the surest-cropping varieties for the South. Color and appearance of grain somewhat resemble the rust-proof Oat, but it is a little lighter in color. **Bus. 80c. In 10 bus. lots and over, 75c per bus.** Special prices on large lots.

1161. **Virginia Gray Winter, or Turf Oats.**—When sown before the middle of March, these Oats will far outyield the ordinary spring Oats, making a larger crop and heavier grain. Further north than Virginia, remarkable results have been obtained from these Oats, when sown even as late as the first of May, and from the reports we strongly recommend them to our northern farmers, as we believe that they will give very much larger and better yielding crops than the spring Oats usually sown in the northern and western states. Sow at the rate of 1 1/2 to 2 bushels per acre. Price fluctuates. Present price, **Gold Brand, 80c bus. In 10 bus. lots and over, 75c per bus.**

1157. **White Spring Oats.**—Sow at the rate of 2 bushels per acre in February, March or April, the earlier the better. Price of our **Gold Brand** (heaviest and cleanest quality), about **60c per bus.**, bags included. Choice quality **White Spring Oats**, about **55c per bus.** Special prices on large lots.

BUCKWHEAT.

1160. **Japanese.**—This variety of Buckwheat ripens a week earlier than the Silver Hull, and yields more largely than that variety. The kernels are larger than those of other sorts, but, owing to its branching qualities, it need not be sown quite so thickly. **Pk. 40c. Bushel about \$1.00.**

1178. **Silver Hull.**—A prolific and favorite sort, making a fine quality of flour. A superior variety in every way to the ordinary Buckwheat, which it has almost entirely superseded. **About \$1.10 per Bus.** Current prices quoted on application.

1135. **Spring Rye.**—The straw is equally as valuable as that of the fall or winter rye, standing stiff, 7 to 8 feet high. Produces 30 to 40 bushels of grain per acre. As it does not stool like winter rye, not less than 2 bushels to the acre should be sown. **Pkt. 10c. Lb. 15c. Pk. 35c. Bus. \$1.15.**

1177. MAMMOTH YELLOW SOJA BEANS.

As a forage and feed crop, Soja Beans are proving to be very profitable and desirable. They make a large growth, stand up well, and can be cut and cured to advantage. They furnish rich feed, containing more oil and fattening properties than any other dry forage crop. Best farmers practically the only crop that furnishes a balanced ration in one crop. Our report that they do not find it necessary to feed corn or any oil foods whatever, when feeding Soja Beans. Soja Beans do equally well on both light and heavy soils. Soja Beans also make a most desirable land-improver, and there is no crop that cleans land better than Soja Beans. Soja Beans resist the drought and hot weather to a remarkable extent. For sowing for cutting as hay or forage crop, or as a soil improving crop, Soja Beans should be sown at the rate of from 1 to 1 1/2 bushels per acre. Sowing them thickly will prevent the stalk from growing too coarse, and will enable them to be cut and turned under to better advantage. When sowing for ensilage, it is better to sow in corn, at the rate of about one peck to the acre. Sowing to harvest a crop of the shelled beans, they should be sown by themselves, in drills 3 1/2 feet apart, at the rate of 1 to 1 1/2 pecks per acre, and cultivated. They will make their largest yield of beans put in this way. Market prices. Special quotations cheerfully given.

1165. **Canada Field Peas.** Under favorable circumstances it will yield more good hay to the acre than any similar crop that can be seeded early in the spring, and it makes a complete food, feeding grain being unnecessary when horses and cattle are fed oat-pea hay. These peas should be sown in January, February or early in March, at the rate of 1 to 1 1/2 bushels per acre, and the same quantity of Burt or Spring Oats. Price for best quality of peas, about **\$1.60 per Bus.**; cotton sacks, holding 2 bus. each, **18c extra.** Special prices on large lots.

Seed Wheat. We sell thousands of bushels of the best and most improved varieties of Seed Wheat every year, and our Wheats have attained a very high reputation on account of their cleanliness and superior quality. We issue during the summer a descriptive list of Seed Wheat and other seeds for fall sowing, which we shall take pleasure in mailing to any one upon request.

Culture of Cattle Beets.—They should be sown from April to June in drills 2 feet apart, and afterwards thinned out to stand 1 foot apart in the rows. Keep well cultivated, and you will have an abundant crop of roots.

BURT OR NINETY-DAY OATS.

BOLGIANO'S UNEXCELLED FLOWER SEEDS.

53

PRODUCE THE MOST BEAUTIFUL FLOWERS THAT GROW.

ANNUAL attain full growth from seed, flower and die in one year.
BIENNIALS grow from seed one year, bloom and die the next, though some varieties bloom the first season when sown early.
PERENNIALS last for several years, blooming annually after the first season, though some varieties will bloom the first season if sown early.

Large Packets 2c each, 3 for 5c. Very Large Packets 5c each, 6 for 25c, except when ounces are quoted 5c each. MAMMOTH PACKETS 10c each, 4 for 25c.

We sell large packets at a very low price, so our humblest customer may purchase and enjoy the greatest variety of Beautiful Flowers. A millionaire cannot buy better Flower Seed than these we offer, though he be willing to pay \$100 a packet.

CULTURE OF FLOWER SEEDS.

Provided the soil is in a proper state, flower seeds may be sown in the open border in the months of April and May, or as soon as the soil becomes dry and easily crumbled, after the spring frost has disappeared. They may also be sown in prepared beds of light, rich soil, and transplanted into the garden. The former is the more simple method but not always as satisfactory. The better plan is to sow all fine seeds under glass in the house, hothed or in a green-house. As to the depth to which seed should be covered, the best general rule is to cover fine seed very lightly, just enough to protect them from the sun; and in extremely dry weather a sprinkling of damp moss is very useful. With very fine seeds it is best to sow on the surface and press them lightly into the soil. We are convinced that one of the most frequent causes of failure is in sowing the seed too deep, and seedsmen are unjustly censured, when fault lies with the cultivator.

Explicit cultural directions are printed on all our packets of flower and vegetable seeds. With this help you are sure of success.

1. **ABUTILON**.—New Sorts Mixed, bushy growth; large bell shaped flowers; all colors. Flowering in the house in winter or in the garden in summer; tender perennial; 2 ft. high. **Pkts. 2c, 5c, 10c & 25c. Oz. \$5.**
2. **ACHILLEA**, *Ptarmica flora pleno*.—Double white, profusely borne summer and autumn; hardy perennial, 1 to 2 feet. **Pkts. 2c, 5c, 10c & 25c.**
3. **AGERATUM** (Perfection and Snowball).—Feathery flowers in clusters, borne continuously. Suitable for pots in winter, bedding out in summer; deep blue and white flowers in large clusters, 8 inches high. **Pkts. 2c, 5c and 10c. Oz. 30c.**
4. **ALYSSUM**, Little Gem (Sweet Alyssum or Carpet of Snow).—A favorite annual for garden-beds, edging, vases, etc. Clusters of white flowers borne profusely throughout the season; only 3 inches high. **Pkts. 2c, 5c and 10c. Oz. 25c.**
5. **SAXITALE**, *Compacta*.—Hardy spring blooming Sweet Alyssum with yellow flowers, 9 inches high. **Pkts. 2c, 5c and 10c. Oz. 25c.**
6. **AMARANTHUS**, *Candatus* (Love Lies Bleeding).—Rapid growing garden annual, with long drooping crimson flowery spikes; 3 to 5 inches high. **Pkts. 2c, 5c and 10c. Oz. 25c.**
7. **AMARANTHUS**, *Tri-color* (Joseph's Coat).—Showy annual foliage plant for gardens. Leaves red, yellow, green, etc.; 3 feet high. **Pkts. 2c, 5c and 10c. Oz. 25c.**
8. **ANEMONE**, *St. Bridget* (Mixed Colors).—Large poppy-like flowers; single and semi-double; 3 to 5 inches across. Splendid for cutting. Hardy perennial. **Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. 75c. Oz. \$2.00.**

BOLGIANO'S
13 Giant Comet Aster
MIXED.

10. **AQUELIGIA** (Columbine).—Single and double; large flowering hybrid mixture; greatly improved race of those popular hardy perennials for the garden. They form large perennial clusters of extra large flowers of the beautiful new colors and combinations; 1 to 3 feet high. **Pkts. 2c, 5c and 10c. Oz. 25c.**
11. **ARCTOTUS**, *Grandis*.—Bushy growing annual, 2 feet high. Bearing all summer large, single daisy-like flowers. 2½ inches across. White, shaded lilac zoned with yellow at throat. **Pkts. 2c, 5c, 10c & 25c. Oz. 50c.**
12. **ARISTOLICHIA**, (Elegans Dutchman's Pipe Vine).—Rapid, luxuriant, hardy perennial climber; large leaves, making dense shade; flowers yellow and brown, mottled and curiously shaped; grows 30 feet high. **Pkts. 2c, 5c, 10c and 25c. Oz. \$1.25.**
14. **ASTER**, German Quilled Giant Comet. (Rose pink flowers with quilled centers.) Various colored petals in gorgeous mixture. **Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. 40c. Oz. \$1.25.**
15. **AURICULA**.—Finest Mixed. (Primula Auricula.) Low growing spring flowering plants for borders or pots. The large, single, fragrant flowers are borne in clusters of 4 and 6 inch spikes. **Pkts. 2c, 5c, 10c and 25c. 1/8 Oz. \$1.25.**
16. **BALLOON VINE**.—Rapid growing annual climber, 10 to 15 ft. high. White flowers followed by Balloon Seed Pods. **Pkts. 2c, 5c & 10c. Oz. 15c.**

9. **ANTIRRHINUM**, *Majus* (Snap Dragon).—Giant mixture; showy border plants, flowering freely the first year from seed; 2 to 3 ft. high. **Pkts. 2c, 5c & 10c. Oz. 25c.**

17. **BALSAM**, *Double*.—(Lady Slipper.) Camella Flowered Our stock is of an unusual robust growth, putting forth a main stem about 4 feet high. The lower portion of which grows several side branches, all of which are well filled with large and double flowers of a charming variety of colors. A great improvement over the old garden favorite. An annual of easy culture and thrifty growth. **Pkts. 2c, 5c, 10c and 25c. Oz. 75c.**
18. **BEGONIA**.—Tuberous rooted varieties, producing magnificent flowers, during summer. Grown either in pots or bedded out. Mixed colors; tender perennial. 1 foot high. **Pkts. 2c, 5c, 10c and 25c. 1/32 Oz. \$1.50.**
19. **BELLIS Perennis**.—(Double Daisy.) Giant double, finest mixed colors, dwarf, hardy spring blooming plants for edging, ½ foot high. **Pkts. 2c, 5c, 10c and 25c. 1/8 Oz. 40c. Oz. \$2.50.**
20. **BIGNONIA**, *Grandiflora*.—(A Hardy Trumpet Creeper.) Clusters of large orange-red flowers, picturesquely effective on arbors, old trees, etc. Grows 40 to 50 feet. **Pkts. 2c, 5c and 10c. Oz. 25c.**
21. **CALCEOLARIA Hybrid Grandiflora**.—Large flower, spotted and mottled, self-colored, and grandest mixture. Highly prized plants for conservatory and house decorations, large satchel-like flowers of richest colors and markings, borne in profusion during the spring and summer. Tender perennial, 1½ feet high. **Pkts. 2c, 5c, 10c and 25c.**
22. **CALENDULA**.—Finest mixed double. Free and continuous flowering garden annual, 1 foot high. **Pkts. 2c and 5c. Oz. 15c.**
23. **CALLIOPSIS**.—Showy garden annual, 1 to 2 feet high, producing profusely large, flowers of brilliant shades, ranging from canary to orange-red and maroon. **Pkts. 2c, 5c and 10c. Oz. 15c.** (For perennial varieties see COREOPSIS.)
24. **CANTABURY BELLS**.—Single, double, semi-double, prize mixture. 2½ feet high, with large bell-shaped flowers. **Pkts. 2c, 5c, 10c and 25c. Oz. 40c.**
- BOLGIANO'S GIANT STOCK OF SIMPLES BRANCHING ASTERS.**—5 10c pkts. for 25c. These grow 2 to 3 feet high, and branch very freely, the flowers being of the largest size (2½ to 4 in. across, and each furnished with a long stiff stem, rivaling the Chrysanthemum both in size of flower and length of stem. These furnish the latest supply of Asters: 131 White, 132 Lavender (Azure Blue), 133 Shell Pink, 134 Crimson, 135 Indigo Blue. **Price, any color, Pkt. 2c, 5c, 10c and 25c. Oz. 75c.** 136 Mixed, **Pkts. 2c, 5c and 10c. Oz. 60c.**
- BOLGIANO'S "GIANT COMET" ASTERS.**—These are the earliest to produce, fine large Chrysanthemum-like flowers; the plants grow 2 feet high, and the flowers have fine long stems. 137 White (extra fine strain), 138 Crimson, 139 Dark Violet, 140 Rose, 141 Azure Blue. **Price, any color, Pkts. 2c, 5c, 10c and 25c. Oz. \$1.50.** No. 13, 18 colors mixed. **Pkts. 2c, 5c, 10c and 25c. Oz. \$1.00.**
- TRUFFAUT'S PAEONY-FLOWERED PERFECTION ASTERS.**—For mid-season flowering we recommend these beautiful Asters; they are all stiffly erect, or upright in growth, averaging 2 feet high in good soil, and produces fine large double flowers on stiff stems of good length. 142 Snow White, 143 Darkest Blue, 144 Glowing Dark Crimson. **Price, any color, Pkts. 2c, 5c, 10c and 25c. Oz. \$1.35.** 145, 25 colors mixed. **Pkts. 2c, 5c, 10c and 25c. Oz. \$1.00.**
- CHRISTMAS TREE MIXED.**—146. **Pkts. 2c, 5c, 10c & 25c. Oz. \$1.50.**
- QUEEN OF THE MARKET MIXED.**—147. **Pkts. 2c, 5c, 10c and 25c. Oz. 60c.**
25. **CANDYTUFT**.—(White Empress.) It has magnificent, large hyacinth-like spikes of white flowers, dwarf, profuse garden annual. 1 foot high. **Pkts. 2c, 5c and 10c. Oz. 20c.**
26. **CANDYTUFT**.—Most excellent mixture, rose, crimson, white, purple, etc. Bushy plants 12 inches high, growing large umbels of flowers. **Pkts. 2c and 5c. Oz. 10c.**
27. **CANDYTUFT Gibraltar**.—Perennial, hardy, rose and white. **Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. 75c.**
28. **CARNATION**.—Giant Marguerite. and Malmaison—Richest mixture, excellent garden carnation, flowering 12 weeks from seed. Double fringed many colors. **Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. 75c.**
29. **CELOSIA Cristata**.—(Cockscomb.) Gorgeous mixture, large cockscomb-like heads, ostrich plumes. **Pkts. 2c, 5c, 10c and 25c, 1/8 Oz. 50c. 1/2 Oz. \$1.50.**
30. **CENTAUREA**, *Giant Imperial*.—(Sweet Sultan.)—The newest sort, 2 to 3 feet high, with large flowers, 3 to four inches across. Variety of colors and shades. Popular garden annual, easy culture, large, graceful, fragrant flowers. Excellent for cutting. **Pkts. 2c, 5c and 10c. Oz. 25c.**
31. **CENTAUREA Cyanus**.—(Ragged Robin, Corn Flower or Bachelor's Button.) Excellent mixture. Annual, 2 to 3 feet. **Pkts. 2c & 5c. Oz. 10c.**
32. **CENAUAREA Candidissima**.—(Dusty Miller.) White foliage, used for bedding, edging, vases, etc. **Pkts. 2c, 5c, 10c and 25c. 1/2 Oz. 75c.**
33. **CHRYSANTHEMUM**.—Single and double. Most gorgeous and prettiest varieties, mixed annual sorts, summer blooming garden annual, free blooming 1 to 1½ feet high. **Pkts. 2c, 5c and 10c. Oz. 15c.**
34. **CHRYSANTHEMUM**.—Perennial single varieties. Hardy plant for permanent borders and gardens, compacted bushes 1½ to 2 feet. Immense round daisy-like single flower. **Pkts. 2c, 5c, 10c. 1/4 Oz. 25c.**

BOLGIANO'S UNEXCELLED FLOWER SEEDS.

Pkts. 2c each, 3 for 5c. 5c Pkts. (not ounces) 6 for 35c,
10c Pkts. 4 for 25c.

35. **CINERARIA Hybrid Grandiflora.**—Choicest hybrida mixed, for the window box or conservatory. Large flowers 2 to 3 inches across, of various colors, borne in profusion in the spring. Pkts. 2c, 5c, 10c and 25c.

36. **CLARKIA.**—Double mixed. Free blooming annual, 1 to 2 feet high. Pkts. 2c, 5c and 10c. Oz. 15c.

37. **CLEMATIS Jackmans.**—Large flowering mixture. A hardy climber with fragrant flowers 3 to 4 inches across of white, purple, blue, etc. 25 to 30 feet. Pkts. 2c, 5c, 10c and 25c. 1/2 Oz. \$1.25.

38. **CLEOME Pungenes.**—(Spider Plant.) Robust garden annual 4 to 5 feet, clusters of spider-like flowers of rose color. Pkts. 2c, 5c, 10c and 25c. Oz. 50c.

39. **COBOEA Scandens.**—Beautiful tender climber, growing 20 to 30 feet in one summer. Large bell-shaped blue flowers. Pkts. 2c, 5c, 10c and 25c. Oz. 50c.

40. **COLEUS.**—Choice mixture. Richly colored foliage. Pkts. 2c, 5c, 10c and 25c.

41. **COLEUS.**—New fringed large leaved hybrid mixture. Pkts. 2c, 5c, 10c and 25c. Oz. \$3.00.

42. **CONVOLVULUS Major** or (Climbing Morning Glories). Exquisitely mixed colors, well known annual climber of rapid growth. 30 to 50 feet high. Pkts. 2c and 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

43. **CONVOLVULUS Minor** or (Dwarf Morning Glories.) Fine bushy plants, 12 inches high by 2 feet in diameter, bearing profusely, beautifully mixed colors. Pkts. 2c and 5c. Oz. 10c. Lb. 50c.

44. **COREOPSIS Lanceolata Grandiflora.**—(Harvest Moon.) One of the finest, hardiest garden plants grown, forming bushes 2 to 3 feet high. Bearing quantities of long stemmed, large, single yellow flowers throughout the entire summer. Pkts. 2c, 5c, 10c and 25c. Oz. \$1.25.

45. **COSMOS.**—(New Mammoth.) Fine mixture, orange color, white, crimson, pink, striped and spotted, rich blackish red and other vivid colorings. Annual 5 to 6 ft. with feathery foliage. Excellent for cutting. Pkts. 2c, 5c and 10c. Oz. 25c.

46. **COSMOS.**—Early summer flowering. Mixed colors of compact bushy growth, 4 feet high, flowers, while smaller than those of the Mammoth varieties are produced from July throughout the entire season. Pkts. 2c, 5c and 10c. Oz. 35c.

47. **COWSLIP mixed Primula Veris.**—Early spring flower, hardy plant 9 inches high. Pkts. 2c, 5c, 10c and 25c. 1/8 Oz. 50c. Oz. \$2.50.

48. **CYCLAMEN Persicum.**—Giant double flower, finest mixed colors. Pkts. 2c, 5c and 10c.

BOLGIANO'S UNEXCELLED FLOWER SEEDS.

The Board of Town Commissioners,

Centreville, Md., Sept. 20th, 1906.

Flower seed and bulbs purchased from you in the spring produced a very beautiful result, and our public square in which they were planted has been very much admired.

Yours truly,

E. M. FORMAN, Town Treasurer.

Pkt. 2c, 3 for 5c. 5c Pkts. (not ounces) 6 for 25c. 10c Pkt. 4 for 25c. Pkt., Oz. and 1/4 lb. delivered free but add 8c to Lb.

107. **POPPIES**, Annual varieties. Giant double and single. Brilliant and profuse blooming garden annuals with giant flowers. Grows 2 1/2 feet high; includes the most brilliant mixtures and blending of brilliant colors, also the fringed ranunculus flowered sorts. Pkts. 2c and 5c. Oz. 10c.

108. **POPPIES**, Shirley.—The garden popular sorts, finest mixed colors. Branching plant about 1 foot high, bearing large single flowers with various colors and shades. Certainly one of the most beautiful of the garden flowers. Pkts. 2c, 5c and 10c. Oz. 25c.

109. **PORTULACA**.—(Mexican Rose.) Single Mixed garden annual, of dwarf, spreading growth, about 6 inches high, adapted for dry, hot situations. Flowering in greatest abundance throughout the entire season. A mass of various brilliant colors. Pkts. 2c, 5c and 10c. Oz. 25c.

110. **PRIMULA**, Old Favorite Yellow English Primrose. Pkts. 2c, 5c, and 10c 1/8 Oz. 25c. 1/2 Oz. 75c.

111. **PYRETHRUM Aureum** (Golden Feather).—Dwarf, compact, yellow leaved plant, 9 inches high, largely used in ribbon-beeding and for the general garden. Pkts. 2c, 5c, 10c and 25c. Oz. 30c.

112. **RICINUS**.—Castor Oil Bean and other varieties. Garden annuals of luxuriant growth with large, palm-like leaves, extremely attractive on account of their sub-tropical effect. Our wonderful mixture contains varieties from 6 to 15 feet high, some with immense leaves, green, brown or purple, others purplish leaves and stem, some with foliage, also maroon foliage, and with black stems. Pkts. 2c and 5c. Oz. 10c. 1/4 Lb. 20c, also the following:

Communis Major, 6 feet. **Zanzibariensis**, immense leaves, green, brown or purple. **Borbonianis**, immense foliage, 15 feet high. **Duchess of Edinburgh**, (Gibsoni) purplish leaves and stems, 6 feet. **Obermanni**, red foliage, 8 ft. **Cambogiensis**, maroon foliage, black stems. Any variety of the above at Pkts. 2c and 5c. Oz. 10c. 1/4 Lb. 25c.

113. **SALVIA SPLENDENS Grandiflora**.—The most perfect and popular **SCARLET SAGE** with long stems and much larger and more scarlet than the ordinary scarlet sage. These are bush garden plants about 3 feet high, producing during summer and fall dazzling scarlet flowers in great profusion. Pkts. 2c, 5c, and 10c 1/8 Oz. 25c. Oz. \$1.50.

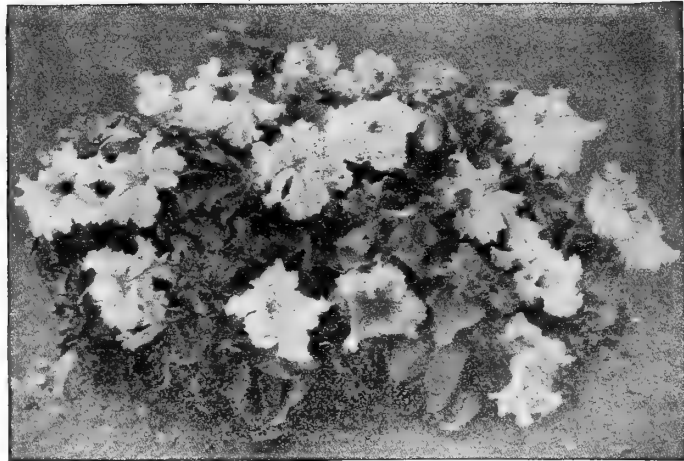

114. **SALVIA SPLENDENS**.—(Compacta or Dwarf Bonfire). Scarlet sage of dwarf, bushy growth, 2 1/2 feet high, erect spikes of brilliant scarlet flowers. Do not let the summer go by without growing a bed of this most beautiful flower. Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. \$1.00. 1 Oz. \$3.50.

115. **SCABIOSA**.—(Morning Bride.) Grandest mixture of colors. Effective garden annual, large double flowers and long stems, excellent for cutting. Many colors. Pkts. 2c, 5c and 10c. Oz. 20c.

116. **SCARLET RUNNER VINE**.—Annual, 15 feet. This bean produces a rapid growing vine, and makes clusters of showy scarlet blooms. Pkts. 2c, 5c and 10c. Lb. 20c.

117. **SALANUM SEAFORTHIANUM**.—Beautiful climber 10 to 15 feet high with immense clusters of blue flowers, tender perennial, blooming first summer from seed. Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. 75c.

118. **STOCKESIA Cynea**.—A hardy perennial, 1 1/2 to 2 feet high, bearing large single lavender and blue flowers, 4 to 5 inches across, in summer and fall. Showy for garden decorations and an excellent cut flower. Pkts. 2c, 5c, 10c and 25c.

101. GIANT FLOWERING PETUNIAS.

119. **STOCKS**, Bolgiano's Giant Perfection.—Double stocks. A magnificent strain 2 1/2 feet high, with long well-filled spikes of very large and double flowers. This well known annual is sometimes grown in pots but usually used for garden decorations. Our mixture has large varieties of colors, and is very fragrant. Pkts. 2c, 5c, 10c and 25c. 1/4 Oz. \$1.00.

120. **SUNFLOWER**.—Single thousand flowered, Single Cut and Come Again, Double Cut and Come Again, Double Globes of Gold, in grandest mixture. This is a branching pyramidal plant bearing hundreds of yellow flowers. The Cut and Come Again Sunflowers are from 3 to 4 feet high and of a bushy habit, bearing hundreds of small Sunflowers 3 to 4 inches across. The Double Cut and Come Again Sunflowers are extremely attractive. The Double Globes of Gold grow 3 to 3 1/2 feet and bear double golden flowers of medium size. Pkts. 2c, 5c and 10c. Oz. 20c.

We can also furnish the above varieties in separate kinds, at same price with the exception of the Double Cut and Come Again which is 75c per Oz.

121. **SWEET ROCKET**.—Mixed colors. Hardy garden favorite, 2 to 3 feet, fragrant purple or white flowers. Pkts. 2c, 5c and 10c.

122. **SWEET WILLIAM**.—Perfection single and double large flowering in excellent mixture. An old favorite hardy garden perennial, 1 foot high. Bears heads of fragrant richly colored flowers. Pkts. 2c and 5c. Oz. 15c.

123. **THUMBERGIA Alata**. (Mixed Colors).—Annual climbers, 6 feet high, bearing fine buff, white or orange flowers with black centers. Pkts. 2c, 5c, 10c and 25c. Oz. 50c.

8. **Coccinea.**—Cherry red.
9. **Coquette.**—Primrose.

GLADIOLUS

RARE AND BEAUTIFUL VARIETIES

The Gladiolus deserves to be grown in every garden. For cutting they are invaluable, the flowers lasting a week in water. There is nothing in the flower kingdom so easy of culture and so sure of success as the Gladiolus. They can be planted any time from April to June 15, and never fail to flower the same season. They commence blooming in July, and by successive plantings every two weeks may be had in flower until checked by frost. They should be planted 6 in. apart in rows 4 in. deep. We offer what we consider most appropriate for the home garden as well as for the florist trade, viz:

Groff's Hybrid.—A mixture together with all sorts of Hybrids, consisting of Gandavensis, Lemoinei, and Childsi, making in one bed the greatest collection and variation of color. 3c each. 20c per doz. \$1.50 per 100.

Giant Gladioli Childsi.—Tall and erect, 4 to 5 ft. high of free branching habit and profuse bloom. 7 to 9 in. across, each stem produces 3 or 4 spikes. 3c each. 25c per doz. \$2.00 per 100.

Lemoinei Hybrids.—A showy and most splendid flowering variety. Consisting of more than forty of the named sorts. 3c each. 20c per doz. \$1.50 per 100.

New Giant Nanceanus.—The New French Mammoth Flowering Gladiolus. Flowers of immense size borne on long spikes covered with profuse blooms. 5c each. 35c per doz. \$3.00 per 100.

Bolignano's Superb Mixture.—A mixture of the largest number of the most magnificent varieties of any popular mixture yet introduced, containing the best strains of each variety. 3c each. 20c per doz. \$1.50 per 100.

Bolignano's Fine Mixture.—A mixture containing some of the choicest and best strains of the different named varieties. 1st. size. 3c each. 20c per doz. \$1.50 per 100. 2nd size. 3c each. 15c per doz. \$1.25 per 100.

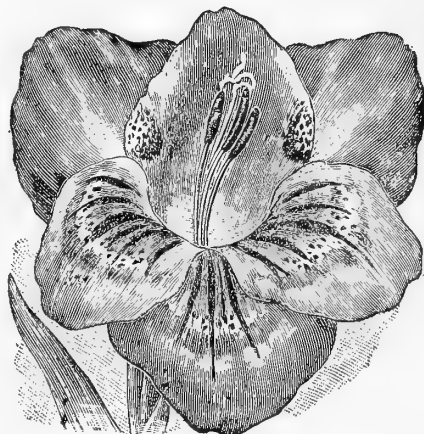

THE SILVER TROPHY STRAIN.

Groff's "World's Best" New Hybrid Seedlings

SEC. 1. Newest Reds, Scarlets, and Crimsons. The world's commercial strains, offer few equal and none better, (they should be largely planted.) 5c each. 40c per doz. \$3.00 per 100.

SEC. 2. New White, Light and Yellow. All shades of white, cream and yellow, in many combinations, relieved by stains and blotches of rich colors in most pleasing contrasts. 8c each. 50c per doz. \$4.00 per 100.

SEC. 3. Rare Blues, in Clematis, Lilac and Heliotrope Shades. New Hybrids of Papilio Major, practically unknown. No such seedlings offered elsewhere in the world. 10c each. 60c per doz. \$5.00 per 100.

THE SILVER TROPHY STRAIN.
THE NEW HYBRID SEEDLING GLADIOLUS.

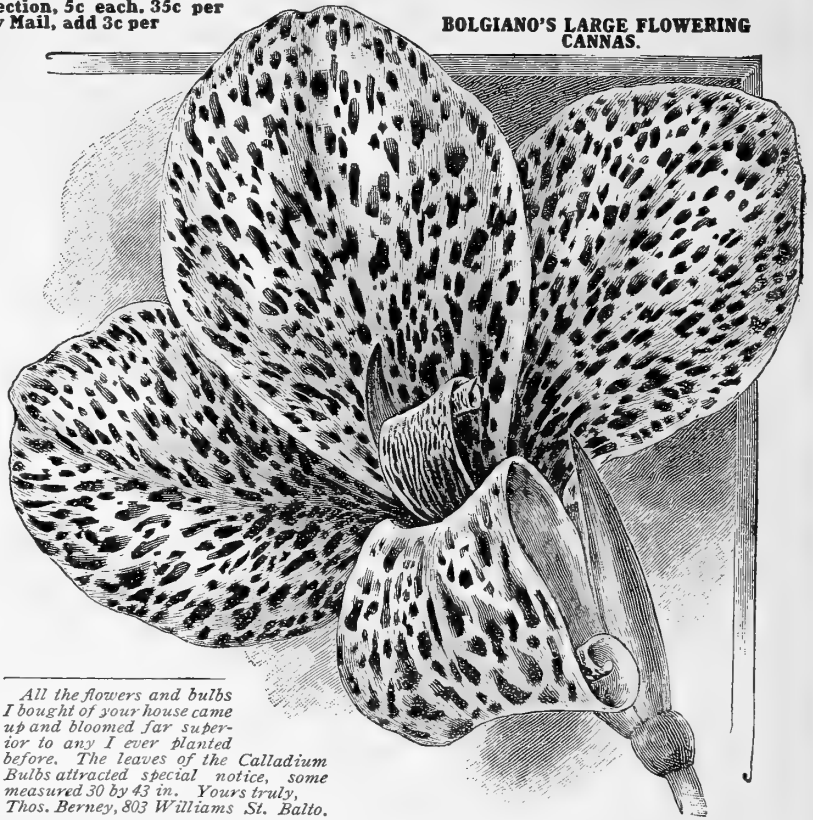

Bolgian's Dwarf French Cannas.

LARGE FLOWERING SELECTED NAMED VARIETIES.

Price: Finest Mixture of Named Varieties. Our Selection, 5c each, 35c per dozen. Your Selection, 50c per dozen. If to go by Mail, add 3c per root or 20c per doz.

23. **Queen Eleanor**.—Yellow, spotted red, green leaves, 2 to 3 ft.
24. **Rosemawr**.—Brilliant rose, 2 to 3 ft.

BOLGIANO'S LARGE FLOWERING CANNAS.

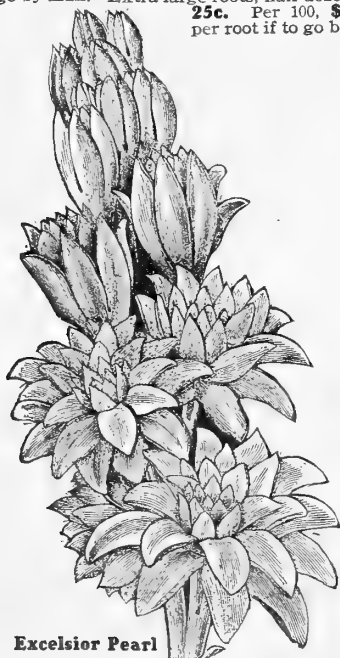

All the flowers and bulbs I bought of your house came up and bloomed far superior to any I ever planted before. The leaves of the Calladium Bulbs attracted special notice, some measured 30 by 43 in. Yours truly, Thos. Berney, 803 Williams St. Balto.

Calladium OR ELEPHANT EARS.

One of the most effective plants in cultivation for the flower border or for planting out upon the lawn. It will grow in any garden soil, and is of the easiest culture. To obtain the best results it should be planted where it will obtain plenty of water and abundance of rich compost. Foliage light green. When full size it stands 6 feet high and bears immense leaves 3 to 4 ft. long by 2½ ft. wide. Small roots, each 5c. Dozen 50c. By mail, add 5c a root. Large roots, each, 10c. Dozen \$1.00. By mail, add 7c per root. Extra large roots, each, 15c. Dozen, \$1.50. Mammoth roots, 25c each. \$2.75 a dozen. If to go by mail, add 10c per root.

EXCELSIOR PEARL DOUBLE DWARF TUBEROSES

One of the most fragrant and most popular of the summer flowering bulbs. May be started early in hotbeds or pots, or planted in open ground after the first day of May. Small roots, per dozen 10c. Per 100, 50c. Large roots, per dozen, 15c. Per 100, 85c. Add 1c per root if to go by mail. Extra large roots, half dozen, 15c. Dozen, 25c. Per 100, \$1.25. Add 2c, per root if to go by mail.

Excelsior Pearl

Double Dwarf Tuberoses.

JAPANESE IRIS.

(Iris Kaempferii.)—Prices: Flowering clumps of the new large flowering varieties of Japanese Iris. Each 10c. 3 for 25c. Dozen 90c. Add 5c each if to go by mail.

1. **Date-dogu**, violet and yellow, 3 petals.
2. **GeKka-no-nami**, Pure white early: 3 petals.
3. **Hanna-no-niskiki**, Purple and white, 3 petals.
4. **Kagaribi**, White, blue and golden.
5. **Kimi-no-megumi**, Pearl, light and dark blue, white, 3 petals.
6. **Kuma-fimjiri**, Silver, lilac, yellow, 6 petals.
7. **Kako-no-iro**, Royal Purple and gold, 6 petals.
8. **Oniga-shima**, Violet and gold, 6 petals.
9. **Senjo-no-hara**, White and purple, 6 petals.
10. **Shishi-odori**, Deep purple and golden center, 6 petals.
11. **Shi-un-ryo**, Violet and yellow, 3 petals.
12. **Shishi-ikari**, White, dark purple and yellow 3 petals.
13. **Shuchikwa**, Crimson, yellow, white, 3 petals.
14. **Taiheiraku**, Crimson, purple, 8 to 10 petals.
15. **Tomo-no-umi**, the finest white, 6 petals.
16. **Tora-odori**, Pure white and violet, 3 petals.
17. **Uchiu**, Purple and Crimson, 6 petals.
18. **Uji-no-hotaru**, Deep purple and blue, 6 petals.
19. **Yedo-junan**, Rich Royal Purple.
20. **Yukari-no-ira**, Purple, crimson and white

GERMAN IRIS.—Add 5c per dozen, postage, if to go by mail.—Canary Bird. 1. Yellow and bronze, striped white, each 5c. Doz. 50c. 100 \$3.50. 2. **Old Purple Flag**, Deep Purple, each 5c. Doz. 35c. 100, \$2.00. 3. **Queen of May**, Rosy lilac, each 5c. Doz. 50c. 100, \$3.50. 4. **Comte de St. Claire**, White, with ½ inch blue border, each 10c. Doz. \$1.00. 100, \$7.50. 5. **Florentina Alba**, Large pure white, each 5c. Doz. 50c. 100, \$3.00. 6. **President Carnot**, Pale Blue, each 5c. Doz. 50c. 100, \$4.00. 7. **King Maori**, Golden yellow and velvety crimson and gold, each 10c. Doz. \$1.00. 100, \$7.50. 8. **Celestial**, Delicate lavender, each 5c. Doz. 50c. 100, \$3.50. 9. **Shakespeare**, yellowish bronze and purple, each 5c. Doz. 50c. 100, \$3.50. 10. **Finest Mixed**, Many beautiful varieties, each 5c. Doz. 35c. 100, \$2.00.

ENGLISH IRIS.—Each 3c. Doz. 25c. 100, \$2.00. Add 5c doz. postage.—Large, handsome flower, with rich purple, blue and lilac colors predominating, 18 to 20 inches high. Perfectly hardy. Mixed colors.

SPANISH IRIS.—Each 3c. Doz. 10c. 100, 50c. The flowers are of great beauty, and if cut in the bud last from one to two weeks in bloom. The Spanish Iris succeeds nicely as a garden plant, requiring a little protection of litter or straw during winter. Mixed colors.

Paeonies. Madeira Vine.

We Pay the Postage on Paeonies.

These noble plants are exceedingly effective. The profusion and duration of bloom, combined with handsome massive foliage, accommodating habit; and easy culture, render them one of the most popular hardy plants grown.

	Each	Per Doz.
Double White	20c	\$2.00
Double Rose	20c	2.00
Double Crimson	20c	2.00
Double Mixed	15c	1.40
One each White, Rose and Crimson, 50c postpaid.		

Tuberous-rooted climber, with glossy green leaves and delightfully fragrant white blossoms. Sometimes called Mignonette Vine. It is of rapid growth, and from a few tubers vines will be produced sufficient to cover one side of a cottage in a single season. The tubers are tender, and must be protected from the frost during winter. Each, 5c; doz. 50c.

I planted your tuberose bulbs last summer. I planted them at different times and have some now in bloom in the house. People that saw them say they were the biggest they ever saw.

Yours very truly,

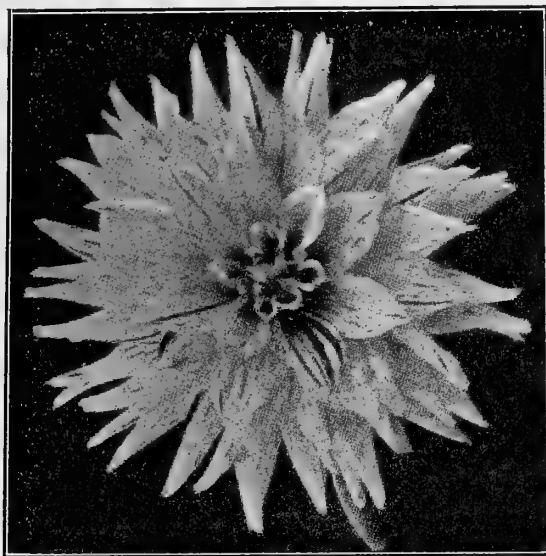

T. G. MUMFORD,

Frederick, Md.

Dec. 18, 1905.

Dahlias

Newest and
Choicest.

THE DAHLIA. A FLORAL SUCCESS.—There is no flower in all the Floral Kingdom more shapely in form, brilliant in color, sturdy in growth and profuse in bloom than the Dahlia. We have this year far surpassed all our previous efforts by offering to the public a selection of this marvelous flower, the best yet introduced. Our selection consists of good, strong, sound, field grown roots, true to name and color as listed below; viz—

CHOICEST ROSE BUSHES, PLANTS, ETC.

ALL OUR ROSES ARE GROWN ON THEIR OWN ROOTS.

All our Roses and Plants are Free by Mail unless otherwise noted.

All Our Roses are grown on their own roots, thus insuring you the same variety you plant as long as any of the plant or root remains. Don't buy budded or grafted Roses. If you do you will be disappointed, unless you know how to keep the wild suckers down from smothering the plant. Many fail with their Roses on this account.

OUR ROSES WILL NEVER DISAPPOINT YOU.

The Safe Arrival is Guaranteed of all goods sent by mail or express to any part of the United States. We ship plants at all seasons of the year, even in the coldest weather. With this guarantee you incur absolutely no risk.

Quality of Plants.—Our long experience in growing and mailing plants has taught us that it pays to ship strong, healthy plants, and as we guarantee their arrival in good condition, customers may rest assured they will receive the best plants to be had.

THE COCHET SET OF ROSES.

BABY RAMBLER.

New Dwarf Ever-Blooming Crimson Rambler.

(Madame Norbert Levassieur.) This is the Rose that has set not only America, but all of Europe talking. It has created a commotion in the Rose world that no other Rose has ever approached, and it is without question a decidedly sensational variety. It is identical in every way with that wonderful Rose, Crimson Rambler, except that it is a dwarf, bushy grower and is a true ever-bloomer. It is in bloom all the time, flowers in large clusters of brightest crimson. It grows to a height of 18 inches, and hides the plant with its bloom. A most wonderful Rose. A prize winner. It has taken the following prizes: The Grand Silver Medal at Paris in May; first-class certificate of merit by the National Horticultural Society in France; first-class certificate by the Royal Horticultural Society of London; first-class certificate by the National Rose Society of England; Gold Medal by the Horticultural Society of Orleans and at St. Louis. A most wonderful Rose. Fine plants 25c each. 3 for 60c. \$2.00 per doz. 2 year old plants, 50c.

THE CRIMSON RAMBLER SET OF ROSES

7 for 60c Postpaid. 7 Large 2 Year Old Plants for \$2.50 Delivered.

1. **Crimson Rambler.**—The well-known climber. Lovely crimson blooms in a cluster. 10c each. Large 2 year old plants 40c each.
2. **Pink Rambler.**—A beautiful climbing pink rose. 10c each. Large 2 yr. old plants 40c each.
3. **New Philadelphia Rambler.**—More intense in color than the Crimson Rambler. 10c each. Large 2 year old plants 40c each.
4. **White Rambler.**—Clusters of pure white roses. 10c each. Large 2 year old plants 40c each.
5. **Psyche.**—The Superb Rambler. The color is white with delicate pink center. 10c each. Large 2 year old plant 40c each.
6. **Yellow Rambler.**—A hardy yellow climber. 10c each. Large 2 year old plants 40c each.
7. **Queen Alexander.**—Is a beautiful rose pink. 10c each. Large 2 year old plants 40c each.

"Phenomenal" Collection of Fuchsias

These are the Best Varieties of the Fuchsias, and Embrace All the Colors Known in This Beautiful Flower. Be Sure and Try Them. Price, 10c each, 3 for 25c. or 16 for \$1.10. Any 7 Varieties 50c.
Gladstone—One of the largest double Fuchsias. A startling variety.
Phenomenal—King of Fuchsias, flower measures 3½ in. across. Scarlet and rich violet purple.
White Phenomenal—Same as above but with larger snow white flowers.
Rose Phenomenal—Same as Phenomenal except the flowers are brilliant rose color.
Champion of the World—A most beautiful coral red, corolla most intense bright, dark purple. Grand.
Jupiter—Clear magenta with dark crimson veins.
New Trailing Queen Fuchsia—It is a trailing vine. The flowers are borne in large, drooping clusters.
Mrs. E. G. Hill—Tube and sepals very brilliant, deep scarlet, thick and leathery in texture. Corolla is very large double and pure white.
General Roberts—The blooms are 4 to 5 inches long. Corolla a rich plum color, tube and sepals crimson. Borne in clusters.
Rosains Patrie—Tube and sepals rosy carmine. Corolla of the purest white.
New Fuchsia, Silver King—The foliage is covered with silvery white. Blossoms are of a beautiful waxy carmine or pink color.
New Double White Fuchsia, White Giant—The largest and best white Fuchsia grown.
Sheciosa—The fine Star-shaped Flowers are produced in profusion. Tube and sepals bright rose corolla, brilliant carmine.
Black Prince—This is without question, the very finest and easiest Fuchsia for amateur to grow. We have seen specimen plants 6 ft. in height and 4 feet across, loaded with thousands of bright buds and blossoms of a beautiful waxy pink or carmine color.
New Double Perpetual-Flowering Weeping Fuchsia-Storm King—Gracefully drooping buds are balls of glowing scarlet crimson. Sepals are glowing scarlet crimson, the large double corolla is a delicate waxy whiteness elegantly pencilled with a deep and bright crimson.
Avalanche—Has beautiful foliage with flowers of deepest rich dark purple.

ASPARGUS SPRENGERI.

The Emerald Feather—The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any situation. 10c each; large, strong plants, 25c each.

ASPARGUS PLUMOSUS NANUS.

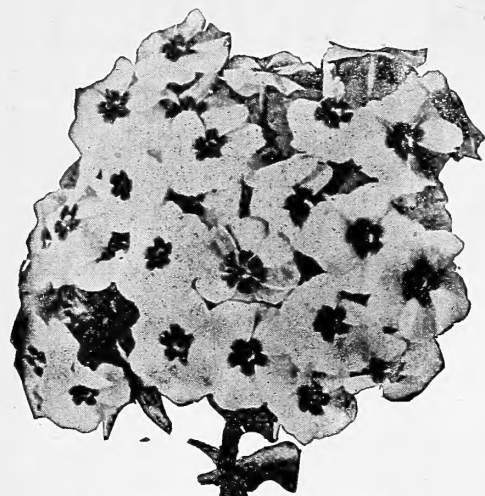

The Climbing Lace Fern—This graceful climber has taken the place of Smilax in all fine decorations. It is much more graceful—its foliage being finer than that of the most delicate Fern—and will last for weeks after being cut, the whole plant being of a bright, cheerful green. Excellent house plant, succeeding under almost any condition. 10c each for fine plants; large strong plants, 25c each.

SHASTA DAISIES—New.

The Shasta Daisy is one of the most marvelous productions in the flower line. It is extremely hardy; it is perennial, blooming better and more abundantly each season; it is not particular as to soil; it blooms for several months; the flowers are extremely large and graceful, averaging about four inches in diameter, with petals of the purest glistening whiteness; the blooms when cut remain perfectly fresh for two weeks or more. 15c each.

64 **Bolgiano's Choice Flowering Plants, Shrubbery, Etc.**

ALL SENT BY MAIL OR EXPRESS PREPAID A FEW DAYS AFTER YOUR SEED ORDERS ARE FORWARDED. WHEN WE DO NOT PREPAY CHARGES WE MAKE SPECIAL NOTE. STATE WHAT DATE YOU WANT THE PLANTS FORWARDED.

New Moon Flower, Heavenly Blue—The flowers are heavenly blue. Price, 10c each.

HARDY MOON-VINE.

Pure white flowers and perfectly hardy. 10c each.

FRAGRANT JASMINES.

Maid of Orleans—This beautiful Jasmine is easy cultured, fine grower, good bloomer, elegant fragrance, and double flowers of chaste and waxy white appearance.

Fine plants, 10c each; strong plants, 35c each. If you have only one Jasmine, let it be this one.

Poetica—Similar to the Jasmine Grand. Flower small, but borne on large spikes. 10c each; strong plants, 20c each.

Revolutum—A yellow-flowered Jasmine, nearly hardy and exquisitely fragrant. 10c each; fine strong plants, 20c each.

Grand Duke of Tuscany—This Jasmine is very easily grown, even small plants bearing a profusion of very double cream-white flowers having a delicious perfume. It can be stored in a dry cellar in winter. 25c each; strong plants, 50c each.

Grandiflorum—It is from Italy. The flowers are pure white, star-shaped and of exquisite fragrance. 10c each; fine strong plants, 20c each.

Jasmine Gracillimum—Exceedingly floriferous. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white, fragrant flowers. 10c each; fine strong plants, 15c each.

Cape Jasmine—Well known for its delicious fragrance and beauty of its flowers, which are white and double. 15c each. Fine.

Malayan Jasmine, Rhyncospermum Jasminoides—This makes an elegant hard-wooded climber, or can be trained in bush form. It bears large bunches of pure white flowers with the most delicate Jasmine perfume. It is known in the South, where it is hardy, as the Confederate Jasmine. It will delight all. 10c each, fine strong plants, 20c each.

CINNAMON VINE.

(Hardy Vine.) A pretty hardy vine, with edible roots and neat, glossy, cordate foliage. In midsummer it bears clusters of tiny but exceedingly fragrant flowers, with an odor like cinnamon. 5c each or six for 25c.

LILACS.

HARDY SHRUBS.

Purple Lilac—This is the old-time favorite of everybody's garden. 15c each.

White Lilac—Its pure white, graceful plumes of fragrant flowers add grace and beauty to bouquets, vases, etc. As a cemetery plant it is without a rival. The plants we offer are unusually fine. 20c each.

HONEYSUCKLE.

HARDY VINES. Price, 10c Each.

Aurea Reticulata—(Golden-Leaved.) Beautiful variegated foliage of yellow, white and pink.

Chinese Evergreen—Blossoms nearly all season. Deliciously fragrant. Flowers buff, yellow and white.

Hall's Japan—Literally covered all Summer with beautiful yellow and white flowers. Very fragrant.

Belgian, or European Sweet Scented—A fine hardy grower, flowers large and exceedingly sweet. Color, buff, yellow and red. A constant bloomer. The finest Honeysuckle suitable for trellis or pillar.

Scarlet Trumpet, or Red Coral—A rapid grower, bright red, with trumpet-shaped flowers. This is the old, well-known variety.

SCARLET SAGE.

Price, 5c Each, or 50c Per Dozen.

New Dwarf Scarlet Salvia, Le President—It is completely covered with rich, scarlet flowers. We have had plants that by actual measurement were only 15 inches high and two feet across.

New "Dwarf Bonfire"—The variety simply hides the foliage and is a sheet of brightest scarlet.

Silverspot, New Salvia—Has striking handsome spotted foliage and bright scarlet flowers. Splendens.—The standard sort for bedding.

Alba—Flowers are pure White.

Variegata Splendens—Flowers striped white and red.

Yellow Bird, New Salvia—Yellow Foliage and scarlet flowers.

FRAGRANT HELIOTROPES.

Snow Wreath—Pure White. Price, 6c Each. **Albert Delaux**—Purple Gold.

The Queen—Royal Purple. **Florence Nightingale**—Light lavender.

Chieftain—Deepest violet purple.

PANSIES.

Bolgiano's Giant Show Pansies—They produce their large flowers throughout the entire Summer, and have been brought as near perfection as it is possible to bring them, as the endless variety and extremely rich, brilliant and charming shades of color will convince you—color so brilliant that it was not thought possible a few years ago could be produced. The combinations of color in the same flower are exquisite and wonderful, and so delicate that no description can convey an adequate idea of their beauty. 35c per dozen. \$2.50 per hundred.

We also sell Pansy clumps of all the best named varieties at 5c each, these clumps are so large if wanted by mail it will be necessary to add 5c for postage.

VIOLETS.

Beautiful and Fragrant.

Double White—Perpetual flowering Violet, Swarley White, or Queen of Fragrance. The best White Violet 10c each.

Lady Hume Campbell—One of the purest of the double blue violets 10c each.

Hardy Russian—Hardest of all violets, deep rich blue. 10c each.

Imperial or Parma Violet—The largest, richest blue and most highly perfumed of all violets. Size of a half dollar. 15c each.

CHINESE WISTARIA—Popular Hardy Vine 10c each; large plants 25c.

COLEUS.

We have a collection of 100 kinds of the most distinct sorts. Leave the selection of varieties to us, as it is hard to describe the various tints. Price, 5c each; 12 for 50c; 25 distinct varieties for \$1.00; by express, 35 for \$1.00. These are all good bedders, standing the hot sun without losing their colors. Price of Coleus by the hundred, when sent by express not prepaid, \$2.50.

Autumn Glow—All the beautiful tints of Autumn leaves.

Bronze Queen—A deep bronze with fine yellow edge.

Black Bird—Very dark with reddish cast.

Butterfly—A crimson bronze, old gold and green.

Bizarre—Crimson center, edged with green and gold.

Beauty—A crimson bronze, with three colors.

Chicago Bedder—Green and gold, an excellent bedder.

Dora Clapp—Crimson center, with bronze and green edge.

Empress of India—Crimson, with golden edge.

Fire Brand—A fine bedder. Dark crimson shaded garnet.

Fire Crest—The foliage is a brilliant carmine crimson shade, the edge is slightly marked with golden yellow.

Golden Bedder—Deep golden yellow.

Golden Verschafeltii—This ranks first in yellow varieties.

Hero—A deep, jet black.

Hiawatha—Bronze and yellow spotted.

Progress—A beautiful mottled red, green and bronze.

Retta Kirkpatrick—Bright green, large, deep yellow center.

Setting Sun—Crimson, with brightest golden edge.

Verschafeltii—A rich, velvety crimson. The best bedder.

Yeddo—Color deep golden yellow, spotted bright green.

LARGE FLOWERING CLEMATIS, Hardy Vines, Jackmanns—This is the best known of the fine perpetual Clematis. This plant is free in its form of growth, and an abundant and successful bloomer, producing flowers until frozen up. The flowers are large and of an intense violet purple, remarkable for its velvety richness. 50 cents each.

CLEMATIS PANICULATA, (Hardy Vine)—Covered in August and September with a sheet of clustered snow-white bloom of the most delicious fragrance. Perfectly hardy; grows rapidly; Fines vines, 20c each; 3 for 50c.

NEW COLEUS.

Christmas Jem.

The foliage of this most beautiful Coleus is simply indescribable. The leaves, when fully developed, are ten inches long by eight inches in width. The prevailing color is crimson, interlaced with green, carmine, yellow, chocolate, etc. Without doubt, the most strikingly handsome of all foliage plants. 15c each.

VERBENAS.

The Mammoth Flowering—Verbena produces uniformly magnificent large trusses, with flowers of unusual size and of a wide range of colors. The individual blossoms are frequently larger than a silver quarter—in fact, many are scarcely covered by a silver half dollar. The colors are varied, and embrace all desirable markings. We offer the plants at a very moderate price. 8c each; 7 for 50c; 15 distinct varieties for \$1.00.

Lemon Verbena—This plant has the most fragrant foliage of any plant grown. The fragrance is that of a lemon. One plant will scent up a whole yard. Grows rapidly. Exquisite. Can be wintered in the cellar. 5c each.

HYDRANGEA PANICULATA.

(Hardy Shrub.) A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Blooms profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each Spring fully one-half of the past season's growth, as the flowers are much finer. 15c each; strong flowering plants for immediate effect, 35 to 50c each, according to size.

Acalypha, Sanderii—The most sensational new plant introduced for years, and one of the most striking flowering ornamental plants. Strong, free growth with large dark green leaves, from each axil of which rope-like spikes of velvety crimson flowers from one to two feet long and nearly one inch thick are gracefully suspended. 10c each.

TUBEROUS-ROOTED BEGONIAS.

Single—White, yellow, crimson, rose, scarlet. 10c each; 3 for 25c.

Double—In the same colors. 15c each; 6 for 75c.
